

## Johnson Offers Amarillo Course

### B. A. Head Will Teach Credits and Collections Work 15 Weeks

Prof. Lee L. Johnson, head of the Department of Business Administration at West Texas State College, will teach a course in credits and collections at Amarillo under the auspices of the Tri-State Association of Credit Men.

Persons wishing to register for the course will meet at the Capitol hotel Tuesday, February 6, at 7:30 p. m. Assignments will be made at that time and a meeting hour determined.

#### Will Begin February 13

One two-hour lecture period will be conducted by Prof. Johnson each week for fifteen consecutive weeks. The date of the first lecture is February 13. The course will be offered on three plans. One is for regular college credit, and the fee will be \$10 for the course. Another, for which the fee is \$12, will provide a certificate in the National Institute of Credit. Auditors will pay \$5 for the course. Anyone may enroll, but college credit will be granted only those eligible for it under standard regulations. Auditors will have no grades or examinations.

#### Johnson Well Qualified

Plans for the course have been taking form for several weeks in conferences between M. W. West and George G. Boyd of Amarillo, spokesmen for the Tri-State Association, and College officials.

Mr. Johnson is a graduate of West Texas State College and has the masters degree from the University of Texas. He is nearing completion of Ph. D. degree work at the University of Missouri.

#### A National Movement

The National Institute of Credit for several years has been developing courses and seeking cooperation with colleges and universities. Its certificates are based upon completion of work in such courses as economics, credits and collections, fundamentals of accounting, business English, business law, merchandising, public speaking, and problems of credit management.

The current course is one of a number which the Tri-State Association of Credit Men intends to sponsor in Amarillo.

## TIPA Meeting Date Nears—Plans Made

Several members of Type High, W. T. press club, will attend a Texas Intercollegiate Press association meeting in San Marcos, April 18 and 20. Southwest Teachers College's press club will be host.

Local students will attend business sessions, banquets, and problem discussions, and will enter local selections in the 14 contests held in connection with the annual convention.

A College-wide contest to be continued until March 5 will be sponsored by The Prairie in several of the contests. Prizes of five dollars will be offered T. I. P. A. selections in the following entries: Serious short story, humorous short story, familiar essay, news article, sports story, editorial, feature story, poem, and one-act play.

Ten dollar prizes will be made to the winners of the formal essay, and the literary magazine. Trophies will be given to the winning annual both in junior and senior divisions, and to three newspapers, two in the senior division and one in the junior division.

Judges to rank the entries will be taken from a list to be selected by the executive council of the T. I. P. A., which will be called for a meeting soon, by the president, Russell Watson, Jr., of San Marcos.

Local entries will have local judges, and only one in each division will be used. Any student may enter any number of subjects in any division. All entries should be given to the editor of The Prairie in sealed envelopes and should be typewritten.

## Bookplate Collection Displayed in Museum

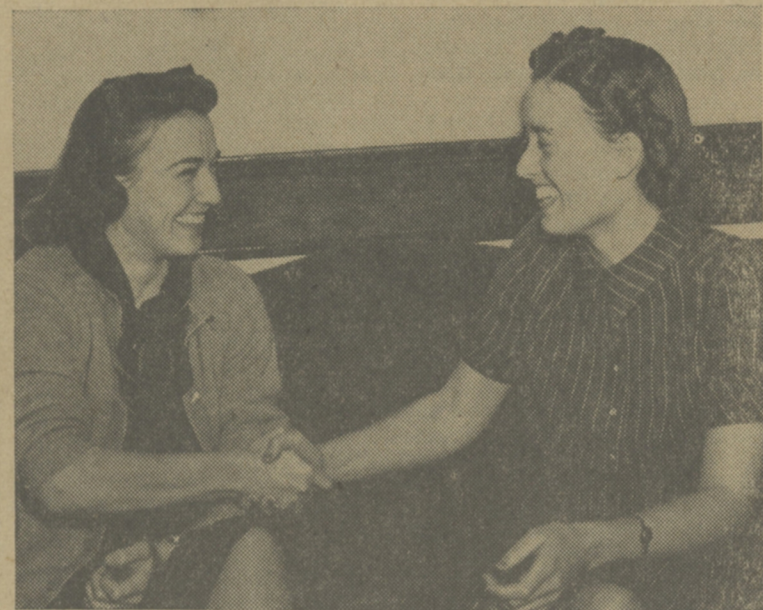

A collection of bookplates exhibited by Miss Isabel Robinson of the art department of the College is the current hobby display at the Panhandle-Plains Historical Society museum. Many of the bookplates were designed by ex-students.

The most outstanding plate is the original drawing of the museum. It was designed by Miss Robinson. The line cut reproduction of this print also is on exhibit.

Other bookplates included are magazine reproductions of block prints of such characters as George Washington, Herbert Hoover, Cameron Mann, Frances Berry, and Robert B. Adam. Also worthy of attention is the smallest bookplate in the world. Other plates include linoleum block prints, abstract wood block prints, and personal prints.

(Continued on last page)

## Student Prexy Congratulates Queen

Miss Marion Miller of Claude (left), new "Personality Queen" of W. T., is shown getting a hearty handshake of congratulations from Student President Ulane Zeek of Lamesa, shortly after the election returns were announced. The election was held by the Student Senate. Coronation thrills and prominent featuring in Le Mirage are ahead for the queen.

## Marjorie Reeve Chosen "Student of the Week"

MARJORIE REEVE

Mrs. Marjorie Reeve is one married woman whose husband does not get all the credit and honors in the family, for this week Marjorie is being honored as the "Student of the Week."

Marjorie walked to the altar with Charles Reeve, an ex-student of West Texas State, last summer.

Mrs. Reeve is continuing her work in school this year. She is a senior music major and works in the Bureau of Public Service. She is now working on her senior recital, which will be in May. She plays the organ as well as the piano, and enjoys bridge, tennis, swimming, and horseback riding.

She is president of Alpha Chi National honorary society, and is a member of the Madrigal Club, College orchestra, College trio, and the Presbyterian choir.

Her hobby is collecting autographs of famous people and she keeps a scrapbook of authors and musicians.

## President Hill Gets Scouting Recognition

President J. A. Hill received the highly prized silver beaver award at a banquet meeting of the Llano Estacado Boy Scout council in Amarillo last week.

Bishop E. C. Seaman made the award, which is the highest gift a council can make. Dr. Hill long has been an officer and leader in this council. He also was honored with the office of national representative.

His services to Scouting include the new course in the subject here, taught by Prof. Milton Morris. An expansion of the College program for Scouting awaits only proper financing.

Prof. T. M. Moore was re-elected chairman of the Canyon district of Scouting. Mr. Moore has given much of his time to the movement recently, and his district has shown outstanding progress.

## School Journalists Are Coming

### Pretty Borger Senior to Preside at Seventh Convention

High school journalists will dominate the campus program next Saturday as the Panhandle High School Press Association holds its second successive annual meeting at West Texas State, its permanent home.

Presiding over open sessions will be Joan Shouse of Borger, head of the organization. Bernice McClelland of McLean is the vice-president and Laura Lou Ferguson of Canyon is secretary-treasurer. Olin E. Hinkle, director of journalism at W. T., is general sponsor and editor of the PHSPA publication.

#### To Be Assembly Guests

The visitors will have reserved seats in assembly, where they will hear the Buffalo band, a trio from Amarillo high school, and a keynote address by Prof. DeWitt Reddick of the University of Texas. Prof. Reddick, author of a new high school journal text, will receive the Ph. D. degree at the University of Missouri in June. He will speak on "The Press and the World Crisis," a subject familiar to him as the result of extensive studies in Europe.

#### Two Luncheons Necessary

Features of the convention will be luncheons at the Baptist and Presbyterian churches, a light lunch at the College cafeteria given by the Canyon chamber of commerce, trip to museum, and a reception dance given by Type High at Cousins hall from 7 to 9 p. m. About 350 visitors

## Coronado Lore Is Collected Here

### History Students Write Series of Articles On Noted Explorer

Writing of interesting historical feature articles has been started at West Texas State College in connection with Dr. L. F. Sheffy's extensive plans for participation in the Coronado celebration.

This celebration, a portion of which will be held in Amarillo, has caused a new and vibrant interest in southwestern history here.

Attention is directed in particular toward the background of this colorful pageant, which, according to Dr. Sheffy, will excel all other celebrations in this part of the country.

Study and research on the history of the Southwest has made it possible for a number of students to put their work into practice with a series of articles about Coronado. Each student will write a 2400-word story pertaining to the expedition. The story will then be divided into short serials and distributed for publication in newspapers of this area by the College news service. The purpose of this research, says Dr. Sheffy, is to stimulate interest and enthusiasm in the public for this great cavalcade.

Thomas Woods, a well-known historian, is writing a dramatic presentation of the expedition to be re-enacted first in the leading cities of Arizona, then presented to other important cities in New Mexico, Colorado, and Texas.

Mr. Sheffy is guiding the student historians, who include Edgar Frazier, Ruth Erma Garrett, James Vaughan, Margaret Deal, L. F. Cleek, Mrs. Evelyn Hutto, Ruby Lee Stoval, Fern Griffin, Neville Brewer, Edythe Shearer, Lillie Lloyd Jackson, Novelene McKinney, Maxine Hoyle, Earl Stagner, Ulane Zeek, Maurine Hoyle, and Wanda Brock.

## Harper's Magazine Staff Member to Talk Here Twice

B. O'Donnell, staff member of Harper's Magazine, will speak to students of English and journalism here Thursday at 9 a. m., and will return Saturday to address the Panhandle High School Press Association convention at 10 a. m.

He will speak in the auditorium of the Education building.

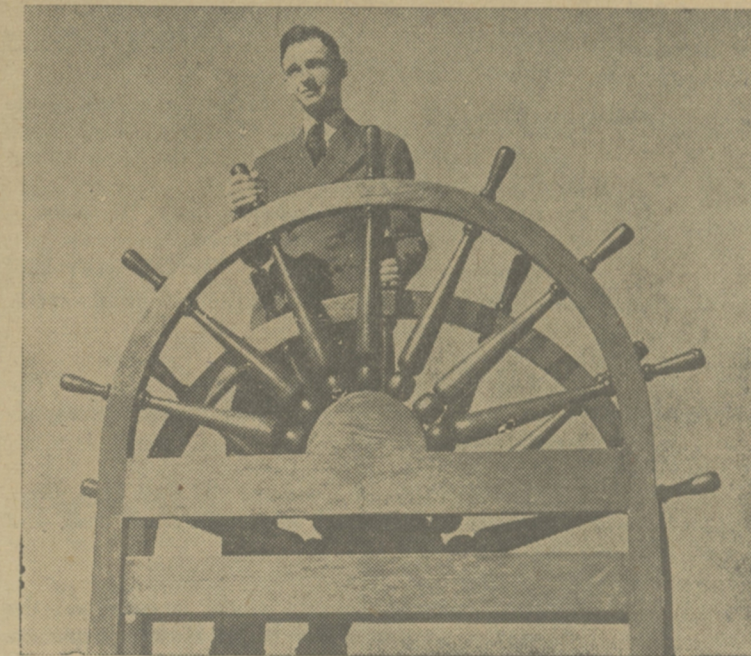

Mr. O'Donnell will give students an opportunity to examine actual manuscripts, which will show corrections, changes, and revisions made by the editors before publication. He also will show an original copy of the first issue of Harper's Magazine published in 1850 and containing contributions by Charles Dickens and other famous writers of that period.

He will discuss how editors get material, how authors get their ideas, the amount of work done by authors in satisfying their editors, examples of revision done by editors, merchandising of books and magazines, and other allied topics.

Mr. O'Donnell has canceled several scheduled appearances in order to make the two addresses here.

# Victory Bell Given West Texas State

## This Freshman Had Nautical Idea

Although land-bound like most plainsmen, Freshman Barney Davidson of Kelton struck a nautical note in designing and building a beautiful bedstead in his industrial arts course last semester. He is shown above holding his helm model, which is made of genuine mahogany. He had had no previous training in the manual arts. He hopes to become a draftsman and designer in the aviation industry. Barney achieved sophomore standing for the spring semester.

## Marion Miller Is Queen To Be Crowned In February

Marion Miller, who was selected "Personality Queen" in a campus election Thursday, will be crowned in a traditional ceremony in February at a date to be set by the Interclub council.

Annually the girl selected by the students is the point of interest of a pompous program and the auditorium of the Administration building usually overflows. This year the friendly sophomore brunette from Claude will be honored. A dance following the program is a precept.

Miss Miller is 21 years old, 5-feet, 5-inches tall, and weighs 122 pounds. She is a member of Pi Omega sorority.

Music is her major subject and chief interest. She is a member of the Women's Chorus, Madrigal club, and Girls' Sextet, and sings also in the local Methodist choir. She expects to teach public school music. Her hobby is collecting costume jewelry. Tennis is her favorite sport.

Runner-up to Miss Miller was Gaynelle Douglas of Silverton, who was personality queen last year. Dorothy Grigsby of Quail took third place. The Hoyle twins of Plainview—Maxine and Maurine—were fourth in the College-wide election.

Miss Miller is a sister of Marvin Miller, also a student here.

## W. T. Prexy Is Busy Man; Speaking Dates Keep Him Afield

President J. A. Hill is a guest speaker at a County Teachers Association meeting in Floydada today. He will speak before the teachers of Floyd County this morning and before the high school students this afternoon in Lockney.

Dr. Hill will attend an educational conference in Brownwood, February 1. About 1500 teachers will be present. Other W. T. instructors attending will be Dr. Harris M. Cook, Mrs. Alice Nichols, and Miss Ruth Lowes.

On last Wednesday, President Hill visited and spoke to the high schools of Friona and Hereford. The Hereford Lions Club was addressed by Dr. Hill at a luncheon.

He attended the meeting for state college presidents recently at Austin, where he was a dinner guest of Homer P. Rainey, president of the University of Texas. The purpose of the meeting was to discuss educational problems common to all Texas colleges.

## Pat Neff to Talk At Conference Here —Dr. Immel Coming

President Pat M. Neff of Baylor University, former governor of Texas, will make three addresses at the Northwest Texas Conference for Education here March 8 and 9.

His first address, it is announced by Supt. E. G. Sanders of Samnorwood, president of the Conference, will be at the opening session. On the same program will be Deskins Wells, prominent Wellington publisher.

At the second general session, the main speaker will be Supt. Willis A. Sutton of the Atlanta, Ga., public schools. At the evening session, speakers will include President Neff, Dr. Ray K. Immel, noted dean of the school of speech at the University of Southern California, and Dr. Fritz Redl, specialist in psychology and guidance at the University of Chicago.

After a short business session Saturday morning, there will be other addresses by Dr. Redl and Dr. Immel.

Other prominent educators will speak at section meetings, which will be set up for a score of divisions, each with its chairman and officers elected a year ago.

College authorities and townspeople are making unusually elaborate arrangements to increase the eating facilities and auditorium space for this big convention of plains teachers.

Mrs. Alice Nichols, associate art instructor, was in Denver, Colo., on business recently.

Marie Finley and Ruth Clark spent the week-end in Muleshoe.

## Gift From Santa Fe Made Monday

### W. T. Representatives Accept From General Manager Gillies

Sounding over the same line passing through Canyon that locomotive engine No. 1497 traveled years ago will be the Victory Bell given to W. T. representatives in Amarillo yesterday by Santa Fe officials.

The presentation was made by J. A. Gillies, general manager of the Santa Fe System Western Lines, to Dr. J. A. Hill, W. T. president, yesterday at 11 a. m. in the general offices.

As early as the year of the College's founding in 1910, the now dismantled engine was pacing the lines in this territory.

#### Bell Is Engraved

The 200 pound bell is engraved: Victory Bell, West Texas State, Engine No. 1497. L. J. Cassell, public relations department representative, explained that the bell had been brought from Topeka, Kansas, to Amarillo where it was engraved for W. T.

"There is considerable romance of the rails embodied in this ancient bell which tolled the way of locomotive Number 1497, as early as the year 1910," Mr. Gillies said in giving the bell.

"It was with considerable interest we received the request from officers of your student body for a bell to be used in signal of victory in various fields of sport. We were most fortunate in finding one, which long served the territory where West Texas State College was established."

#### Hope For Good Omen

"It is our sincere hope that it will be of good omen on sports fields of the institution and that its strident tones will often herald winnings in competitive sports as well as being a symbol of the Santa Fe Railway Company's interest in the institution which has been such a good neighbor."

"Therefore, on behalf of the Santa Fe System I give this bell to the Students' Association of West Texas State College, with the hope that the name of 'Victory' bell given it by that association, augurs a splendid future in the various sports in which its students engage," he said.

"This is evidence to us of the interest of Santa Fe in our institution," Dr. Hill said in accepting the gift. "And it is an example of the way Santa Fe is trying to build the institutions of the Plains. When it is ringing, we will think of the victories of the Plains as well as those of the College."

Included in the group from West Texas were: Lee McLauri football co-captain of the 1940 Buffaloes; Head Coach Jack Curtice; Ulane Zeek, president of the Students' Association; Dan Hemphill, editor of The Prairie, and Dr. Hill.

## Spring Semester Begins; Instruction Starts Tomorrow

That busy spring semester has begun.

Formal instruction will begin tomorrow. Monday will be the last day for changing programs. An additional fee of \$3 must be paid by students enrolling after February 6.

Catalog dates include: Easter vacation, March 22-25, inclusive; March 29-30, mid-semester examinations; April 20, San Jacinto day, with patriotic program and Fathers' and Mothers' day; May 10, annual meeting of Panhandle-Plains Historical Society; May 10, senior class day and President's reception to seniors; May 26, commencement Sunday; May 27-29, final exams; May 30, commencement day.

The summer session, including the Palo Duro School of Art, will open June 4, when enrollment may be made for 6 or 9 weeks. The first 6-week term will end July 13 and the 9-week term August 3. The 3-week term opening August 5 will end August 23. Dates of the Summer Band School are August 5 to 15.

The fall term will open September 17.

The Northwest Texas Conference for Education, the Panhandle's biggest convention, will be held here March 8 and 9.

Juretta Bird visited in Texico during the week-end.

**Welcome, Journalists**

The Prairie, as a representative of W. T. student publications, extends a hearty greeting to the Panhandle High School Press Association delegates and officers, who will come to the campus next Saturday.

This will be the seventh annual convention of the high school scribes, who formed their organization here in 1934 under the leadership of Canyon high school. Two years ago they voted, at the Borger meeting, to make West Texas State the permanent home of the PHSPA, with the director of journalism its sponsor. Last year's attendance broke all records, passing the 300 mark. Apparently, weather permitting, an equally large group will be here this week. It is the biggest writers' group in West Texas.

West Texas State accepted the invitation to become the "home" of the PHSPA with the belief that it could give a stability to the association which it could not have while moving about each year. At the same time, the sponsor has consistently sought to leave policy matters and program-making to the student officers. To a degree not found in many regional groups, this practice has been followed.

New add-a-plate shields just purchased by the association for contest winners will be permanently displayed here when the name plates fill the plaques. This plan will provide a nearly indestructible record of individual contest winners in the Association.

**Comes The Day of Reckoning**

Another semester is starting. It is time to get out your determination from the moth balls and swear that this time it will be different.

Every semester's beginning repeats this little ritual. "This semester I'm going to keep my assignments up to date, do term papers when I first hear about them, not cut a class unless I have to, etc. etc."

Every semester's ending repeats another ritual: "This semester over? Golly, it can't be. I haven't got all my work in. My term papers aren't ready. I haven't made up all my cuts, etc. etc."

Somehow it usually works out that way. However a possible ray of hope comes from one of William James' books wherein he lists the ways to form a habit:

- (1) Start vigorously and at once. Don't put it off or make a half-hearted attempt.
  - (2) Fortify your resolution in every way possible. Tell the girl friend, write the folks. Make it hard to let down once you've begun.
  - (3) Allow no exceptions. Forget that "just this once" business. Make every time the time that counts.
  - (4) Practice frequently and continuously. Use every opportunity to do what you have set out to do.
  - (5) Use every opportunity and if the going is too easy make some more opportunities.
- There's the way to do it. If you can make a go of it the end of the semester is likely to find you saying: "This semester over? Golly, it can't be. I'm up-to-date on my work!"

**A Habit Worth Cultivating**

A library is not just a symbol of "book larnin'." It should be, first of all, a place for effective study. That there is a supply of helpful references and sources of information near at hand is merely incidental; study is the thing. For study is, unless we are misinformed, fundamental in the process of education.

Ineffective study accounts for many student failures. Frequently these students lack, in their rooming places, the opportunity for quiet concentration. Certainly there can be no singleness of purpose when roommates are distracting one's attention or there are other attractions.

The library should be a refuge for those who seriously wish to learn. And the extending of the library hours into the evening should be greatly appreciated by all students. In fact, mastery of library study practices is the first mark of the real s-t-u-d-e-n-t. But how many students move with ease and assurance through the library? The number is far too small. Concede this and you invite the observation that the urge to learn needs skillful cultivating. College life has many sides, but we suspect the State expects more attention to the mental side than many of its investments (students) are giving in its institutions.

Use the library . . . gladly, cheerfully, skillfully, often.

**Help Correct This Error**

Through utterly erroneous word-of-mouth reports, it sometimes is believed that the teacher-placement work done by West Texas State College involves a substantial fee on the part of persons placed in jobs.

In reality, the cost is less than the expenses involved in most instances. The plan of requiring a certain per cent of the first month's salary is NOT used by this institution.

Students who register with the teacher-placement committee secretary (Mrs. T. V. Reeves) at the Bureau of Public Service pay a uniform fee of \$1. The only additional expense incurred is that of telephone calls or other small incidentals necessary in placing the student in his job. The fee is good for one year.

The teacher-placement committee, aided by various faculty members, has made a splendid and unusual record in placing W. T. graduates. Anyone hearing the erroneous claim that the College charges a substantial fee for placement will render the institution a valued service by denying, vigorously, that such is the case and urging anyone interested to send for the placement form.

Prexy must have been a regular fellow when a lad, and a resourceful one. Ask him, some time, to tell about how he dressed up in girls' clothing and beat up the family cow, which had been chasing the women folk. (But never did again!)

Before taking your opinions too seriously consider this: Equally qualified judges, working in a literary contest recently, varied in their findings as much as the distance between first place and ninth.

Now that W. T. is to possess a "Victory Bell," does this mean we must go around seeking fights? And what constitutes victory? Only a Hitler claims a victory without a war.

Dr. Harris M. Cook has greatly enjoyed telling this one: "The Russians excel as swimmers because they have Finns on their tails."

By JIM BUGENTAL

Here lies Newcome Charlie Aged considerably.

They didn't know for sure how old he was. The law said the coffin should bear the age of the deceased. So since it was between 79 and 84,—the above was the result. (For further details see the current Readers' Digest.)

**SHOWING TODAY ONLY: HIGHLIGHTS OF LAST SEMESTER**

Rose Marie Shaw was teaching a seventh grade class in social studies in the Training School. She asked, "Can someone characterize the spoils system under Andrew Jackson?"

Little there's-one-in-every-class said: "It stinks."

Quoting Professor Jones: "If you can't hold hands when you are a teacher without being caught, you are definitely inferior."

Said someone in the publications' office: "The pond couldn't take a date to the dance. It was already stagnate."

Quoting Professor Condon: "If they keep growing bigger turkeys, we'll have turkey one week and hash fifty-one."

An undisputed highlight of the semester was the Education class in which Elwin Ricketts explained how to make a cotton house dress.

Quoting Miss McMurtry: "I think I can see a good deal of art in that jitterbug dancing."

**YOUR ANNOUNCER IS—**

Thinking of becoming a radio announcer? The requirements of the Columbia Broadcasting System for consideration are:

- (1) A college education or its equivalent.
- (2) A proved experience as announcer in one of the broadcasting stations of the country.
- (3) Excellent diction and accurate pronunciation not identifiable with any particular section.
- (4) Voice and air personality which is distinguished without affectation.

When you've fitted all of that, then they start testing you on words like these: Scheherazade, Iolanthe, Eccles, Adolf, Frankfurter, Knudsen, Marquesas, Josiah, Carnegie, Eamon de Valera, Corcoran, La Follete.

And that's only the beginning. Yeah, I think I'd rather be something easy too. Like a schoolteacher. However, if you are stubborn about it. Or if you would like to get a more definite picture of how radio wheels go around: Speech 332 is devoted to the study of radio and the production of the weekly programs over KGNC.

**WHERE'S THAT INSIDE STRAIGHT?**

The Official Rules of Card Games put out by the U. S. Playing Card Co. provides the let-down of the week. Listed therein are the possible poker hands in a fifty-two card deck and the chances of drawing them pat.

The chances of drawing a Royal Flush pat are 649,740 to one. While the chances of getting a pair are one and a quarter to two and a third. There are only four of the former in the deck, but there are 1,098,240 of the latter.

Worse than that, there are 1,302,540 possible hands of less value than a pair and only 1,296,420 of the value of a pair or better. I think I've had all of that 1,302,540.

Other possibilities included are straight flushes, 64,974 to 1 (40 in a pack); four of a kind, 4,165 to 1 (624 and full houses, 694 to 1 (3,744). How can a guy win?

Oh yes, about that inside straight: The chances of filling it by drawing one card are eleven to one against you.

I'd swear that I have tried that more than ten times.

On The

# Amusements Side

By MEDITH BUGENTAL

SOMETHING NEW UNDER THE SUN. . . Meredith Wilson's composition commemorating the new film, "Little Old New York" is different. Introduced over the "Good News" program, it's dramatic, musical poem called "I Am New York." Also newly introduced numbers: "Just An Old Rag Rag," faintly reminiscent of "The Old Spinning Wheel In The Parlor"; "Love Song of Reynaldo," a "Gay Caballero" type piece which Horace Heidt premiered; and the "Aragon-Trianon Waltz" introduced during the Aragon Ballroom spot from Chicago.

ADD ARTIE SHAW . . . Georgie Auld, who has taken over Shaw's band, had a little trouble during his last engagement. The management insisted on billing him as "Artie Shaw's Orchestra—conducted by Georgie Auld." Georgie wants to stand on his own two feet—which he seems quite capable of doing. Have you heard him lately?

COLLEGIATE CAPERS . . . Will Osborne and his boys, who play more college proms than any other group, are on vacation in Miami, br-r-r. They'll hit the colleges on their way back to work.

Larry Clinton, after a Havana jaunt, goes to L. S. U. in order to warm up for his New Orleans opening.

JIVE JITTERS . . . Percy Grainger's Irish folk song, "Danny Boy," is gaining more and more popularity under several different names. To wit: Larry Clinton's "This Is My Song," and another published title praise be, as "Would God I Were A Tender Apple Blossom." Bobby Byrne bursts forth with the latest adaptation from "Danny" which he uses as a theme for his new band. He had such a reception with the tune that a publishing company has issued another adaptation of it under the moniker "My Colleen."

RECORD MAKER (OR BREAKER) . . . Will Osborne has two hits on his hands. "Between 18th and 19th on Chestnut Street" had hardly struck when it was followed by "Wouldn't Could I But Kiss Thy Hand, Oh, Babe," which seems the height of something or other.

"All The Things You Are" has been getting the top play of Jerome Kern's "Very Warm For May" score, but the release of Ray Noble's Columbia recording "In The Heart Of The Dark," arranged by Ray himself and with Larry Stewart's vocalization, should do plenty for the number two ballad of the show.

Spose you all know that Ray's an Englishman whose English musicians were not admitted to the States. Too much competition here already. So Ray picked up at random a few yanks and really has gone places with them.

RENAISSANCE OF AN ODIE . . . "The Sea Hawk," which Jack Holt and Noah Beery made years ago, is filming again with Errol Flynn and Claude Rains on the Warner lot. The casting of this picture brought to light a new Cinderella story. Yvonne Avonde, pretty photographic laboratory employee six years ago, was punching the clock at the beginning of a day's work on the set when Michael Curtiz spotted her. A screen test and dramatic coaching are in the offing, and whit might be the first step in a screen career may follow.

BIRTH OF THE BAZOOKA . . . Four youngsters in Van Buren, Arkansas, decided to form an orchestra some 34 years back. The leader was a lad with his grandfather's fiddle, which he couldn't play. Another had a snare drum, and the third made a trade with the hired man for a five-stringed banjo.

The last, Bobby Burns by name, had no instrument. He was told to produce a tuba or clear out. At the next rehearsal Burns showed up with his famous yard-long plumbing pipe, soon developing a slide system and a trumpet

Kathryn Robinson, '37, is secretary to the assistant to the president of American Airlines, New York City.

Miss Robinson writes, "I am so happy in my work that I can hardly believe it to be true. The aviation industry is developing so rapidly that there is and will be a definite place for any one who has a knowledge of the work. I am lucky to have had a little experience in that line and to have an opportunity to gain more."

Immediately after her graduation, Miss Robinson was employed by Braniff Airlines at Dallas.

Bill French, '40, has been elected to teach at Dimmitt this semester.

Ernest C. Shearer, '31, will be a member of the summer faculty of the University of Texas. He is on the staff of Amarillo College.

New Mexico students visiting their homes in mid-term holidays were Alpha Lewis, Portales; Pauline Betts, Clovis; and Zoy Fronabarger, Pauline's guest.

Lucille Weast left after exams Friday to spend the holidays in Floydada.

Hayward, Dorothy Lamour, Judy Garland and others. The Professor holds forth, as you know, on the Bob Hope show.

# First Conference Game With A. & I.

## Baggetmen Visit South For Tangle With Hogs In Kingsville Friday

Gunning for a first Alamo Conference victory of the season, West Texas' "Tallest Team On Earth" will invade Kingsville Monday and Tuesday nights to meet the powerful Texas A. & I. Javelinas.

Leading the Buffaloes will be Captain Ernest Schur of Vernon who will attempt to pace his team to a conference victory, one which will mean a good start for either of the teams.

The Javelinas are co-champions with West Texas State of the Alamo Conference in football and keen rivalry exists between the clubs.

Height will be a great advantage of the Baggettmen and it is expected that the Javelinas will be hindered by the tall boys from the Panhandle. Texas A. & I. basketballers are led by three Freshmen: Fred Stokes from Hickman, Ky., Jack Thompson from Christine, and Marvin Ahrens from Kingsville. These three aspirants have led their team in every game this season and it is expected that they will carry the brunt of the attack against the Buffaloes.

In the first game of the season, the Javelinas played Mexico City YMCA and barely nosed them out 32-31, but in their second game the YMCA team rallied and beat the A. & I. quintet 48-42. In their third game of the season the Humble Oilers from Ingleside easily outclassed the Javelinas 51 to 29 in a one-sided battle.

On their return trip from Kingsville, the West Texas Buffaloes will meet the powerful St. Mary's Raiders at San Antonio February 7 and 8.

# Amarillo Entries Are First Salon Prints Received

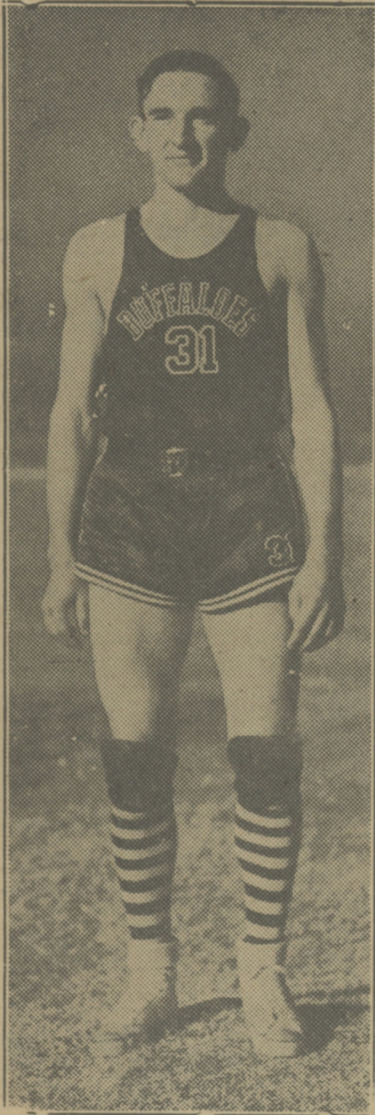

Amarillo advanced amateurs are among the first to submit prints in the second annual Panhandle-Plains Salon of Photography here February 15-29.

All prints must be in the hands of the director by February 11. Prints judged worthy of display will be placed on the walls of the museum here February 15 and some selected for special ranking.

All entries must be submitted in connection with blanks furnished by the director, Olin E. Hinkle, or obtained from Wilson Camera Store at Amarillo. There is no entry fee. Classes have been set up for those who do all of their photo-finishing, or bonafide amateurs, and for those who have some commercial finishing or collaboration.

The exhibit is sponsored jointly by the West Texas State College department of art and division of journalism. About 100 prints will be hung if their excellence warrants.

## Buffalo Captain

Pictured above is Captain Ernest Schur of the "Tallest Team On Earth." Ernie is the smallest man on the squad, being only 5-feet, 11-inches tall. Captain Schur is the third highest scorer on the team, and is expected to pace the attack against Texas A. & I. Monday and Tuesday nights.

## Teacher Placement Fee Small and No Percentage Charged

One of the biggest bargains offered by West Texas State is its teacher-placement service.

The registration fee for one year is only \$1. The only other expense is that incurred by the Bureau of Public Service in placing telephone calls, sending telegrams, and completing the placement. The average cost is about \$1.80, including the registration fee.

Students intending to teach and having the necessary certificates may enroll at the Bureau and fill out information forms. They also furnish photographs. References are required. The student's record in College is studied by the placement committee, which attempts to find positions the applicants are best fitted to hold. Persons seeking teachers usually are interested in scholarship, appearance, a spirit of cooperation, initiative, and ability

# Tallest Player's Total Is Biggest

## Towering Charles Halbert Is Leading the Buffalo Cagers

Highest scoring honors on the world's tallest basketball team belong at present to the tallest member of the squad—6 foot 10 inch Charles Halbert of House, N. M.

Halbert has dropped in 72 field goals in 189 attempts and made 38 free throws in 58 tries for a total of 183 points. Price Brookfield of Friona, another sophomore, comes in second with 161 points and Captain Ernest Schur of Vernon follows with 121 tallies. Schur was out of several games because of illness.

**Stephenson Still Lagging**  
Frank Stockman of Malta Bend, Mo., is next with 84 points, closely followed by Dewey Johnson of Abertathy, with 82. Training far behind is big Lother Stephenson, who has accounted for only 46 points. Stephenson was out of several games and colds have prevented his reaching his top form. Other Buffalo scorers: Kendrick, 31; Nippert, 28; Price, 40; Stagner, 30; Jones, 6.

Halbert took first place by getting a 44 per cent average in field goal attempts and 77 per cent on free throws. Brookfield made good in 29 per cent of his field goal attempts and in 67 per cent of free throw tries. Stephenson's inaccuracy is reflected in his making of only 15 per cent of the field goals, but he dropped in 55 per cent of the free throw attempts. Nippert and Stagner, shooting less, made good in 40 per cent of their field goal tries.

### Conference Games Next

The Buffs won 10 of their sixteen games played to date, numbering among their victims such teams as New Mexico State of Silver City, Drake University of Des Moines, Abilene Christian College of Abilene, Hardin-Simmons University of Abilene, McMurry College of Abilene, Daniel Baker College of Brownwood, the University of Arizona, and the University of Tulsa.

The locals will play their next games in Kingsville, February 5 and 6. Texas A. & I. will be the Alamo Conference opposition. En route home, the Buffs will have a pair of conference games with St. Mary's of San Antonio on February 7 and 8.

to direct school activities.

The Bureau does not guarantee to place anyone, but it endeavors to place each person registered. Its success is widely known. And contrary to rumors sometimes heard, it does not charge a percentage of the teacher's salary during the first month of employment.

# Buffalo Wallow

"There ain't no flies on me . . ."

Ye old sports ed has been asked to correct a statement in his column a few weeks ago. I stated that Foster Watkins was the only Buffalo griddler to make the first Alamo Conference team. Further information shows that Pete Wood, guard from Floydada; Lother Stephenson, end from Anton; and Donald Kendrick, end from Groom were also selected on the Alamo conference first team.

### DID YOU KNOW

That Guy Price of the University of California played 18 holes of golf—one in each of 18 cities from Los Angeles to New York—he carded a 72—two over par for the 18 holes . . . that Drake's University basketball team is leading the Missouri Valley Conference; the Buffaloes split a two-game series earlier in the season with the Bulldogs . . . that the actual playing time of the average basketball game is 29 minutes and 30 seconds . . . that recent tests have shown that the top speed of a tennis ball is eighty miles an hour and the velocity of a golf ball is 146 miles an hour.

### ODDITIES IN SPORTS

The largest football score in the history of college football was the 222-0 lacing given to Cumberland University by Georgia Tech. Cumberland was also defeated 101 to 0 by Tennessee and 107 to 0 by Sewanee. In 1902 Michigan trounced Michigan A. C. 119 to 0 and Iowa, 107 to 0.

Using a wooden support for the stump of his arm, Marshall Farmer, Texas Tech hurdler, set a new Junior record by stepping over the 110

## Popular Reserve

Shown above is Le Roy "Pinky" Jones, reserve basketballer from Pampa, who plays guard on the Buffalo team. "Pinky," as he is known, is popular with the "T" Club, as evidenced by the rousing cheer when he enters a game. He is a sophomore and stands 6-feet, 1-inch.

yard high hurdles in 14.2 seconds in the N. A. A. U. Meet.

### CRACK OF THE WEEK

Coach Ed Haynes of the University of Denver has called out his Denver University track and field candidates this week. Several have stated, "All the coach can give his charges is 'warm-up' exercises."

# Freshmen Keep Old Mark Intact

## Jack Maddox Leading Amarillo League—Two Games Are Forfeited

West Texas State's freshmen basketball team is keeping the record of last year's outfit intact. Led by big Jack Maddox of Medicine Mound, the Fish have been bowling over opponents in the Amarillo League and have not been beaten.

The first team of the Freshmen squad includes Jack Maddox, forward, Odell Morrison, forward from Vernon, Edward Walls, center from Lakeview, Bill Stockman of Malta Bend Missouri, and Norman Trimble, guard from McLean.

Jack Maddox is the high scorer of the team and is leading the entire league. Maddox has scored a

### JUST ANOTHER JOKE

Just before an important football game, a coach was giving the boys a pep talk. Turning to one of his players, who hadn't played as much as some of the others, he said:

"Bob, if you were on our ten-yard line and Warren intercepted a pass, what would you do?"

Bob (thinking a minute): "Well, coach, I think I would move up farther on the bench, so I could see better."

total of 130 points in seven games, for an average of 18.5 points per game.

Because of exams, the Freshmen cagers, coached by Jack Curtice, were compelled to forfeit two games.

Opponents of the Slimes have scored only 271 points in nine games to 465 points for the Freshmen.

Jack Maddox is the tallest of the team, being 6 feet four inches. The remainder of the squad averages approximately 6 feet.

Games will be resumed this year and the Freshmen will finish out the year in the Amarillo Jay-cee basketball league.

"I GET

EXTRA MILDNESS

EXTRA COOLNESS

EXTRA FLAVOR

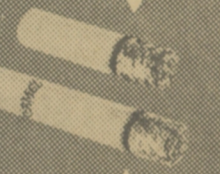

in slower-burning Camels,"

says Bill Corum, famed sports writer and columnist

SURE I WORK FAST— BUT I LIKE MY SMOKING SLOW. Milder, cooler CAMELS ARE CHAMPS WITH ME

LIGHTNING-FAST in the press-box! Why, Bill Corum's been known to file 3,000 words of sizzling copy during a single big sports event. But no speed for him in his smoking— slower-burning Camels are Bill Corum's cigarette. He likes that extra mildness, coolness, and flavor.

FAST BURNING— creates hot flat taste in smoke... ruins delicate flavor, aroma...

SLOW BURNING— protects natural qualities that mean mildness, thrilling taste, fragrance... a cooler smoke...

Here's Bill at work in the quiet of his office. Bill... typewriter... books... pictures... and Camels— slower-burning Camels. "I find them milder and cooler—and thriftier," he says. And, being a Camel fan of many years' standing, he ought to know.

BILL CORUM'S sports news isn't just printed... it's *sprinted*... at lightning speed from press-box to press. But when the camera catches Bill in his office with a cigarette—"No speed for me in my smoking," he says. His own common sense and smoking experience tell him what scientists have confirmed in their research laboratories—that "slow-burning" cigarettes are extra mild, extra cool, fragrant, and flavorful." Cigarettes that burn fast just naturally burn hot. And nothing so surely wrecks the delicate elements of cigarette flavor and fragrance as excess heat. The delightful mildness, coolness, fragrance, and flavor of Camels are explained by this— Camels proved to be the *slowest*-burning cigarette of the sixteen largest-selling brands tested! (The panel at right explains the test.)

MORE PLEASURE PER PUFF... MORE PUFFS PER PACK!

# Camels — the cigarette of Costlier Tobaccos

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested— slower than *any* of them. That means, on the average, a smoking *plus* equal to

# Gamma Phi To Present Three Pledges Friday

Beginning the social rounds of the spring semester will be the presentation dance of Gamma Phi sorority. The dance will be held Friday night in the ballroom of Cousins Hall. The ballroom will be decorated in blue and white, club colors.

Gamma Phi will present three new members to campus society. They are, Frances Hoskins of Spearman; Lena Snitker of Morton; and Mary Jo Horn of Floydada. Miss Snitker was football queen this year.

Present members of the sorority are Margaret Deal, Ann Palmeyer, Lynn Edwards, Anna Sue Williams, Helen Eoff, Adele Hays, Wynona Bomar, Billie Jean Biggers, Mary Kerr, Mary Walton, Grace Margaret White, Ruth McCullem, Jerry Daniels, and Gaynelle Douglas, who was personality queen last year, and is attending the personality queen this year.

Raymond Raillard and the Majors in Swing at W. T. will play.

## Engagement of Anna Dell Sligar to Carl Bean Is Announced

Mrs. Mary Sligar is announcing the engagement and approaching marriage of her daughter Anna Dell to Carl Bean of Borger.

The couple will be married February 11, at Randall Hall. The bride-to-be was graduated from W. T. High School in Canyon, and has been attending West Texas State the last year and a half.

Mr. Bean is the son of Mr. and Mrs. Ira Bean of Silverton, and is employed in Borger.

A new freshman girl is Zellica Holgate, sister of Louise, from Lovington, N. M.

Ruth Taylor and Ethelene Bailey went to Quitaque between terms.

**BUFFALO DRUG**

"Where You Always Meet A Friend"

# Campus Co-ed Goes Scotch In Dress

Here's flash news for the co-ed on a budget! The magic is performed with shoulder buttons: unbutton your matching ones, button-on the contrasting ones — and presto chango! a new dress; Fashion and utility arm in arm.

Have you noticed that Scotch element about the campus? You know, (two straws in one soda, two coffees on one nickel) along with these Scottish-looking socks?

Or maybe the whole affair is wrong, and these co-eds are just wised up on Harper's latest suggestion for adorning the legs. These long knitted socks are the campus rage, popular with skating skirts, chic with culottes, and ideal with the popular tweed skirts of the classroom.

There are also smart little anklets with initials on the cuff to be had in various colors. But careful, boys! Even that may be misleading; she may be wearing her roommate's socks.

## Mono-Dramas Keep Audience Guessing

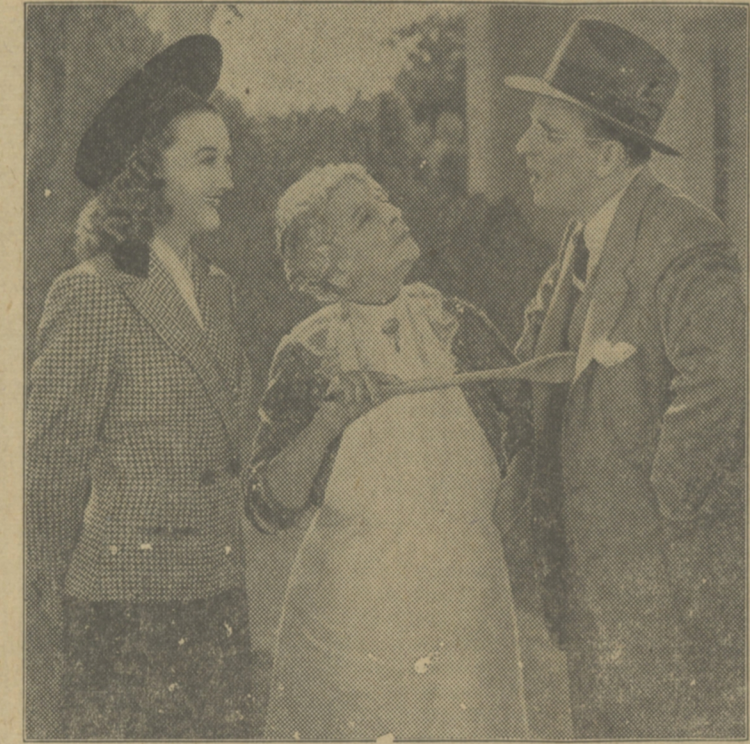

An unusual trend in drama production was illustrated by the mono-dramas (dramatic confidences) presented in Dramatic Club last Wednesday.

A person in one corner of the room would represent a character. Then a rather indirectly connected mono-drama would be presented at the back of the room. There was no particular seat of interest. At the close of the program, much to the surprise of the audience, the characters left the room. The program was over! Programs were passed out as the audience left.

An outstanding performance was that of Joan Reynolds, a very talkative wife at a bridge game with very bored listeners. Laura Mae Slaughter portrayed a traveling saleswoman with a very persuasive speech. Nell Stevenson was a petite young woman interested only in her beautiful garden of flowers. Loy Rees acted with perfection the part of a crazy boy "wanting to sit by her."

Other mono-dramatists on the program were Norma Holderman and Bomar Brown, "Music and Poetry"; Gaynelle Douglas, "Spring O' the Year"; Marilyn Edwards, "A Letter from Alice"; Virginia Fortenberry, "The House Inside"; Elizabeth Wood, "The Peddler"; Terry Warren, "A Telephone Call"; Carolyn Greenway, "I Can't Help but Laughing"; Carolyn Mayfield, "Sorrows of a Super Soul"; Alton Paul, "Between You and Me"; and Lora-mack Hawkins, "I'm Funny that Way."

# Kay Kyser Kollege Kutup

Kay Kyser's debut in picture, is in "That Right, You're Wrong," appearing at the Olympic Wednesday and Thursday. He is co-starred with Adolphe Menjou, and the orchestra is extra in the tuncful comedy romance.

## Young Men's Classes Will Have Breakfast At Church, Sunday

Breakfast will be served Sunday morning at 8:00 o'clock to the two young men's Sunday School classes of the Baptist Church, the Berean and W. T. Gideon classes.

The breakfast is being given in honor of enlistment chairmen and group captains. Breakfast is free to all those who wish to attend, and all boys who are interested are invited to be at the Baptist Church Sunday morning at 8:00 o'clock.

The Y. W. A. will serve the breakfast. There is to be no planned program, but music will be played while the guests are eating.

## Bandmasters Plan Annual Contest

Meeting in Canyon Sunday, band directors of the North Plains District laid plans for their annual contest which will be held in Plainview for the second consecutive year. Set for the first week in April, the contest will be attended by more than 30 bands, among them the Canyon High School organization.

Most conductors of "C" groups plan to play Buchtel's symphonic fantasy "The Traveler" as their selected contest piece. George Stokes, retiring director at Canyon, says that these numbers will probably be used by the Eagle Band.

Bandmasters picked "Overture Hero" by Manx as required number for Class C bands. "Hero" is also the National required overture.

During its last fiscal year, the University of Minnesota had receipts totalling approximately 12 million dollars.

## COLLECTION—

(Continued from page one)

The exhibit comprises representative prints of such notables as Ruth Ann Saunders, an artist of Clairmont, California; James Swan, a noted teacher in Chicago; Mildred Bishop, formerly a member of the art department here; Ethel Bourland, an ex-student; and A. W. Mack, a former member of the W. T. art department.

Students, faculty members, and townspeople are urged by the museum staff to turn in their hobby collections soon. The exhibits are displayed for two weeks.

# Looking Forward To A Brighter Spring Semester

As the new semester arrives bringing plans for spring, the coming season offers much in the way of social entertainment. The date for the activity most anticipated by freshmen—rush week—has not been set, but will probably be sometime in February.

Two events will come Friday; the Gamma Phi Formal at Cousins from nine until twelve o'clock and an Alpha Chi social honoring the honor roll students at the home of Dr. B. F. Fronabarker, at eight o'clock.

On February 9, there will be an All-College dance, sponsored by Type High, press club, and on March 20, there will be a Tri Tau dance in the ballroom of Cousins Hall.

April is to be a month packed with "spring fever" and formals. Events included are: Epsilon Beta dance at Cousins, April 1; Delta Zeta dance, April 12; a Y. W. C. A. Conference at Coronado Lodge the 13 and 14; Gamma Phi will have their presentation dance at Cousins April 19; from nine until twelve o'clock; and the month's activities will be concluded with the Pi Omega presentation dance, the twenty-seventh.

Kappa Tau Phi will have its presentation dance May 3, and Alpha Sigma Xi presents second semester pledges, May 11. Both will be at Cousins Hall.

Why Uncle Sam Runs the World's Busiest Divorce Mill. A questionnaire sent out to about 10,000 divorces throws some light on the reasons why 238,000 people call off their marriages in this country every year. Read this interesting, and rather startling article in The American Weekly, the magazine distributed with next Sunday's Chicago Herald-Examiner.

**MISS MARGARET COPE AND MR. CLARENCE WOOTEN WED**

Miss Margaret Cope became the bride of Mr. Clarence M. Wooten at 4 o'clock Sunday afternoon. The single ring ceremony, beautiful in its simplicity, was read by the Rev. Bryon F. Todd of Carey in the home of the bride's parents at Parnell.

The bride was charmingly dressed in a navy blue ensemble with accessories also in navy. She wore a corsage of baby's breath and white carnations.

Mrs. Wooten, daughter of Mr. and Mrs. T. J. Cope of Parnell, attended Hardin-Simmons University and was graduated from West Texas State College. She has been teaching English in the Clarendon High School.

The bridegroom, son of Mr. and Mrs. W. J. Wooten, is also a graduate of West Texas State College. He formerly taught at Roswell, N. M. and is now with the Magnolia Oil Company in Vanderbilt.

Those attending the wedding were Mr. and Mrs. T. J. Cope and Mr.

Field forces in NYA's twelve Texas districts the next few weeks will help to sift out outstanding musical talent of boys and girls between 16 and 25 to make a South and Central American tour next summer with a 109-piece All American Youth Symphony orchestra under the baton of Leopold Stokowski.

The Book Store girls and the registrar's office girls remained in Canyon between terms to rush out grade cards and sort books.

and Mrs. J. Warner Cope and Tommy of Parnell; Mr. and Mrs. Kenneth Cope and Martha of Childress; Mr. and Mrs. W. J. Wooten, W. J. Jr. and LeRoy Wooten of Canyon; Chris Wooten of Vanderbilt, and Mr. and Mrs. E. A. Wooten and Jimmy of Channing.

Immediately following the ceremony, a beautifully appointed buffet luncheon was served in the home of Mr. and Mrs. J. Warner Cope. Mr. and Mrs. Wooten are making their home in Vanderbilt.
