

## Experienced Bandmasters Will Assist Grabel At Clinic Feb. 18-19

Each of the two 90-piece bands to be assembled here at the band clinic Feb. 18 and 19 will have a chairman, who will be an experienced bandmaster. Each chairman will have a corps of assistants or coaches for the flutes, double reeds, clarinets, cornets-trumpets, horns, trombone-euphonium, tubas, and percussion.

These are suggestions from Victor Grabel of Chicago, famous bandmaster and composer who will conduct the clinic. In a letter to Prof. C. E. Strain, director of the Buffalo Band, Mr. Grabel expressed the hope that the bands could be assembled a day before the clinic for rehearsals.

Several round table discussions will be arranged. Chairmen, appointed for each, will lead discussions on rehearsal methods, phases of interpretation, the marching band and similar topics.

With regard to instrumentation of the two bands, Mr. Grabel suggested the following: 8 flutes, 3 oboes, 1 English horn, 3 bassoons, 1 contra-bassoon, 6 saxophones, 18 clarinets, 4 alto clarinets, 4 bass clarinets, 4 string basses, 1 harp, 4 cornets, 2 flugel horns or cornets, 4 trumpets, 6 horns, 6 trombones, 4 euphoniums, 6 tubas, 1 tympani, 1 cymbal, and 3 drummers. If this balance cannot be obtained, some rearranging will be done, such as adding saxophones in the ratio of two or three altos, two tenors, one baritone, and one bass to replace certain of the alto and bass clarinets. A contrabass clarinet is desired.

## Dr. J. J. Crume Talks to Culture Club Thursday

"Syphilis is an unpopular disease, but the lives taken by it are very precious. More lives are taken yearly by this disease than by any other four," Dr. J. J. Crume said in a lecture to the 1925 Culture Club Thursday.

"In time of war, the state calls on the fittest of its citizens to lay down their lives for common good. In time of peace shall it not be able to call on its most unfit citizens, not to sacrifice their lives, but to make a far lesser sacrifice—one which in most cases is regarded not as a sacrifice, at all, but a benefit to themselves—the renunciation of parenthood when they are manifestly unfit for it," quoted Dr. J. J. Crume, referring to a speech made by Justice Oliver Wendell Holmes, in regard to the sterilization of syphilitic citizens.

Dr. Crume showed that the number of new cases of syphilis each year is more than five times the number of fatalities caused by automobile accidents.

He pointed to statistics released by Dr. Thomas Parran, surgeon general of the U. S. Health Department, which showed that syphilis has increased 218% in the last two years.

"These startling figures," said Dr. Crume, "show us that our civilization is degenerating to a generation of people diseased with epilepsy, locomotor ataxia, dementia praecox, cleft palate, defective vision, idiocy, deafness and numerous others destructive to the senses."

Dr. Crume pointed out that a billion dollars is spent yearly in taking care of persons affected by syphilis, 40% of the amount spent on public education.

"A bill was presented in the state congress six years ago to sterilize persons infected with syphilis, but it and several other similar ones were voted down."

Dr. Crume summed up his lecture by quoting Justice Holmes: "It is better for all the world if instead of waiting to execute degenerates' offsprings for their crime or to let them starve for their imbecility, society can prevent those who are manifestly unfit for continuing their kind. The principle that sustains compulsory vaccination is broad enough to cover cutting the Fallopian tubes."

## Le Mirage Deadline Is Monday

A deadline for all Le Mirage organization pictures has been set for February 1. All faculty pictures should be turned in by this time also.

One panel for each class is being held open for late entries.

Rapid progress is being made on the book, and one set of proofs has been received from the engravers. Students who are in possession of interesting or unique snapshots are encouraged to turn them in to the yearbook, according to members of the staff.

## Goldie Back in Old Alley After Crashing Cousins

A large, soft cat with gold-colored fur and no home won the hearts of Cousins hall girls at West Texas State last week—but not that of the supervisor.

One co-ed, with some timely assistance, bathed the cat in a community tub and came out triumphant but considerably scratched. Then the cat, which meantime had been named Goldie, was fed and tucked away for the night at the foot of the bed.

Mrs. Smith next day received the news of the stow-away by "grapevine" telegraph, and after calling the girls together, reminded them of that rule that only human species of the animal family may stay at the hall.

Goldie is, reluctantly, still an ally cat.

## Dr. Robert E. Allen To Teach Here Next Summer

Among the special lecturers who will give instruction here during the summer session starting June 6 will be Dr. Robert E. Allen, now instructor in English-Education at the University of Indiana.

Dr. Allen has been in demand for such summer work for a number of years. He has spent summers at Colorado State College for Education, Greeley; North Dakota State, the University of Illinois, and Harvard College. During the last two summers he directed educational programs for the National Broadcasting Company.

During the first six weeks here next summer he will teach three courses. One will be "Criticism and Appreciation (for Teachers)" and another "American Folklore Backgrounds (for Librarians and Teachers of Children's Literature)." A course carrying one hour of credit will be "Radio Work and Audience Appreciation." Dr. Allen's experience in developing programs for the National Broadcasting Company has well qualified him to teach the latter course.

Dr. Allen was graduated with the A. B. degree from Depauw University and later received his M. A. and Ph. D. degrees from the University of Illinois.

## Savage and Duflo Will Visit Wheeler County Schools

Prof. F. E. Savage, superintendent of the Demonstration School, and Prof. J. L. Duflo, head of the department of sociology, will visit schools of Wheeler county from Feb. 14 to 18.

Allison and Briscoe will be their destinations on the first day, and they will be received by Supt. J. W. Peeples and Supt. M. V. Swinburn, respectively. Mobette will be visited Feb. 15, and Shamrock, Feb. 16. Superintendents there are M. D. Blankenship and J. Lee Gilmore. A conference will be held with County Supt. B. F. Rucker.

Kelton and rural schools will be visited Feb. 17. C. C. Brown is head of the schools at Kelton. Shamrock's school system, headed by Supt. W. C. Perkins, will be seen Feb. 18.

The trip is a continuation of West Texas State's policy of having its instructors spend at least a week afield each year, studying the problems which new teachers face and noting the various ways in which these problems are solved and progress made.

## MISS HIBBETS IS SPEAKER AT AMARILLO MEETING

Miss Anna I. Hibbets, education critic teacher, was guest speaker at the monthly meeting of the Association of Childhood Education yesterday at the Sanborn School auditorium in Amarillo. Miss Hibbets spoke on "Character Education Through Nature Study."

She outlined methods learned in an intensive study of this subject at a meeting of the Audubon Society recently held in Boston, Mass.

### NOTICE

Seniors who are withdrawing from school at the end of this semester should leave their specifications for cap and gown and invitations at the Book Store before leaving the campus.

## BEAUTIES—Photographic Proofs of Twelve Candidates for College Beauties Sent to J. P. Crowe at Fort Worth, Friday.

Beauty candidates pictured above include, first row; Dorothy Dickenson, Silverton; Virginia Hohlaas, Lockney; Maridora Blair, Hartley, and Dids Meek, Lamesa; Second row; Helen Gilmore, Wheeler; Rachel Kidd, Amarillo; Mary Helen Stalls, White Deer; and Frankie Dodson, Lockney. Third row. Mary Collins, Canyon; Irma Jeanette Karnes, Dalhart; Doris Billingsley, Lamesa; June Day, Plainview.

## Services Held For M. B. Johnson Here Yesterday

M. B. Johnson, 74 years old, pioneer Texas educator who served as superintendent of the training school here from 1917 until 1924, died at his home in Clayton early Sunday morning.

Funeral services for Mr. Johnson were held at the First Methodist Church here at 2 o'clock yesterday afternoon. Rev. M. M. Beavers, Hereford Methodist pastor was in charge of the services. President J. A. Hill spoke during the services. Burial was in Dreamland Cemetery here.

Mr. Johnson was for many years a member of the board of stewards of the First Methodist Church here. He also served as superintendent of the Sunday School. He was active as a Mason and a member of the I. O. O. F. Lodge.

First winning state-wide recognition as superintendent of schools at Sweetwater, where for twelve years he was considered one of the outstanding school men of Texas, he was later elected president of Seth Ward College at Plainview. He held that post until the College plant burned.

Retiring from teaching in the training school in 1924, he moved to Amarillo and became grower for the Amarillo Greenhouse, being associated with his son-in-law, P. H. Buthker. In 1932 he moved to Clayton, N. M., where he lived on a ranch.

Mr. Johnson was born in Missouri, but later migrated to Texas, where he married Miss Mary Vincent at Groesbeck, Limestone County, Texas.

Mr. Johnson received his education and preparation for teaching at the Huntsville Teachers College, University of Texas, and Columbia University.

He was the father of the late student and athlete, Bartow Johnson.

## W. T. Club to Show Educational Films

In response to a strong student movement throughout the country, Phi Beta Gamma, college science club, is sponsoring two educational films dealing with venereal diseases on Feb. 4 at 7:30 o'clock.

Separate films for men and women will be shown in the auditoriums of the Administration building and the Education building respectively. Both pictures are three reels in length. Robert Orton will be in charge of the picture for men, and Dr. R. P. Jarrett, Jr., the one for women.

Admission is free and the public is invited.

New Sweaters at Allen & Black's. Pastel shades, \$1.50.

## Freak Weather Ends Co-Eds' Style Problems

June weather in January can be expected to produce some unusual results.

For instance, Betty Co-ed at West Texas State College can rummage through her clothes closet and attire herself blithely in most any garment she finds. It being not quite Indian summer, certainly not winter, but almost spring, and the possibility of a sudden norther always present, who shall say that a fur coat is necessary—or not necessary?

A typical crowd on a recent evening assembled in fur coats, furless coats, fur-trimmed coats, or no coats at all; hats with and without veils; scarfs tied gypsy fashion; Oxford, sandals—tooless and otherwise; anklets, sheer hose; suits, satins, silks, woolens, mid-winter ensembles, new spring tweeds; bags or no bags; gloves or no gloves; stripes, dots, plaids, checks; and one male outfit which astonishingly combined checked suit, striped shirt, dotted tie, and plaid sock.

Jack Frost, on another night, inspired an array of winter ensembles, but on the evening described it was balmy at dusk and 30 degrees colder when the last gun fired and the Buffaloes' victory sent the student horde jubilantly home through a chill wind which produced the usual shudders, giggles, and dashes to warm dormitories.

## Fresco Painting by Rivera Placed on Exhibit in Museum

A group of colored reproductions of fresco paintings by Diago Rivera, Mexico's foremost mural painter, is being exhibited at the museum until Feb. 15. Thursday was the first day of the exhibit.

Students will find interest in this group because of the controversy which has surrounded Rivera's bold work, and the fact that he is one of the few fresco painters.

His subjects are political, and are painted in the mural pattern. Many of the originals are 24 by 50 feet.

Frescoes are painted on wet plaster and go through a series of three applications of wet plaster to dry surface.

The paints are made from earth colors, consisting of oxides of iron and manganese which has been ground on a marble slab and applied as a paste.

Miss Isabel Robinson, head of the art department, deems the reproductions "excellent."

Ethel Bourland, '31, is teaching art in the junior high school at Childress for the fourth year. Her work there has received marked commendation.

Ruth Cecil, '37, has been elected to teach at Turkey for the next semester.

## Fourth Estate Will Banquet Newsmen Here April 15

The Panhandle Press Association has accepted the invitation of the College and Canyon to banquet here on the night of April 15 during its annual meeting which will be held in Amarillo April 15 and 16. Olin E. Hinkle, director of the college news service, and Clyde W. Warwick, publisher of the Canyon News, extended the invitation to officers and directors of the association who met in Amarillo Saturday afternoon to make plans for the annual convention.

Ben R. Ezell, Fourth Estate president and business manager of The Prairie has scheduled a meeting of the club for Feb. 1 to start preparations for entertaining the Panhandle Newsmen. Several members of The Prairie staff were admitted to the Panhandle Press Association last year, and others will likely become members at this year's meeting.

More than a score of former students are expected to be among the newspaper men and women who visit the campus April 15. Though definite plans have not been made for entertaining the visitors, a tour of inspection of the college plant will likely be included on the program in addition to the banquet and program given by members of the Fourth Estate.

Officers and directors of the Panhandle Press Association who attended Saturday's meeting in Amarillo include: Albert Cooper, Shamrock, president; Mr. Warwick, secretary; and directors Ed Bishop, Dalhart; Douglas Meador, Matador; J. C. Estlack, Clarendon; Dave Warren, Panhandle; T. A. Landers, McLean; and Max Waide, Groom.

## Music Students Give Recital

Students in all fields of applied music presented a recital Friday afternoon at 4:30 o'clock in the auditorium of the Administration Building.

The following played piano solos: Lela Louder, "Intermezzo, Oriental," Rogers; Charlotte Tubb, "Humoresque," MacDowell; Cleo Bourland, "Moonshine," MacDowell; Lynette Harter, "Of the Tailor and the Bear," MacDowell; Betty Jean Ball, "Arabian Nights," Millenberg; Fredda Charles Bills, "Lotus Land," Scott. Vocal solos were given by M. D. Shephard, who sang "Banjo Song," Good, and George Stokes, who sang "Noon and Night," Neidlinger. Jean Tarleton played a violin selection, "Rondino," Beethoven.

Ask to see the new spring suits for ladies at Allen & Black's. Priced \$9.90.

## Spring Semester Registration Starts Monday Morning

### Live To Eat—To Gain—And Worry

Mother's famous home cooking perhaps should be re-evaluated in terms of its effect on the figure of the modern girl.

Co-eds of Cousins and Randall halls have gained several pounds since they enrolled last fall and began the dormitory fare. Most of them have gained several pounds and a number as much as 15 pounds.

Those who have been trying to gain were delighted. Those already pleasingly plump were dismayed. The results are ascribed to regular eating and sleeping and to inability to make raids on the family "ice box" for snacks.

## Bulletin on Art School Will be Published Soon

An art bulletin in connection with the Palo Duro School of Art, a branch of the college, will be published soon, according to an announcement by Miss Isabel Robinson, head of the art department.

The six-weeks' term, which opens June 6, and closes July 16, enables students to make six or seven semester hours. Courses offered will include, "Drawing and Painting for Beginners," a study in outdoor sketching, perspective, life drawing, composition and color; "Crafts," a study in pottery, wood carving, textile designing, printing and dyeing; "Art Appreciation," a course of lectures and criticisms; "Sculpture," a study in modeling, carving, and casting; "Advanced Drawing and Painting," which will be outdoor painting with oils or water colors, life drawing or modeling. A horse-back riding class will also be offered for recreation, and there will be a tour to Taos and Santa Fe, N. M.

Lodging arrangements are made in the Palo Duro Canyon for students enrolled in the art school. These consist of stone cabins, El Coronado Lodge, and a tent colony. The faculty list, which will be completed soon, will include well-known professional artists.

## Dr. Louis A. Warren Speaks on Lincoln In Assembly

Dr. Louis A. Warren, head of the Lincoln Life Memorial Foundation, addressed students in assembly Saturday morning.

Dr. Warren pointed out that though people often refer to Lincoln as a successful man who had little formal education, that he actually had a splendid formal education for his day.

He mentioned that Lincoln was named among the six men who contributed most to civilization by H. G. Wells. He also quoted a noted English professor who placed Lincoln's immortal Gettysburg Address and Second Inaugural Address among the five greatest orations written in the Anglo-Saxon language.

He also directed attention to the fact that though we grieve because Lincoln did not live to direct reconstruction work after the Civil War, no literary people have mourned for the loss of a literary genius.

"Lincoln is the supreme American. In him are combined the East, West, North, and the South. We have him to thank for our happiness. It was he who held the nation together during its greatest crisis, and Texas would likely be a republic rather than a part of the United States had it not been for Lincoln," the speaker said.

Mr. Warren concluded by urging students to take advantage of their opportunities, and said that conditions in this region are similar to those under which Lincoln received his early training.

### MUSICAL DIVISION OF Y. W. C. A. WILL MEET

The musical division of the Y. W. C. A. will meet with Charlotte Tubb Thursday at 3:30 in room 101 of the Administration Building.

The group is studying the story of the Opera.

### NOTICE

All text books must be turned in at the College Book Store by 5 p. m. Friday, January 28th. Books must be cleared before grades can be given out.

Registration for the spring semester begins Monday when both freshmen and upperclassmen make out programs for the rest of the term.

Regular instruction will begin Tuesday, and Feb. 7 is the last day for changing programs. An additional fee of \$3 will be charged students who pay their fees after Feb. 7.

For the benefit of freshmen who enter school at mid-term, 101 courses in English, education, mathematics, biology, and history have been scheduled.

The head of the women's physical education department directs attention to two new courses for majors in elementary education. A course in health education, numbered 210, is scheduled at 10 o'clock MWF; and a course in physical education, numbered 261, comes at 10 o'clock TTS. A copyreading course, taught by Olin E. Hinkle, has been scheduled for 11 o'clock MWF in the English department. The course is open to students who have completed freshman English. A course in editorial writing will also be introduced by Mr. Hinkle, is open to students who have completed six hours of journalism.

## WPA Will Resume Paleontological Excavations

Excavations of fossil beds as a district paleontological project sponsored by the Works Progress Administration will be resumed Thursday, according to information received by Mrs. C. Stuart Johnston, project superintendent.

Twenty-one men will be used in Randall county, and the project will be expanded to include other counties if workmen can be obtained. Sites in Lipscomb, Hemphill, Briscoe, and other counties will yield valuable fossil specimens if worked.

Insofar as possible, men who had experience in previous similar projects will be used. Part of these worked in Randall county will be used at the Panhandle-Plains Historical Society, where Prof. Johnston will supervise preparation of specimens for display or storage. Eventually the extended project will employ between 40 and 50 men if they are available.

Mrs. Johnston is one of the few women scientists qualified to direct such projects in paleontology. She has supervised the removal of many specimens of much scientific value. The fossils are being placed in the local museum making its collection of evidences of early Panhandle animal life unsurpassed in the world.

Several habitat cases are being prepared by Prof. Johnston. These will contain restorations of the ancient scenes and background paintings of a similar nature. Currently Mrs. J. A. Hill is painting the background for one of the cases. It will be true in scale, detail, and coloring and, with the models will show at a glance the animal and plant life as it was on the plains millions of years ago.

### H. A. GLASS TAKES JOB IN DEPARTMENT OF EDUCATION

H. A. Glass, 26, who has been Superintendent at Bonham for several years has resigned to become a member of the Curriculum and Texts Book Division of the State Department of Education. Supt. Glass was identified with the Wichita Falls Junior High School system before going to Bonham.

## four bits

by bill

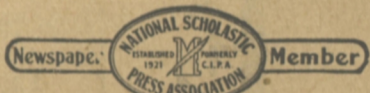

It is the opinion of this writer that the term "dead week" should be applied to the week following examinations rather than the one preceding. It is not until after several days of steady cramming and "bustin" examinations that a student truly feels "dead week."

Speaking of dead week, there has not been so much excitement on the campus since the old administration building burned as there was last week over the selection of photographs of beauty candidates to be mailed to McClelland Barclay. In a few cases even Bill got to voice his opinion on which one should be sent.

The Sul Ross Skyline mentions a prof who lectures his steaks and cuts his classes. Couldn't we students chip in and buy the W. T. profs a whole beef?

We join a large number of other people in thinking that the "Big Apple" should be sent back to Harlem and other sections where the dark-skinned element predominates.

## "THE GREAT IMPERSONATOR"—YOU HAVE ONE CHANCE IN TEN OF MEETING HIM!

Crusades are conducted annually against infantile paralysis and tuberculosis, and millions of people respond nobly with donations amounting to millions of dollars. Prominent men and women, led by none other than the President of the United States, devote their time, money and influence in carrying on this battle against disease.

Yet, at the same time, a far more dangerous malady is sweeping the country, an epidemic which takes a tremendous annual toll, striking one out of every ten American adults; and it is allowed to go unchecked because mid-victorian prejudices and blind ignorance have made even the mention of the disease is taboo.

A conservative estimate places the number of American adults KNOWN to have syphilis at 6,500,000. More than half a million fall victim of the disease annually, and the annual death rate from the same source is set at 100,000.

Syphilis is one hundred times more prevalent than infantile paralysis, more than twice as prevalent as tuberculosis. It is immeasurably more dangerous than either, striking as it does at the very heart of the nation. NO ONE IS OR CAN BE IMMUNE TO THE DISEASE.

Syphilis has been called "The Great Impersonator." It may appear as heart disease . . . 18 per cent of all diseases of the heart and blood are caused by it! It may bring blindness . . . 15 per cent of all blind people are victims of syphilis! The insane asylums count one in every ten of their inmates among its victims! Or it may strike in its most horrible fashion at the nation's unborn children. Most of the still-borns and a great many of the infant mortalities have been traced to syphilitic parents. These are innocent victims, but far more fortunate than their brothers and sisters who inherit the disease and live to suffer from its ravages.

And still, because of ignorance and prejudice, a civilized, supposedly enlightened, people has made little or no progress in halting the progress of a disease that threatens its very existence. Instead, many are shocked and offended at its mention in the public press . . . and many students, priding themselves on their modern attitudes and enlightened viewpoints, students of WEST TEXAS STATE COLLEGE, were horrified at the statement in this newspaper that syphilis could exist on this campus . . . ashamed to have their parents read the paper . . . indignant at the suggestion that every student should be subjected to an annual blood test along with the regular physical examination.

(It is a safe assumption that wherever one thousand students are assembled, in this or any other college, the disease must be present . . . however innocently it may have been acquired. That assumption is no reflection on the character of students in this college.)

These students are in the minority . . . in that fact lie our hopes for the future, for the success of all public health movements depends on public sympathy and understanding. Physicians and public health workers everywhere are eager to reduce the plague to a minimum. Wide public education on the cause and cures of syphilis is necessary to the attainment of this goal.

Education must begin in college. College students are the leaders of tomorrow. They must not only be free from the disease, but free from the inhibitions and taboos that have made its eradication impossible. The W. T. Science Club is carrying on the good work with a moving picture showing the causes and results of venereal diseases, which will be presented here at the college early next semester. Every student, regardless of sex, should see it and heed its warning.

To do its part in the nation's battle against venereal disease, this college CAN and MUST make blood tests available without cost to every student, for only through these tests can the dread disease be brought to light and a cure effected. Students, insist on a Wasserman test at your next physical examination. YOU are not IMMUNE . . . you too have ONE chance in TEN of having the disease . . . and your very life and future happiness depend on an early knowledge. If you are NOT infected, then you have a perfect right to utter a fervent and sincere "Thank God!" . . . But KNOW!—B. E.

### AN ORIENTATION PROGRAM NEEDED

Orientation activities carried on by the Y. W. C. A. through the Freshman Fellowship Club has greatly benefited part of the freshman class during the last two years, but more than this, it has proved the value of an orientation program and pointed to the need of a still larger program which could be carried on by the College only. This voluntary service rendered the school by the Y. W. C. A. is highly commendable, but it is doubtful if its program could prove adequate in the future.

Fewer than half the freshman have taken part in the Freshman Fellowship Club during the last two years and liberalization on the curriculum along with other factors are almost certain to bring the largest freshman class in the history of the school to the campus next fall. This calls for a carefully planned orientation program for next year.

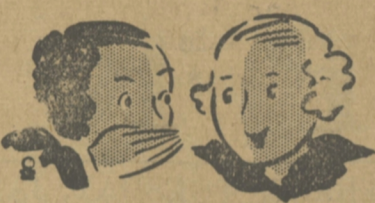

In many schools two or three days are set aside before the opening of the term for orientation of first year students. Here, two days could be used in acquainting new students with the college plant and its regulations, taking physical, psychological and English examinations, and in guiding the student in the course of study he should follow.

Many present upperclassmen would have avoided needless confusion and hard feelings had they more carefully mapped their courses at the outset of their college careers. An orientation period would give students enough time to discuss their courses with teachers, and would make for a more rapid adjustment to college life.

Details of such a program need to be included in next year's college catalog.

## Prairie . . . ... Windies

By Gonda Biggers

Dear Inmate:

It is from behind locked doors and barred windows that your "dead" correspondent greets you. As I sit gazing out the porthole, I see big, black buzzards circling our abode. Alas, the time has come when we must part from these shells and assume the appearance of a bookworm in order to preserve our generation among the immortal. I hear pen on paper. My steady gaze is torn from yon vultures to the long idle desk in the corner. Behold, it is the ghost of my roommate writing term themes.

She was not always thus an i-k-devil, a plagiarist of the written word. She stops: she stares at me through horn-rimmed spectacles. Surely I am going mad. That's it, I'm going mad, but (warns the Wardens Smith and Wofford), I must not go out to go mad. The great transition must take place within these four stone walls. As the poet and philosopher said, "stone walls make not a prison." Maybe not, but they sure have us fooled.

MARGARET ESTHER HILL, VIRGINIA HOHLAUS, DOROTHY DICKINSON, LOUISE RAMBY, ANNETTE WHITE and ANN MILLAN, are making quite a fuss about the interception in the elevator service. That's the price you must pay for living on third, girls. Better cokes next time.

QUOTE:

DEAN GREEN: "THE DEAN OF MEN AND I MUST STOP THIS NECKING ON THE CAMPUS." Ahem—catch?

WEATHER:

Yesterday: still; today: still; tomorrow: still wondering if these sheets will hold together while I slide down.

By and by, did you notice the excellent turnout at the various churches Sunday?

Three well known campusites went to the midnight show Satur-

day. The purpose was a "treasure hunt." B— found a can of Tuxedo tobacco, B— found a sack of Bull Durham, and B— found a penny. It's only a coincidence that they all work on The Prairie.

CHRIS WOOTEN will have to make up his mind soon. He must choose between being the "good Samaritan" and a "lone wolf." I think the flowers had something to do with it.

It has been suggested that the "things" at Stafford don't leopard skins and be bushmen outright. I for one, do not believe in hiding what masculine beauty there may be behind these bulwarks of social ostracism—there's such a few of it.

HEEL OF THE WEEK:

BILL CONE, he refuses to pay his just "malt" to the staff for work.

HEELLESS OF THE WEEK:

DIDS MEEK, kleptomaniac concerning a certain caricature.

TIMELY TIPS:

It might be well for MR. MURRAY to take down his red porch light. Xmas is over, you know.

To the citizens of W. T., Greetings:

BE IT ORDAINED BY THE PRAIRIE, COLLEGE OF WEST TEXAS STATE, CITY OF CANYON, TEXAS:

Section 1. Hereafter, it shall be unlawful for any columnist, editorial worker, or advertiser, or any newspaper worker whatsoever to use the name of WILLIAM MARIO FIELDS in gossip columns, free advertising or comic strips in any student publication whatsoever during the fiscal year 1938.

Section 2. Furthermore, it shall hereafter be illegal for editorial workers to perpetuate slanderous utterings concerning the aforementioned MR. WILLIAM MARIO FIELDS.

Section 3. Hereafter, it shall further be illegal for photographs to be taken of the said MR. WILLIAM

MARIO FIELDS for editorial purposes while he is unaware. At least five minutes shall be allowed for preparation of said pan.

Section 4. Any person found in violation of the foregoing ordinances will be subjected to a fine of not more than a malt and not less than a coke.

Passed under my hand this said day January 16, A. D. 1938.

(Signed)

Editorial Board of The Prairie.

ATTEST:

G. BIGGERS.

KAY DUNLAP and DORIS BILINGSLEY improvised a curtain out of a blanket when the carlights shone in their faces. Funny they both have colds.

Quoting MR. CROWE, the man who painted all the girls a golden tan before photographing them,

"IT WOULD BE DIFFICULT TO CHOOSE THE MOST BEAUTIFUL ONE. THERE ARE SOME OF THE PRETTIEST GIRLS THAT I HAVE EVER SEEN ON THIS CAMPUS." Don't get "mirroritis" over that, girls, remember he may want to get this same job next year, and the governor's changing,—you know.

He called his girl geometry; she was so plain and solid.—EX.

"I'm about all in," said the worm, as the chicken took another gulp.

SOCIAL ITEM:

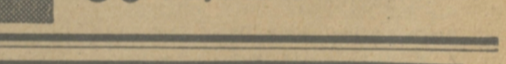

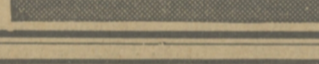

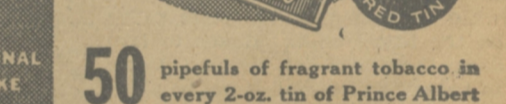

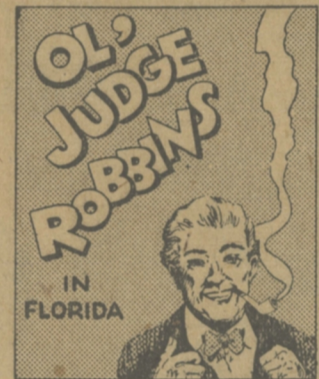

The Misses CHAPMAN of Pecos

and points south, asked GUSSIE MARIE COLLETT over to their house to meet two very charming young gentlemen from El Paso. Gussie in due time got primed and primed to meet the gentlemen. When she arrived and met the gentlemen, she realized that they were charming and young—ages five and three.

# DO COW-PUNCHERS APPRECIATE CAMEL'S COSTLIER TOBACCOS?

**T**ED YOCHUM was born and raised in the cattle country. Speaking from personal observation, Ted says: "Cow-punchers are great Camel smokers. Seems like if a man smokes Camels once—he sticks to 'em. Come round-up time—I'm in the saddle for hours, and not sparin' myself. A Camel sure hits the spot then. I get a mighty pleasant 'lift.'"

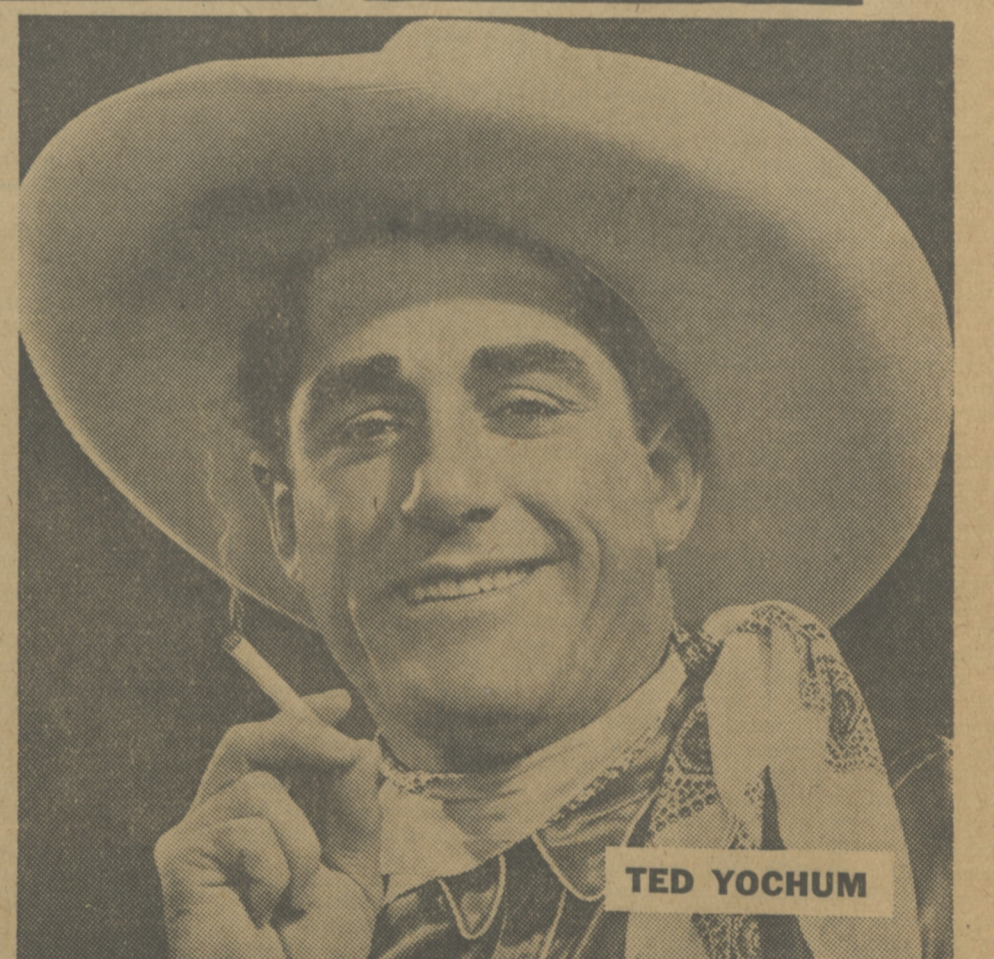

**Yes, and to America at large, Camel's costlier tobaccos have such a special appeal that they are the largest-selling cigarette in this country!**

COLLEGE STUDENT Herb Weast (left): "In that jammed-up week before exams, nerves often tighten up. I've found Camels don't get on my nerves."

AUTO MECHANIC Al Patterson (right): "In the garage business you have to catch your meals on the run. I find that Camels seem to smooth the way for good digestion."

**TED YOCHUM**

CHAMPION TYPIST Remo Poulsen (left) says: "I enjoy Camels from one end of the day to the other. And Camels don't irritate my throat."

WATCHMAKER I. C. Gorkun (right) says: "Every Camel I smoke seems to be milder and tastier than the last. Camels don't leave me 'smoked out' no matter how many I light up a day."

# CAMELS ARE THE LARGEST-SELLING CIGARETTE IN AMERICA

## WHERE TO GO AND WHAT TO DO

BY GAD

Looks like a "dead week," no fooling so far as campus social shindigs and stuff are concerned. But not so for the cinema. Slated for the current week are two nicely produced movies, two that merit special mention, and one which should be advertised in the want-ad department—but no one would take it, let alone want it. But between exams you might take off in the afternoon, and see an enjoyable movie.

Every time I mention this Casanova's name around a group of girls, there can be heard—yes, very audible heart beats that infer adoration for this individual. And the boys present just say, huh, I have a crooked nose too. It's that TYRONE POWER again, pitching his best woo to lovely LORETTA YOUNG in **SECOND HONEYMOON**. Tomorrow and Thursday at the Olympic. Splendidly supported by that eccentric Stuart Erwin, the show is a laugh from the beginning. For a wisely spent two bits see **SECOND HONEYMOON**.

Comes Friday and Saturday and I think listening to the radio or studying would be advisable. If you have a dime—keep it. Because on those two days **GLENDY FARRELL** takes on a **TORCHY BLANE** role with **Barton MacLANE**, and does a terrifically terrible job of it. It's a murder mystery, and well, you know murder mysteries. The culprit is always apprehended by the hero or heroine—as it were. I suggest you play marbles with your roommate in preference to seeing this show.

After the tests are history, a nice piece of relaxation could become reality by seeing **HUGH HERBERT** in **THE OCTOPUS** Saturday night only. Allan Jones is **HUGH'S** cohort and they manage to drag laughs from the most solemn audience. If you can float a loan by some honest means—or otherwise—take your best babe to this rib-tickling movie.

**BEG, BORROW OR STEAL** with **FRANK MORGAN**, **FLORENCE RICE** and **JOHN BEAL**, Tuesday night, which is pal night, is a swell show, in fact it is a super-swell show. Morgan emits a nice character role chuck-full of his inimitable comedy. Miss Rice is gaining stardom rapidly and plays a good part well. The presentation is directed and produced in enviable style.

Saturday midnight, Sunday and Monday a group of unrestrained comedians entertain in **THRILL OF A LIFETIME**, including such stars as **THE YACHT CLUB BOYS**, **ELEANORE WHITNEY**, **JUDY CONOVA**, and **BEN BLUE**. Your discriminating reporter thinks this is a show that must be considered one of the best. If time can be taken off during exam week, see this beautiful comedy. A bit of the love-element creeps delightfully into this show, led triumphantly by **JOHNNY DOWNS**.

### MISS AGNES MOORE AND ERMEL DUNN WED

A wedding of much interest is the marriage Saturday of Miss Agnes Moore to Mr. Ermel Dunn, both of Amarillo. The beautiful double ring ceremony was read by Dr. R. Thomsen in his study at the Presbyterian Church.

The bride was dressed in a navy blue two piece ensemble with navy and white accessories, and her corsage was of rose buds.

Attendants to the couple were Miss Katherine Lowe of Amarillo, and Mr. Robert Moore of Canyon, brother of the bride.

Mrs. Dunn, daughter of S. G. Moore of Amherst, is a graduate of the Hereford High School and West Texas State College where she majored in speech. She was a popular member of the Dramatics Club and Children's Theatre movement.

Mr. Dunn is a son of Mrs. Alta Dunn of Ontario, California. He served as deputy sheriff under R. N. Barnett for several years before resigning to take over the work of field representative for Clarke and Courts, Houston. The couple will be at home to their many friends in Canyon and Amarillo at Vineyard Manor, Amarillo.

### ONE ACT PLAY GIVEN AT DRAMATICS CLUB

"A Moment of Darkness," a one-act play directed by Mary Adams, was presented Wednesday afternoon at Dramatics Club.

The following were cast in the play, which was set in a state penitentiary: Maurine Archer, Tess; Rachel Kidd, Sal, a crazy negro; Lella Cooper, Myra; Alton Paul, Wilson, a guard; Willa June Renick, Aunt Min; Permelia Scruggs, Aunt Julia; Helen Mangum, Mrs. Keeley; and Lilly Mae Taack, Corene.

## Scene From Ruth Page Ballet

The above photograph is from a scene in the Ruth Page ballet which will be brought to W. T. as a lyceum number February 14. Admission will be \$1 for adults and 50 cents for children, or on activity tickets.

## Rollo W. Brown Will Give Two Lectures Feb. 10

Two lectures by Rollo Walter Brown, famous author and speaker of Cambridge, Mass., will be made at West Texas State Feb. 10.

The first, to be delivered in assembly to faculty members and students, will be at 11 a. m., and the second, at 8:15 p. m. in the college auditorium, to these groups and the public generally. His morning subject will be "The Romance of Being a Student." In the evening he will talk on "Do We Want a Creative Spirit in America?" Admission will be 50 cents to those not having activity tickets.

Dr. Brown was a pioneer in behalf of the creative spirit in American education and American life. Born in southeastern Ohio, the region about which he has written much, he was educated in the Middle West and New England. After several years as a college teacher of English, he turned to the writing of biography and fiction. His volume on literary tradition in French education is accepted as authoritative in his field. He studied in France while on leave as a lecturer in Harvard. He has lectured before audiences in many of the major educational institutions of the country and before conventions and clubs.

His books include "The Firemakers," "Toward Romance," "The Hillikin," "As of the Gods," "Dean Briggs," "Lonely Americans," "The Creative Spirit," "On Writing the Biography of a Modest Man," "Next Door to a Poet," and several others. His societies and clubs include many of the outstanding men and women of America.

Attempts had been made for several years to bring Dr. Brown to Canyon, but success came to the lyceum committee just a few days ago.

Several of his books are in the W. T. Library and others are owned by members of the family.

Never Married, But Must Get a Divorce Before He Can Wed. Be sure to read this puzzling problem of an Englishman. It is one of the many unusual features in *The American Weekly*, the magazine distributed with next Sunday's Chicago Herald and Examiner.

Mr. and Mrs. Fred O. Boone are both teaching at the Liberty Consolidated School in Bailey county.

Prof. Frank R. Phillips, head of the agriculture department, attended the F. S. A. meeting in Amarillo Thursday, and spent Monday afternoon in conference with F. S. A. authorities working out tentative plans for graduates of the agriculture department to do supervisory work in some of the western counties.

Miss Gladys Barton and Mr. Willie Boedeker are W. T. Exes teaching in the Spring Lake system.

Mr. M. L. Gunter of Wheeler, '37, is principal of the Progress Consolidated School in Bailey county. They have just completed a splendid auditorium and gymnasium combined.

Miss Stella Stanfield, '25, is now teaching in the public schools at Austin. She recently visited Louise Shanklin Jenkins and Ira Jenkins and Mrs. J. W. Shanklin former of Canyon, in their Houston home.

Byron F. Todd, '36, has announced his candidacy for school superintendent of Hall County. A native of Hall county, Mr. Todd has taught in the rural schools for several years.

Ogden Stroud, a W. T. graduate and teacher in the Skellytown schools, observed classes here last week. The Skellytown school is giving its teachers leaves to study methods in other schools.

## June Guinn Weds Owen Harvey Jan. 14 At Presbyterian Church

Announcement has been made of the marriage of Miss June Guinn, to Owen Harvey, Jan. 14 at the Presbyterian Church here. Aev. A. L. Dorsett of the Presbyterian Church officiated.

The bride was dressed in blue taffeta with accessories of dubonnet.

Those attending were Carmel Lee Guinn, sister of the bride, Ora Mae Harvey, sister of the groom, Roy Douglass and Leon Williams.

Both the bride and groom are students of the college, and graduates of the college training school. Mrs. Harvey is from Hereford and the groom is from Shamrock.

The couple will make their home at 2179 fifth street.

## Freshman Fellowship Club Holds Last Meeting Tuesday

Bishop E. C. Seaman of Amarillo spoke on "The Place of Religion in a College Freshman's life" at the last meeting of Freshman Fellowship Tuesday night.

"Religion is the seasoning of our lives," he said. "If we leave out the religious phase of our living, then our lives will be flat and uninteresting."

David Coats gave an evaluation of the year's work and various freshmen spoke concerning the value of the organization in their social and scholastic life.

The club, which was inaugurated early in October, has included two socials at Cousins on Oct. 19, and Dec. 14, and has met on Tuesday night every two weeks.

Officers are: Bill Longbine, president; Charmain Runyon, secretary-treasurer; Bonnie Bell Lisle, vice-president, and S. H. Condron, sponsor.

## New Members of Pi Omega Organization

Top row, Marcelite Reid, Dumas; Frankie Dodson, Lockney; Roberta Turner, Vega; second row Fernie Fry, Floydada; Dorothy Morgan, Amarillo. Amatene Lockhart, Plainview; bottom row; Katherine Daniels, Floydada; Mogie Routh, Amarillo; and Ruth Campbell, Canyon.

### WAYNE CHRISTIAN TAKES CHARGE OF WPA PROJECT

Wayne Christian, student in the archaeology and paleontology department, will take charge of the WPA archaeology and paleontology project on the Nobles Ranch, ten miles north of Clarendon, Wednesday.

The project, which is scheduled to run indefinitely, has been formally

headed by Mrs. C. Stuart Johnston, who is now taking charge of the district project.

Howard Batchelder, '36, principal of Dimmitt High School, has been granted a leave of absence for the last semester and will go to the University of Michigan at Ann Arbor, where he will complete the requirements for his Master's Degree.

### CLARK WILL DIRECT ALPHA CHI PROGRAM MONDAY

Prof. Wallace R. Clark, head of the music department, will direct a program dealing with music at a meeting of Alpha Chi Monday night at 8 o'clock at the home of Miss Edna Graham.

Mr. Flaudie Gallman is principal of the grade school system at Muleshoe.

# THAT "CHANT" SPELLS "EXPERT"

Lee Riggs, auctioneer, knows tobacco... he explains why experts prefer Luckies 2 to 1

"THIS SEASON," says Mr. Riggs, "I've sold tobacco in Georgia, South Carolina, North Carolina, and Tennessee. More than 7,500,000 pounds, I figure, amounting to about \$2,000,000 in money. "Time after time I've seen Lucky Strike get the prettiest tobacco in the auction. That's one reason I've smoked Luckies ever since I've been an auctioneer. "Another reason I and so many other tobacco auctioneers prefer Luckies is because we have to watch out for our throats." (Luckies are extra-easy on the throat because the "Toasting" process takes out certain irritants found in even the finest tobacco.)

Mr. Riggs goes on to say that Luckies are the top cigarette with people who know tobacco. And he is talking facts. Sworn records show that, among independent tobacco experts, Luckies have twice as many—yes, twice as many exclusive smokers as have all other cigarettes put together.

HAVE YOU HEARD THE CHANT OF THE TOBACCO AUCTIONEER? Listen to "Your Hollywood Parade" WED., NBC, 9 p. m. "Your Hit Parade" SAT., CBS, 9 p. m. "Your News Parade" MON. thru FRI., CBS, 11:15 a. m. "Melody Puzzles" MON., NBC, 7:00-7:30 p. m. (All Central Time)

## Butler Stars In Buffalo 61-37 Win Over Jackets

Conway Butler, Buffalo captain, flipped his overhead push shot with rare accuracy for a total of 18 points, turned in a sizable account of ball-handling and guarded superbly to lead the West Texas State cagers to an impressive 61-37 rout over the Howard Payne Yellow-jackets Tuesday night. The win was the second straight over the down-staters and the fourteenth of the season.

Butler, slow to approach his 1936 form, turned in his best performance of the year. Despite his crowd-cheering shots from the corners, he played second fiddle to "Tree-Top" Raymond Shackelford who rolled up 19 markers for first place. The majority of Shackelford's scores were tip-ins and hook shots near the goal.

Lother Stephenson, six feet six inch forward, took the spotlight when play resumed in the second half by looping four field goals in rapid succession. With a 47-25 advantage, Coach Baggett extracted his regulars with 13 minutes to play. The game was speeded up at this juncture when the Jackets chalked up six points against the reserves' four. With the count at 51-31, the Buff regulars returned to race to the highest count of the season.

Box score:				
West Texas	fg	ft	tp	pf
Welling, f	2	0	4	3
Hayes, sf	0	0	0	1
Stephenson, f	5	0	10	2

### IS DEAN OF WOMEN

Miss Clara Brian, graduate in the class of 1923, is now dean of women at Northern Montana College, Havre, Mont.

Until she went to Havre three years ago she taught at Wenatchee, Wash., in the high school.

Miss Brian is a daughter of Mrs. F. K. Brian of Canyon, who has sent four other children to West Texas State. These are Mrs. Thelma Evans of White Deer, Mrs. Lillian Tanner of Amarillo, W. H. Brian of Amarillo and Austin, and Miss Laura

## Bufs Re-open Tilts With Kimbroughmen

Post examination basketball gets under way again Monday and Tuesday when the Buffaloes oppose Frank Kimbrough's Hardin-Simmons Cowboys in a two game series at Abilene.

The Punchers hold a host of wins in competition thus far, and will be primed for their annual tilts against the taller invaders. Kimbrough has suffered from the loss of four rangy regulars from last year's club. He has groomed little Eldon Mahuron of Amarillo as one of his most powerful offensive cogs.

The Cowboys hold a close 28-26 decision over the Howard Payne Yellowjackets by virtue of some last minute cage magic. The Buffs bowled over the Jackets in comparatively easy fashion here last weekend in a double header. Dope would seem to swing heavily in favor of the revamped Buffaloes.

The games Friday and Saturday against the Panhandle Aggies at Goodwell, Okla., were postponed so that the Sooners might complete late schedule changes. These games will probably be played at a later date.

Those expected to make the Abilene trip are: Captain Conway Butler, Raymond Shackelford, Lother Stephenson, Craig Walling, Ernest Schur, J. E. Pietzsch, Melvyn Cullender, Milton Neilson, Odell Washington, Joe Hayes, Donald Kendrick, and Elton Amburn.

## Jennings' Mules Pull Into Tie for First Slot in Intramurals

The approach of "dead week," cut play short in the intramural basketball tournament last week. Basketball were placed away in favor of books as the players started cramming for examinations.

Play last week featured the scrappy Jennings Co-op Mules, surprise team of the tournament, added another victory to their string, at the expense of Buffalo Courts 16-5, and drew abreast of the leading Buffalo "T" Club and Epsilon Beta. These clubs went idle as games beginning Thursday were postponed and have been tacked to the schedule.

Results of the other games Wednesday: Currycombs 19, Moore's Co-op 12; and Polecats 24, Alpha Sigs 16.

Schedule of games beginning Jan. 31. Monday at 7:30, Tri-Tau vs. Stafford Hall; 8:30 Moore's Co-op vs. Dribbling Dromedaries; 9:30 Polecats vs. Buffalo "T" Club.

Tuesday, Feb. 1 at 7:30, Mules vs. Epsilon Beta; 8:30 Buffalo Courts vs. T-Anchor Cowboys; 9:30 Alpha Sigs vs. Currycombs.

Wednesday, Feb. 2 at 7:30, Tri-Tau vs. Moore's Co-op; 8:30 Polecats vs. Stafford Hall; 9:30 Mules vs. Dribbling Dromedaries.

Friday, Feb. 4, Tri-Tau vs. Pole-

Ferne, the latter now a senior in the college. W. H. Brian will receive his law degree at the University of Texas in June.

## Baggett Is Named Board of National Cage Association

Coach Al Baggett, head of the athletic department, has been named among the board of managers of National Intercollegiate Basketball Association. Baggett was chosen head of the Southwestern division which embraces Texas, Louisiana, and New Mexico.

Plans for the National tournament March 7-12 at Kansas City, Mo., are rapidly taking form as committees have been named and qual-

## Frosh Dispose Of Portales Hounds 52-25 For Series

Paced by Captain Dewey Johnson, the West Texas Frosh made it two in a row, Tuesday night, over the Portales Junior College Greyhounds 52-25.

The frosh showed superiority in every department as they romped through the Greyhounds to roll up the lop sided score. Portales, featuring Short, forward, was unable to break in close for crisp shots and had to toss baskets from deep court. Nearly all the Greyhound's scores came from back of the foul line.

Every one of Coach Cox's twelve man roster saw service and starred in the defensive performance. Captain Johnson accounted for four double-deckers and five free tosses

if requirements have been arranged.

The West Texas Buffaloes are sure to be represented when this first annual cage tourney opens. The tournament was started because college teams realized their inferiority to some of the more powerful amateur teams in the nation.

to take high point honors. He was followed by Short, Greyhound forward with eleven points.

Friday, January 28, the freshmen cagers go to Plainview for a game with the Wayland Junior College Jackrabbits.

Box score:				
Freshmen	fg	ft	tp	pf
Johnson, f	4	5	1	13
Davis, f	1	0	0	2
Barron, f	1	0	0	2
Price, f	1	2	0	2
Sorgee, f	1	2	0	4
