

BUFFALOES TO BATTLE SQUAD FAMED HENRYS

Burton's Protesges Doing Secret Practice Rest Of This Week

NATIONAL CHAMPS

Huge Sum Being Paid To Bring Finest Brand Of Basketball

Coach S. D. Burton announced Saturday that arrangements had been completed to bring the Henrys of Wichita, Kans., national basketball champions for the last three years, here for a two game series Friday and Saturday nights, January 27 and 28.

In obtaining this group of all-American stars, Burton is bringing to Canyon and West Texas what promises to be one of the greatest exhibitions of basketball yet to thrill the thousands of Buffalo admirers.

Both the Henrys and the Buffaloes are potential contenders for the national title this year.

All Americans on Squad

An independent amateur team, the colorful Henrys is composed of players who have at one time or another been named on an all-American squad. Tom Pickell, 6 feet, 6 inches, center, will be the first opponent of the year to seriously oppose Joe Fortenberry for tip-off supremacy. Capt. Berry Dunham, bouncing guard, and Melvin Miller, Grecian-nosed forward, are "honest-to-goodness" all-Americans.

The Buffaloes began secret practice at Buffalo Gym yesterday in preparation for the "crucial" games of the year. Burton was reticent about disclosing the meaning of barred doors from now until Friday night, but admitted that the Buffalo squad was not being spared in the practice sessions.

It is possible that he intends to spring a complete surprise on local fans as well as the skillful Henrys.

Huge Sum Being Paid

The large expenditure necessary to bring the national champs here has made imperative a student admission charge in addition to the regular blanket tax. More than \$250 above the scheduled price to be paid the Ada, Okla., Teachers, who cancelled their games here for last night and tonight because of a flu epidemic, is being paid the Henrys.

A nominal charge of twenty-five cents will be made students on presentation of the regular blanket tax. A general admission charge of seventy-five cents will be made the public. Both charges include federal tax.

Prairie Given Space In Jan. College Digest

In the January issue of the College Digest, published at Austin, Texas, there appears a number of quotations taken from the Prairie.

The Christmas address made by Dr. J. A. Hill, appearing in the December 21 issue of the Prairie, is reprinted in full by the Digest. An editorial, written by Gene Elo, on the Democratic political victory is also carried in full.

Numerous quotations concerning the problems of the state teachers colleges are taken from Prairie news articles and speeches made by Dr. Hill. In the Poetry section, Miss Emil Brewer is honored with the appearance of her poem, "Behind the Mailbox."

A sports story and the Buffalo basketball schedule are printed, taking news of Burton's Miracle Men to all portions of the state. A detailed account of each first string player and reserve man is contained in the sports article.

Robert Whitley Buried Commerce Monday Morning

Many W. T. folks are grieved to hear of the death of Robert Whitley, eldest son of President S. H. Whitley of East Texas State Teachers College, Commerce, Texas.

Whitley, a teacher of sociology in City College in New York City met death by his own hand last Saturday following a nervous breakdown.

He was buried in Commerce yesterday at ten o'clock.

STATE SCHOOL BOARD REPORT GIVEN PUBLIC

RECOMMENDATIONS SIMILAR LEGISLATIVE COMMITTEE'S AS EFFECTING W. T.

Strikingly similar is the report of the State Board of Education to that of the Legislative Committee on Economy and Organization in curtailing the extent and breadth of work offered by the state teachers colleges of Texas. The report was made public last Saturday.

Briefly, the Board recommends the transformation of most of the teachers colleges to junior colleges, and the probable abolition of one or more.

Texas A. & M. and the State University are the only state operated institutions that would escape the chopping block, scot-free. These schools might be expected to profit by the reduction in number of senior colleges because of forced attendance.

Texas Tech, suffering loss of its technical school and made into a senior college of arts and sciences, would be expected to absorb the upper classmen of West Texas and Sul Ross at Alpine, both of which would become junior colleges. The Board suggests that this might be done with "little additional expense."

The compression of upper classmen from all state schools into five senior colleges is the result of investigations which conveyed the impression that junior and senior classes were small in most cases and an expense to the state which should be reduced above all others.

As an additional blow to public education, the report suggests that Texas students at state institutions be charged a tuition fee of \$25 a semester. Out-of-state students would be assessed twice the fee, \$50.

200 Young People At District Rally Methodist Church

Despite inclement weather on the first day, approximately 200 young people were in attendance at the meeting of the Amarillo District of the Methodist Young People in Canyon Saturday and Sunday.

The meeting convened at 8:30 Saturday evening with a worship service conducted by the Wesley Student Foundation of the local church. The service was entitled "Man at His Best" in which living pictures were presented.

Dr. J. T. McClure of the Polk Street Methodist Church of Amarillo gave the principal address of the evening. His address dealt with the prohibition problem. The remainder of the evening was devoted to the "Happy Hour," a social hour of games and contests.

Breakfast was served at 7 o'clock Sunday morning in the social hall by the Canyon members of the organization. The morning watch was led by Miss M. M. Richardson of the English department, and the Visitors Sunday School class was conducted by Miss Angie Debo.

The morning sermon was preached by Rev. C. W. Foote, pastor of the Methodist Church.

The young church workers who attended the meeting came from all parts of the Panhandle territory.

Geography Head Lectures Before I. R. C. Group

"Switzerland, the Playground of Europe," was the subject of an illustrated lecture given by Miss Darthula Walker last Tuesday evening before the International Relations Club. The talk, which was made doubly interesting by groups of colored pictures passed among the auditors, proved to be a genuine treat to the twenty-seven club members present.

Miss Walker has visited Switzerland twice, the last time as a tutor with a traveling university.

Bruce Cleland, president of the organization, announced that at the next meeting there would probably be presented a motion picture film dealing with life in some European country.

Miss Marie Crone, returned missionary from Cienfuegos, Cuba, addressed the Methodist Young people last Sunday night. She has also been gracious in meeting the Christian Endeavor of the Presbyterian Church.

Murdered At The Opera! How Bertillon, the great French scientific detective, solved the almost perfect crime, vividly told in The American Weekly, the magazine distributed with next Sunday's Chicago Herald and Examiner.

STATE BOARD CONTROL SET W. T. BUDGET

Recommendations Made to Legislature for Biennium.

BIG CUTS MADE

More than 25% Cut Is Set Up—Salaries Lowered.

The State Board of Control has issued its budget with recommendations to the legislature for the support of the state government for the coming two years. The Board makes the recommendation of \$38,260,074 for the support of the state government for the coming two years. The amount of the appropriations for the past two years totaled \$45,856,034. The various departments and institutions of the state had requested a total of \$53,243,573 for the coming two years.

For the West Texas State Teachers College, the Board of Control has recommended a total of \$368,834 for the coming two years, as compared with the appropriation of the past two years of \$514,824. This is less than the 25% reduction which Mrs. Ferguson has asked that the various institutions make. W. T. had requested \$621,219.91.

Elimination of the appropriation for the summer sessions, of three teaching positions for the regular session, and all permanent improvements was responsible for the largest part of the decrease in the recommendations.

According to the recommendations, salaries have been reduced approximately 10% throughout the schedule for teachers colleges. For the courts of the state and for many positions in the state department and the university the reduction amounts to 15%.

Departmental maintenance remains about the same as during the past two years, since these items were materially cut in the last appropriations bill to the lowest level in many years.

The recommendations of the Board of Control are used as a basis for consideration of the legislature.

Spanish Profs. Take Part In Plainview Meet

Two members of W. T.'s Spanish department, Miss Mary E. Hudspeth and Miss Agnes Charlton, journeyed to Plainview last Saturday to attend a meeting of the Llano Estacado chapter of the American Association of Spanish Teachers.

Miss Hudspeth was on the program of the meeting, giving a talk on her impressions of Spain. Miss Frances Whitley of Texas Technological College addressed the Spanish teachers on "Nationalism in Mexico."

A group of Mexican dances in native costume were given by a class of Plainview high school girls under the direction of Mrs. Clint Herring. Mrs. Herring, formerly Bennie Bell Warren, is an ex-student of W. T.

Religious Training Course Is Offered Methodist Church

Prof. W. L. Vaughan of the Demonstration School faculty is in charge of a teachers' training course being conducted weekly this term at the Methodist Church. Materials and textbooks for the work is being provided by the national headquarters of the Methodist church at Nashville, Tenn.

Meeting each Wednesday evening, 7:00 until 8:00, in the Ladies' Parlor of the local Methodist church, the course has as its objective the training of school teachers for community participation in religious education.

Teachers of all denominations are invited to attend.

The first of a series of discussion meetings on "Etiquette" was held recently by the women at State Teachers College, Florence, Alabama.

Miss Minnie Adams of Quail, Texas, is spending the week-end at Rest Cottage with Miss Mary Moss Richardson.

Jim Crowder was seen rambling about the campus Saturday.

FROM OVER THE WORLD

YELLOW BELLIES FREE! LIONS SHOT IN DOOR-YARD APPROPRIATION FOR GO-CART SIC, 'EM, TIGER!

THE OLD, OLD PASSION PLAY
Denver Mr. Wright, synthetic lion hunter whose first adventure in big game hunting last October was frustrated by a town constable who left Wright holding the bag while he shot the king of beasts from ambush, had his second skirmish to go askew last week when two male lions released on Wolf Island in the Mississippi refused to provide the desired excitement. The adventure ended in the pathetic slaughter of the beasts after they had lolled around the hunter's camp for more than two days without signs of the fury attributed to lions.

The Kansas State Legislature has appropriated \$50 for a perambulator for the infant daughter of the Kansas Governor.

After thirty-five years the beneficent father at Washington is about to keep a promise made in 1898 when the Philippine Islands were brought under the control of Uncle Sam. A bill, yet to be approved by Philippine leaders, was passed last Tuesday over President Hoover's veto freeing the islands on July 4, 1943.

A jackrabbit loped onto a California race track while an auto race was going on. Entering into the spirit of the day, the late entrant (probably a winter visitor from Texas) was timed at 65 miles an hour before being eliminated.

David O. Swanson, Salina, Kans., farmer is asking for a divorce and \$5,955 damages, alleging that he was fraudulently wooed into marriage by his wife who produced the license after taking him to the movies to see many torrid love scenes.

The football huddle, according to Shy Anderson, ex-Oregon coach, was born in 1919 when Stanford University, playing Oregon State, forgot its signals. The Stanford quarterback called his team back before every play—and won the game, 10-0.

An Eastern newspaper says: "With sinking hearts and deepening discouragement, the people watch from day to day the futile gyrations of Congress."

"Talk, interminable talk, flat and ignorant talk, ever MORE TALK—Will the gentleman please?" "I suggest the absence of a quorum." "The clerk will call the roll" (the time-wasting expedient of winded oratory to gain a breathing spell) and finally a motion to adjourn for the day—WITH NOTHING DONE!

Prince George of the British Royal family is the latest addition to England's 400,000 influenza victims.

AUTHORITY ON SOVIET LINED NEXT LYCEUM

WM. H. CHAMBERLAIN, NOTED JOURNALIST WILL BE HERE ON FEBRUARY 6.

Mr. William Henry Chamberlain, journalist, author, traveler, and authority on Russian affairs, will appear on the lyceum program of W. T. S. T. C. on the evening of February 6.

Mr. Chamberlain has traveled over 30,000 miles in Russia and is considered to be one of the outstanding authorities on modern Russian problems.

He is the author of several books on Russia. His "Soviet Russia" has gone through ten editions. Mr. Chamberlain will lecture on one of the following subjects: "Ten Years in the Soviet Union," "Daily Life Under the Soviets," "Communism: The Faith Without a God," or "The Balance-Sheet of the Five Year Plan."

The appearance of Mr. Chamberlain as a blanket-tax attraction promises to be the outstanding lyceum number of this year.

CLASS MEETING

A sophomore class meeting is called for Thursday morning at 11 o'clock. All members are urged to be present as important business will be taken up at this time.

Arrival of Vernon H. Jr., has been announced by Mr. and Mrs. Vernon H. Harmon, ex-students of W. T., December 19, 1932. Mrs. Harmon was formerly Mary McGlaun and was a student here in 1929. Mr. Harmon took his degree in 1928 after four years on the W. T. Campus. He is now teaching near Claude.

Y. W. C. A. TO SPONSOR 1933 STUNT NIGHT

February 2 Is Date For Renewal Of Original Presentations

FACULTY NUMBER

Five Dollars In Gold Is Prize For Winner Of Competition

Under the sponsorship of the Young Women's Christian Association, All-College Stunt Night will be observed Thursday evening, February 2, at eight o'clock in the college auditorium. The custom of setting aside one night every other year for an evening's performance of competitive stunts was started by the Y. W. C. A. several years ago, and has in the past proved a popular phase of collegiate activity for both students and faculty.

Ten cents will be the admission price charged.

Winner Receives Prizes

This year, as before, the Y. W. C. A. is offering a prize of five dollars in gold to the student organization presenting the most effective stunt of not more than fifteen minutes in length. Presidents and sponsors of organizations have already received copies of the rules governing the contest, and it is understood that several groups have declared their intentions of making the competition keen.

Among the organizations making the most enthusiastic preliminary preparations, is W. A. A., whose stunt won the prize in 1930.

Faculty Will Perform

One number on the evening's program will be the faculty stunt—a feature which has never failed to please. As has been the custom heretofore, the stunt given by members of the faculty will not compete for the prize.

Judges for the evening will be representative citizens of Canyon and will be selected by the Y. W. C. A.

Girls Glee Club Sponsoring Song Contest, Women

Continuing the plan started last year, the Girls' Glee Club is again sponsoring a song contest among the women's organizations of the college. The primary purpose of this plan is to arouse an interest in group singing, and it is to be hoped that all the women's organizations upon the campus will cooperate with the Glee Club in making this year's contest a success.

The silver loving cup offered by the Glee Club, and won last year by the Elaphean Literary Society, is on display in President Hill's office.

The date for this year's contest has not been definitely decided upon, but will be some time during the last week of the winter term. An out-of-town judge will also be selected. The names of all entries must be listed with Miss Brigham before Feb. 1.

College Orchestra Will Give Recital Saturday, Jan. 28

The College Orchestra, under the direction of Prof. Wallace R. Clark, will make its first appearance of the quarter next Saturday evening, January 28, at 8 o'clock in the main auditorium.

Both college students and the general public are invited to attend the recital.

As announced by Mr. Clark, the program is as follows: "The Magic Flute" (Overture)—Mozart.

Two Slavonic Dances (No. 3 and No. 7)—Dvorak.

"Oberon" (Overture)—von Weber.

J. C. Line, W. T. sophomore, visited with friends in Panhandle, his old home town, Saturday and Sunday, returning to the Campus Monday morning.

Leon "Speedy" Landon honored Panhandle with his presence over the week-end.

Television pictures are being successfully transmitted and received each week by two engineering students at the University of Minnesota.

ALLEN CHAPTER RAISING FUNDS SEND DELEGATE

ERNEST CABE TO REPRESENT SCHOLARSHIP SOCIETY AT SAN MARCOS MEET.

Meeting last Wednesday evening in the home of Miss Edna Graham of the mathematics department, the Lloyd Green Allen Chapter of the Scholarship Societies of the South did some extensive planning for the rest of the school year.

The most urgent business before the meeting had to do with the sending of a delegate to the conference of Scholarship Societies of the South to be held in San Marcos in February. It is imperative that the local chapter send a delegate to the meeting, as failure to do so means the forfeiture of membership in the organization.

Definite plans were made as to the raising of money to finance the trip to San Marcos. Ernest Cabe, president of the local chapter, was selected to represent W. T. at the conference.

The remainder of the meeting was given over to the planning of a series of chapel programs to be given by the Society this quarter. These programs will deal with college and university life in foreign countries. The countries to be represented on these programs are Spain, England, Scotland and China. The first program will be given some time in the near future.

Prof. Condon To Attend Hemphill County Institute

S. H. Condon has been invited to attend the Hemphill County Institute at Canadian, Texas, January 28. Professor Condon will address the teachers on two important topics of the day.

As his first address, Mr. Condon has chosen as a subject, "The Teacher and His Problems." A phase of this, coming under the general theme of supervision, will be that of teaching the pupil how to study.

A second and more important topic to be discussed is "The Trend in Modern Education as an Outgrowth of the Depression." Under this heading, the W. T. economics professor will cover the reductions in financial support of schools, the contraction of the curriculum, the gradual elimination of poorly prepared teachers, a higher degree of state centralization, the organization of larger school districts in the interest of economy compared to organization in recent years in the interest of education, and, lastly, the increase in size of classes for instruction.

These phases will be thoroughly developed in an attempt to aid teachers in meeting the new difficulties which arise daily.

Miss Ethel Ruth Collins and Miss Hettie Lou Bagley, both of Canyon, have accepted positions as teachers in the Stone School near Claude, Texas.

W. T. Seniors Do Outstanding Work Practice Teaching

Estill Foster and Vernon Baker, W. T. seniors practice teaching in sixth grade history at the Canyon Public Schools, have just completed an interesting project in connection with their work.

They are both teaching Texas History and are thus able to combine their efforts. As a climax to the semester's work, both classes co-operated in producing a thirty-two page magazine dealing with Texas history. The magazine consists of articles written by the pupils, and is profusely illustrated with pictures and cartoons drawn by members of the classes talented in art. The magazine was duplicated on a mimeograph, and a copy was given to each pupil.

Another interesting part of their project was the making and conducting of a small museum of Texas history. Each pupil brought any material of historical value and interest that he could obtain. The material, which proved to be rather quantitative, has been placed in a room in the Canyon Grade School Building for display.

"The return of prosperity is to be hastened by taking the hand of government off the taxpayers' throat and by reducing expenditures for purposes that have been forced into the budget by efforts of special groups," is the opinion recently voiced by Dr. Nicholas Murray Butler, president of Columbia university, in a speech dealing with the Veterans' appropriation.

MISS HARDIN NAMED QUEEN OF COLLEGE

Chosen By Earl Carroll Of Famed "Vanities" When In Amarillo

LE MIRAGE CONTEST

Photographs Of Six Will Have Page In Yearbook Beauty Section

Mary Helen Hardin was selected as Queen of the College Saturday by Earl Carroll, famous beauty connoisseur of New York City, in Amarillo for a presentation of his "Vanities."

Miss Hardin, a senior from Childress, Texas, was chosen as the most beautiful girl in W. T. from photographs submitted of the six leading candidates in the beauty contest sponsored by Le Mirage last term. The six were elected by popular vote from a group of twenty girls named by classes and Campus organizations.

All six candidates will be given a full page in the 1933 year book with Miss Hardin's photograph occupying the position of college queen.

Mr. Carroll placed the photographs, numbered and with the names unknown to him, in the following order:

Mary Helen Hardin, Roberta La Fon, Esther Reeves, Mary Jo Gates, Mary Martin, and Yvonne Thomas.

Bob Rowan, business manager of Le Mirage, has had charge of the contest since its introduction early in the Fall term. It had been planned to have a film star select the Queen, but when it was learned that the famous New Yorker was to be in Amarillo plans were changed accordingly.

It is probable that a formal coronation ceremony will be held at which the six beauties will be honored.

Miss Hardin is a talented soprano. She is a former student of Texas Women's College at Fort Worth where she was a voice major. She has appeared on numerous radio programs both in Ft. Worth and in Amarillo and is official songbird for the Panhandle Press Association.

She is the daughter of Mr. and Mrs. T. L. Hardin of Childress.

Trinity President Opposes Plan to Increase Tuition

Dr. John Burma, President of Trinity University, Waxahachie, preached at the Presbyterian Church Sunday. He discussed with Canyon people the educational situation in Texas, and was frank in stating that he opposed reducing the state colleges in rank. As head of a Presbyterian institution, Dr. Burma is convinced that the denominational colleges can never take the place of state supported colleges, and should not. He cited that Trinity was surrounded by state colleges, but even should all be abolished, he did not believe that it would greatly increase the attendance at Trinity because of the higher tuition. The state schools are for the poor boys and girls of the state, who would be deprived of an education if the tuition was greatly increased.

It is reported that most of the agitation for a great increase in the tuition charges of state schools comes from three denominational colleges of the state, but that others are opposed to the program, since the state has a duty toward the poor boys and girls of the state who would be deprived of an education if the tuition was placed beyond their means.

DR. JARRETT IN DEMAND AS SPEAKER

"Personality Development of Children" was discussed by Dr. R. P. Jarrett before the Child Study Club last Friday evening at the home of Mrs. John E. Hill, 1900 Harrison Street, Amarillo.

Dr. Jarrett gave a good part of his time last week to addresses.

Directors of Oxford university once voted not to install baths, because students are in attendance only eight months of the year.

THE PRAIRIE

THE STUDENT NEWSPAPER

A weekly college newspaper published every Tuesday by the students of The West Texas State Teachers College, Canyon, Texas.

Entered on November 21, 1919, as second-class matter at the post office in Canyon, Texas, under the Act of March 8, 1879.

Printed by The Warwick Printing Company.

Member Texas Intercollegiate Press Association.

"TAG" DANCE IS MAN'S DEVICE FOR FREEDOM BUT PROGRAM DANCE HAS VALUES

While a plea for increased formality in collegiate activities has many points upon which to base its structural foundation, it is foredoomed to meet with stubborn opposition on the part of college men who value the remaining vestiges of freedom granted them by the avalanche of not-to-be-thwarted suffragettes.

Whether or not men are responsible for the termination of program dances, binding them to rules rigid as a New Englander's faith, we are unable to say. But, glory be! whoever invented the cut-in, or "tag," dance, gave to men a weapon which they will not willingly relinquish.

It is a curious weapon, too. One wielded in the form of "passive resistance," one whose usage does not incur the appellation of "not a gentleman," and one that is quite effective.

To wield it, men need only be conspicuous by their absence!

At "tag" dances, men are necessary. That is, there must be more men than girls present, otherwise chere amie, Madamoselle Goddess, wilts under the constant attention of a single swain.

So at least in this one phase of social life, college men can be independent. They may accept dance invitations with the blasé indifference so cutting to a woman's pride. As a stag he has the privilege of cutting-in when and where he pleases—and if he pleases. His obligations are few. He may assuredly strut—and does—while his smirks set his contemporaries, the girls, aflame with inward wrath.

But, if men are wise, they will not utilize this weapon to the extent that it becomes intolerable. Women are smart. In the end they are bound to make it a boomerang—if they get their heads together and their necks bowed.

We therefore advocate a frequent return to the formalities of the program dance for college students. It will stave off the inevitable in that the rebellious attitude of girls will be partially pacified and the freedom of the "tag" so much prolonged. And the sweltering restrictions of a program dance, occasionally, will add marvelously to the atmosphere of civilization traditionally attached to collegiate activities.

CUT SCHOOL EXPENSES BUT SAVE EDUCATION!

In Chicago, where school teachers have gone unpaid for months at a time, the Board of Education is making a genuine effort to reduce expenses without cutting salaries of the teachers. "This" says the Chicago Herald and Examiner, "is as it should be."

In a stirring editorial, which is in many ways a tribute to teachers and the teaching profession, January 11, the Chicago paper continues: "That the education of the youth of our day might continue uninterrupted, the teachers of this city have suffered truly great privations. They have known, in many instances, what it means to lose their homes and go through every privation known to humans."

"And on top of all this, Chicago's teachers are still unpaid to the extent of many millions of dollars."

"Education is one of the most important functions of government. Let it fail and this country will have a set-back that it will take two generations to wipe out."

"The Board of Education is to be congratulated upon its new effort. Almost everything else in the school budget should be slashed to the bone. Every dollar that is spent on the salaries of teachers is actually for the education of our children. It is only education that will help the rising generation which has suffered from our great national crash. Every dollar not actually spent on teachers' salaries can be examined for possible reduction or elimination."

"What is the use of spending another dollar on school building or maintenance if the effectiveness of the teachers, upon whom the whole structure depends, is to be lessened?"

"In view of our civic history of the past two years, the teachers' salary is the very last thing that should be tampered with."

Bertrand Russell allows his children to call him a fool because he thinks the truth should not be suppressed.

GUS'S GOSSIP GAGS

We have been informed that CYNTHIA LUMPKIN recently did a graceful (?) nose dive down the east stairs of the Administration Building, and was she embarrassed or was she embarrassed? . . . FRANK WINSETT certainly has some loyal friends—JAMES COMPTON was ready to "hook" everything he possessed and CHARLIE MAE CARPENTER had her name on the dotted line as soon as they were informed that FRANK was about to be "thrown behind the iron-covered windows."

It's just hard to get around the fact that MARIE ROBERTS is a darn good sport. . . . "MITCH" JONES seemed to be rather worried at the Fish-Happy basketball game the other night—especially when the score became so close. . . . "SHORTY" MILLS was in a most congenial mood the other morning. His theme song for the occasion was "Good Morning To You."

DEAN FLETCHER must have been anticipating quite a feast when he got up about three o'clock the other morning to eat breakfast over at the CROWDER HOUSE. . . . We are told that JOE FORTENBERRY had quite a long wait

some time ago when he called for his date at Mr. THURMAN'S home.

"SANDY" SANDERS and "MAHATMA GHANDI" SPRATT seem to be getting up quite a case, that is they would be if "GHANDI" didn't attempt to hide in filling stations. And before we forget to mention it let us remind you that "MAHATMA'S" favorite pastime is riding elevators. . . . ROBERTA LA FON and MATTIE WHITTENBURG are really deserving of all the nice things that have been said about them lately.

We are mighty glad to have JOAN ESTES back in our midst. . . . MAXINE ROBINSON and ELIZABETH McMILLEN are two more excellent dancers. . . . And while speaking of good dancers we can not justly overlook BILL PITMAN.

Say that first Tech game was quite a "ripping affair" wasn't it. . . . We must compliment WINSTON SAVAGE on the excellent program he presented in Chapel last Saturday morning. . . . We have some "pretty good dope" on RUSSELL STROUD that we intend to use in our next column.

Norman Brokenshire Tunes Up Chesterfield Radio Stars for the New Year

Reading from left to right, Tom Howard, George Shelton, Ruth Etting, Bing Crosby, Norman Brokenshire and Lennie Hayton.

Six nights a week—every day except Sunday—at 9:00 p. m. Eastern Standard Time, stars of comedy, music and song will come thru the Columbia Broadcasting System over the largest coast-to-coast hook-up in radio.

Tom Howard and his partner George Shelton are new to the ether waves. An exclusive Chesterfield find, they are reported to have turned down some attractive stage offers, including one with "Of Thee I Sing," for an opportunity to present a new comedy-team idea on the radio.

W. T. Speech Department Larger In Proportion To Student Body Than Any College In The State

"There has been much interest manifested in the department, both in speech work and the Dramatic Club," said Miss Mary Morgan Brown, head of the Public Speaking Department, in summarizing her work of the Fall term. "A surprisingly large number of talented students were included in our classes."

The department now has six sections of freshman work offered with an enrollment of one hundred thirty five students. Another three hour course, "Story Telling," which has heretofore been very popular with primary and intermediate education majors will be offered this term. It, according to Miss Brown, might be considered a "service course" for these groups with the probability that it will soon be required of speech majors.

Advanced students have been doing much outstanding work. Eulalia Burrus, scholarship student in private instruction this year, has starred in productions taken by Mr. Batchelder and several fellow-students to cities throughout the Panhandle. Juanita Campbell has done some excellent directing and dramatic work.

Clarice Matthews did a very in-

teresting piece of work at the beginning of the fall term in "Snowbound," a colonial play, in which she took the role of a man. She is now preparing to do some individual parts in dramatic readings.

Farris Sears and Leon Landon, speech majors, were startling in their presentation of "Pipe of Peace" in November before a Home coming audience.

Other advanced students to merit the praise of a critical public are Edna Baer, Ethel Ellier, Eulah Elliot, Dorothy Harris, Esther Root, and Alvord Swafford.

The Children's Theater is not functioning this year, but, to make atonement of this deficiency, several plays will be presented by the Dramatic Club for the children in the Demonstration school. Two big productions, not yet selected, will be presented during the Spring term, the Senior play and the Panhandle Players.

Speech work in W. T. has been outstanding, both in quality and quantity. Prof. E. C. Bryan, head of the Speech Department at C. I. A., found, from a survey made last year, that there are more students taking speech in proportion to the

student body than in any other college in Texas.

The fact that two ex-students of this college, Winston O'Keefe and Winnie Mae Crawford, had leading roles in "Green Grow the Lilacs," by Lynn Riggs, when produced at Northwestern University last summer, proves the superior quality of W. T. speech students.

O'Keefe, perhaps the most talented product of the Department for all time, has won two \$200.00 scholarships at Northwestern University in his two years there. His dramatic ability in addition to his original development and portrayal of the western cowboy has gained for him a name and numerous engagements in and around Chicago.

A huge and magnificent library which was recently dedicated at the University of Southern California was donated to the school by Edward Doheny, Jr., as a memorial to his son.

When reports of student cribbing were checked and verified at the University of Washington law school, it was promptly voted to abolish the honor system and to re-establish the monitor system.

Transfer students for George Washington university whose fraternities do not have chapters have banded together and will petition for recognition as a local organization.

TECHNOCRACY WHAT IS IT?

By S. H. CONDRON

Any movement that promises something better than present world conditions will secure a willing reading. We have unemployment, business collapse, bank failures, insecurity, hoarding, prices below cost of production. Along comes Technocracy, telling how these ills may be cast into the limbo. Naturally people read and want more. Prosperity is no time to talk of changes, hard times encourage all kinds of such talk and Technocracy is one of these things to be talked of.

Will Rogers wonders if the word Technocracy should not be spelled, "Techno-crazy." A Dallastie considers it a ten dollar word to express a ten cent idea. Apparently we will find that it is stirring similar ideas and reactions as did the Malthusian Doctrine upon its original publication.

The following sketch is an attempt to collect the salient facts regarding Technocracy. Little attempt will be made to bring arguments to refute it because so far its exponents have set forth no plan whereby the system might be put into operation.

In 1920 a group of engineers, headed by Howard Scott, established a society for the purpose of making a survey or analysis of "the social mechanism on the North American Continent." Among those originally enrolled in this enterprise we find such names as Charles Steinmetz, Thorstein Veblen, Bassett Jones, Richard Tolman, and others of distinction. The central fact around which the investigation was made hinged on the presumption that modern machinery tends to displace human labor. Unless the machine is placed under the control of experts (Technocrats) these machines will become a Frankenstein and destroy civilization and the human race. Properly directed a Utopia will be ushered into existence and a new era of world history will dawn.

As depicted by the Christian Century Magazine, Technocracy raises five propositions. Quoting Howard Scott, high priest of Technocracy, the movement makes one basic postulate "that the phenomena involved in the functional operation of a social mechanism are metrical." To express this differently, the Technocrats claim all organisms are energy consuming and energy producing devices and can be measured by the energy they consume or the work they do. Terms of value do not measure—only electrical terms of energy accurately measure value. Hence all social sciences, laws of business government and economics are useless.

The Technocrat, in the second place offers a new standard of measurement. A static society is one where the per capita use of or production of energy remains constant. A progressive society is one characterized by an ever increasing use of or production of energy. As illustration, early Egypt is cited. With a population of approximately five million, not exceeding 150,000 horse power energy was developed, based on an eight hour day. A modern steam turbine will produce 193,000 H. P. every hour. With only one attendant a battery of hydro-electric turbines at Niagara will turn out 50,000 h. p. per hour continuously. Egypt's population, unable to produce more power, remained stationary, about five million, while the population of the United States stepped up from three million in 1779 to one hundred twenty-three million in 1929. Likewise our wealth increased from an annual income of four hundred million to eighty billion dollars. Incidentally this also proves that the machine may

be introduced and not bring disaster prophesied by the Technocrats.

The Technocrats, in the third place claim unemployment and economy crises are inescapable under the present system. Both Wall Street and Russia are very stupid, because they both are trying to solve the economic problem on the basis of old economic theory and the price system. Machines are displacing men so rapidly no system can be devised that will keep up with technological improvement. Since the masses do not share in the improved production, they are unable to share in the use of such goods because they cannot buy them. The technocrats likewise claim inventions are now waiting to be placed on the market which will revolutionize a major portion of the goods now produced.

If the energy consumed in the production of these goods be used as a basis of value, it could be apportioned to the population equally and every person would, they claim, enjoy an income equivalent to an income now of ten thousand dollars or more. (Apparently then, such a system would be highly communistic.)

The same argument used by Technocrats today to describe our system was employed in England during the Industrial Revolution. In 1769 it took 700 persons to spin as much as one man could spin using an Arkwright machine in 1856. Theoretically 699 men should have been out of employment. Yet in 1856 we find 379,000 employees in this industry where we only found 218,000 in 1836. In 1914 this number had increased to 889,000 while the population of England had reached 45,000,000.

In the fourth place the Technocrats claim modern industry is being paralyzed by debts. Industry demands dividends from all investments. Against our present social organization are debts totaling 218 billions. If one hundred thousand dollars be invested at 5% compound interest for 600 years it will total a ball of gold the size of our world. And still this debt of 218 billions must pay dividends. For such reasons, they claim the price system must go.

Finally the Technocrats propose an industrial re-organization controlled by the technical experts of America, some 300,000. Four millions of workers are able to assist these experts from our population of 120 millions. We produce now, roughly, one billion h. p. and can increase this rapidly. Incidentally the Technocrats claim America is the only country in the world where Technocracy can exist. We have all the materials in such quantity as to make the Promised Land possible. England is worn out and will soon sink into oblivion. The Orient is not ready for the change.

Since America has chosen the machine way, she cannot reverse her direction. To continue as organized at present means destruction. Her only alternative is Technocracy. This change would: 1. abolish the capitalistic system; 2. create a highly centralized political, social, and industrial unit; 3. communize all major sources of wealth; 4. establish a new system or unit of value or compensation based on energy; 5. educate a few for the direction of the engineering staff; 6. train the masses to do a few simple tasks and provide for them means to spend most of the time in leisure, since the working day would be about four hours.

The following references will supply information: The New Outlook, Nov. and Dec. 1932, Jan. 1933; Christian Century, January 4, 1933; Nation's Business, January 1933; Living Age, December, 1932; Financial World, Dec. 28, 1932. Other references will of course follow giving further insight into this new movement or body of facts.

EMIL BREWER, Editor

Y. W. C. A. CABINET HELD MEETING AT RANDALL HALL

On Monday evening, January 16, the Y. W. C. A. held its regular cabinet meeting at Randall Hall with Bettie Rose Kerr as hostess.

The devotional selected by Miss Debo dealt with the chapter of the study-book entitled "Learning to Forget." From the lesson one learned that there are three sets of memories which should be kept under unwavering control:

1. "We must forget our own past failures" before we can muster sufficient energy and courage for our new tasks.

2. We must "forget other people's unkindnesses" through forgiveness. Holding grudges overthrows our physical and psychical balance.

3. We must not allow ourselves to wonder what might have been had our choice been different. Moral: "Don't be an Iffer."

The greater part of the business session concerned the All-College Stunt Night to be held Feb. 2. This feature is sponsored by the Y. W. C. A.

Refreshments of custard cups and wafers were served to Misses Lowes, Richardson and Debo, Mrs. Smith, Mable Mongole, Jean Day, Fannie Mae Rees, Pauline McCants, Virginia Heaton, Betty Harris, Mary Jo Gates, and Bettie Rose Kerr.

LAURA BLANCHE ATKINSON MARRIES RECENTLY

Miss Laura Blanche Atkinson of Dalhart, W. T. ex-student, and Mr. George Thomas Morris of the same city were married at 10 o'clock Saturday morning, January 14 at the South Methodist church in Dalhart. Rev. G. T. Palmer, pastor, read the impressive service in the presence of a large gathering of friends and relatives.

The bride wore a lovely frock of ruff white crepe, fashioned with large pleated sleeves, high neckline and caught at the waistline with a rhinestone buckle. Her small, close fitting hat was of white crepe, with a short circular veil and her arm bouquet was of Killarney and Talisman roses.

Mrs. Morris, who was a student at the West Texas State Teachers College in 1930-31, was chosen queen in the beauty contest sponsored by Le Mirage, and was active in all student affairs.

Soon after the ceremony the bride and groom left by motor on their honeymoon to be spent in Colorado Springs.

Y. W. C. A. DISCUSSES "AFTER COLLEGE, WHAT?"

The theme for the quarter's study in the Y. W. C. A., "After College, What?" was begun in the meeting held Wednesday afternoon.

The devotional consisting of a number of songs, the reading in unison of I Corinthians 12, and prayer was followed by a discussion of the economic background for the present conditions of our country. From her wealth of knowledge, Miss Angie Debo gave a most satisfying and practical interpretation.

The Y. W. would be pleased for others to share the treats in store for them for the quarter.

At its next meeting, Wednesday afternoon at 4:30 in Room 113 E, Miss Dorothy Cash will discuss the theme, "The Do's and Don'ts of Going after a Job." All college girls are invited to attend.

CANYON STUDENTS HEAD NEW CHAPTER

Miss Bernice Bessire was recently elected secretary and Miss Dena Faye Jameson Distoff correspondent of the Zeta Chapter of Kappa Omicron Phi.

Kappa Omicron Phi is a National Honorary Professional Home Economics Sorority and was installed in the West Texas State Teachers College in May, 1927. There is only one other chapter in Texas, that being at the College of Arts and Industries at Kingsville. Eligibility for membership is based upon scholarship, personality, and leadership. Active members shall have completed a minor in Home Economics and shall be chosen from the upper twenty per cent of Home Economics students with grades in all other subjects average grades of the college.

Miss Bessire, who is the daughter of Rev and Mrs. Bessire of Canyon, is a senior in W. T. S. T. C. and Miss Jameson, daughter of Mr. and Mrs. J. M. Jameson, 10 miles north of Canyon, is a junior.

L. H. Rhodes, '26, principal of the high school at Dalhart, was recently elected president of an association of ex-students of W. T. and Tech, the purpose of the group being to work together on problems of mutual interest. There were about thirty people present at the meeting which resulted in the organization. Dr. R. P. Jarrett was a speaker.

A hard thing about making money last is making money first.

MRS. WARWICK HOSTESS AT LUNCHEON AND TEA

Honoring Mrs. A. B. Martin and Mrs. Clint C. Small of Amarillo, Mrs. Clyde W. Warwick was hostess Tuesday at luncheon and tea at her home at 1110 Sixth Avenue. Orchid, pink and green were the chosen colors for the occasion, developed in bouquets of carnations, roses and sweet peas.

At the noon luncheon were seated Mrs. Martin and Mrs. Small, Mrs. Lee Bivins of Amarillo, Mrs. J. L. Smith of Amarillo, Mrs. Seth B. Holman of Amarillo, Mrs. J. B. Winkelman of Amarillo, Mrs. J. A. Hill, Mrs. C. R. Burrow, Mrs. John S. Humphreys of Canyon, and the hostess.

At the 3:00 o'clock tea, Miss Mary Helen Hardin of Childress sang a group of songs accompanied by Miss Pauline Brigham. Two of the selections were compositions by Miss Brigham. In addition to the house guests at the luncheon those present for the tea were: Mrs. J. Virgil Moore, Mrs. Hortense Woodburn, Mrs. D. A. Park and Mrs. Sadie Cunningham of Amarillo; Mrs. S. L. Ingham, Mrs. Joe Gamble, Mrs. R. P. Jarrett, Mrs. Wallace R. Clark, Mrs. D. A. Shirley, Mrs. R. A. Terrill, Miss Brigham, Miss Helen Hardin, Mrs. C. N. Harrison, Mrs. W. C. Black, Mrs. Irby Carruth, Mrs. Lee Foster, Mrs. R. A. Neblett, Mrs. Dan F. Sanders, Mrs. Travis Shaw, Mrs. Millard Word, Mrs. H. W. Hartman.

KUNZE HOUSE GIRLS ARE ENTERTAINED

Dean Geraldine Green entertained the girls of Kunze House Wednesday afternoon with a delightful get acquainted tea from 4 to 5 in her offices in the administration building.

The hour was spent in discussing the affairs of the college with special reference to the interests of the women students. A tasty refreshment course was served, with Miss Rosalie Leslie assisting.

Those present included: Marie Roberts, Charlie Mae Carpenter, Idell Porter, Annie Alice Laycock, Edna Baird, Elva Vineyard and Mrs. W. C. Kunze.

POPULAR W. T. EX-STUDENT IS WED

Announcement of the marriage Christmas Day, December 24, of Miss Birdie Lee Gaither, Childress, Texas, and Wayland Weatherred, Kirkland Texas, is of much interest to W. T. students. Mr. Weatherred has attended the summer session of this college for the last two years. He is now teaching at Hopkins, a consolidated school district near Pampa. The newlyweds will make their home there during the remainder of the school year.

LITERARY SOCIETIES MEET THURSDAY EVE

Four student literary organizations, the Antler, Elaphean, Cousins and Sesame Societies, entertained with a joint social in the girls' gymnasium Thursday evening.

Dancing and games furnished diversion for the evening. Punch and cakes were served at the refreshment hour.

Faculty members present were: Miss Militia Hill, Miss Anna I. Hibbets, and Professors L. F. Sheffy and C. A. Murray.

SHAMROCK COUPLE HEAR WEDDING BELLS

Miss Edna Garrett and Orville Smith, both of Shamrock, were married December 10, 1932, news of the ceremony only recently being circulated on the Campus.

Mrs. Smith enrolled here in 1931, attending W. T. continuously thru the Summer term, 1932.

They will make their home in Shamrock.

MRS. REEVES, MISS LESLIE ENTERTAIN

Mrs. T. V. Reeves and Miss Rosalie Leslie entertained members of the faculty with an informal social hour in the parlor of the Dean of Women's offices Friday afternoon from 4 to 5 o'clock. Tasty refreshments of dough nuts, candies and salted nuts were served with coffee or tea.

FOR EVER WIND

By G. Wayne Griffiths
(The following verses were voted the best contribution to the Writers' Club at its last meeting).
Of all long furrows
That I have coiled
I find no end
To any of these.

Wind that blows
Until treeless hills are dulled
At the horizon's blue bar,

That wish for death
While love's fond embrace
Defers the quiet snow.

Verve in searching through
All imagined things
Gathering white fire
For future memories.

ILLUSION:

This very old illusion was invented by Indian fakirs. The secret was unearthed in 1849 by the great magician, Robert-Houdin. At that time, ether had just been discovered, and little was known about it. Houdin claimed that he had discovered that this new anesthetic could make people light as air. To prove it, he caused the subject to rise into the air and float apparently suspended. He passed a hoop around the body to show there were no wires or supports.

EXPLANATION:

There are many, many explanations for this old trick. One is that the girl wears a concealed harness, which ends in a socket between her shoulder blades. This is attached to a piston below the stage. The piston is pushed up from below, causing her to rise in the air. The piston is invisible, because it is covered with mirrors which reflect surrounding draperies, similar to the background. The magician can pass the hoop over her body because it is cut in one place. It can be pulled apart for a second when it passes the piston.

SOURCE: "Modern Magic" by Professor Hoffmann. George Routledge & Sons.

**NO TRICKS
..JUST COSTLIER
TOBACCOS**
IN A MATCHLESS BLEND

It's fun to be fooled — ...it's more fun to KNOW

Another "magic show" is cigarette advertising.

One of its greatest tricks is the illusion that cigarettes can be made miraculously "MILD" through manufacturing methods.

THE EXPLANATION: All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are heat treated—some more intensively than others, because raw, inferior tobaccos require

more intensive treatment than choice, ripe tobaccos.

The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

This is why Camels are so mild. This is why Camels have given more pleasure to more people than any other cigarette ever made. It's the secret of Camels' rich "bouquet" ...their cool flavor...their non-irritating mildness.

All the natural, ripe goodness of Camel's tobacco is kept fresh for you by the famous air-tight, welded Humidor Pack. Don't remove it.

CAMELS

MRS. GREEN TALKS PEN WOMEN'S CLUB AT HERRING HOTEL

Tuesday afternoon, January 17, Mrs. Geraldine Green addressed the Panhandle Pen Women's Club, at the Herring Hotel in Amarillo, in which she answered questions raised by the Legislative report on efficiency and organization.

Mrs. Green answered such question as: That the West Texas State Teachers College is not growing, that the graduates of Teachers Colleges do not teach, that the West Texas State Teachers College is making no effort toward economy, and that higher education is too great a burden on the Texas taxpayer.

Mrs. Green also suggested three ways that would help W. T. S. T. C. in this crisis.

First, write state senators and state representatives, expressing views on the proposed change in the West Texas State Teachers College, or upon the proposed reorganization of higher education in Texas. Second, write newspapers your views on the subject. And third, to help those who are not informed to realize the commercial and cultural value of colleges to the region in which they are located, and help them to learn how little is spent for education in Texas in comparison with other states and with expenditures which are not essential.

PI OMEGAS MET WITH DOROTHY CASH

The Pi Omegas met at the home of Dorothy Cash, Tuesday night, Jan. 17.

After a short business meeting, delicious refreshments were served by the hostess.

It is reported in The Traveler, University of Arkansas, that the day after Roosevelt won the presidency, one of the Arkansas chemistry classes started studying a chapter on "distillery."

A GIRL SPEAKING

Fancying myself a very unemotional person, I received quite a kick (please pardon my language of the street) from studying the reactions of a crowd drunk with a form of insanity always reigning during a game of sports.

Here is my impression: a sea of open mouths emitting various vocal sounds; a wild melee of clapping hands; children screaming in shrill tones of delight or, maybe, fright, and clambering in and out of parents laps to fall into aisles and beneath seats; crunching of popcorn and peanuts with the raucous voices of the vender ever in the background, profiting by the momentary insanity; a band blaring forth sounds that frequently emerge above the general confusion to make their presence felt as a breath of fresh air might in Hades; a pep squad leader going through the antics of a South Sea islander; and, through it all, the lazy and musty odor of perspiration oozing up from the flashing bodies of the players . . . a glorious spectacle, dear people, a glorious spectacle!

Thinking how Guy Richards reminds me of a slinking-crouching animal . . . muscles relaxed, yet tense . . . waiting for a weakness in his prey to reveal itself.

And Farris Sears always reminds me of ruffles, laces, scents of old lavender, and romantic scenes in a rock-walled garden of roses on June nights. . . .

Also wondering how you liked (if you were fortunate enough to see it) Earl Carroll's "Vanities"? A gorgeous display of scenery and semi-nude girls. . . . A paradise for sex-starved, middle-aged males whose wives fail to understand their too-intellectual minds. . . . Yes?

A one-sentence-summary of that sanctified, self-satisfied, too-good friend of yours whom you tolerate much as you do the condemnatory whisperings of your conscience: "There is nothing so cruel as a good person—they are so self-righteous." I am always involuntarily put on the defense when in the presence of people who believe themselves saints on earth. Heavens! Give me a human being, one whose mind has experienced all the emotions! Personally, I want to live, hate, love, marry, have children, and, last of all, go forward to my rendezvous with Death with a twinkle in my eye . . . hoping against hope that the dropping of the mortal veil will reveal more than just . . . sleep.

Pampa Elementary School Band Wins Applause Of Hardened Chapel-Goers

Last Saturday's assembly program proved to be one of real entertainment, when the Pampa "Kid Band," from the Woodrow Wilson Elementary School, under the direction of Winston Savage, W. T. ex, presented a thirty minute program of music and dancing.

The petite musicians, none of them over eleven years of age, were dressed in white uniforms and had a stage presence which would have done credit to a professional organization.

The vocal duets by the Harmony Twins were acclaimed with loud applause by the student body and were brought back several times for encores. These two miniature Boswell sisters, were Alma Faye Oliver and Jeanne Lively.

Another part of the program outstanding because of the mature finish with which it was executed was an adagio dance given by two of the smallest children in the organization, Neva Lou Woodhouse and Frankie Lou King.

The musical selections consisted of "The Eyes of Texas" the Pampa High School Song, and a group of popular tunes.

The finishing touches were added when the band played W. T.'s own Alma Mater. On the last chorus, Betty Jane Cree, a seven year old girl dressed in maroon and white, came forward and sang in a clear, confident voice the closing stanza of the song.

Members of the band were as follows: Betty Jean Tiemann, Betaty Jo Anderson, Keith Records, George Davis, James Evans, Buddy Wilson, Janet McMillan, Alma Faye Oliver, Jeanne Lively, and Eula Marie Taylor. Miss Lois Stallings, and Miss Jimma Searcy, teachers in the Woodrow Wilson school, accompanied the band.

Other citizens of Pampa who came for the program were Miss

Annie Daniels, principal of the Woodrow Wilson school, Mrs. T. B. Townsend, Mrs. C. G. Cree and son, and Mr. and Mrs. Windsor.

Savage has been teaching in the Woodrow Wilson school since last September and has made outstanding progress in developing a music program in the school. He is the son of Professor F. E. Savage, and has lived in Canyon for twelve years. He did his undergraduate work in W. T. and in the University of Texas.

In the last eight years the total circulation of the Loyola university library has increased by nearly 600 per cent.

WEST TEXAS SPORTS

GLENN BOBBITT,
Assistant EditorGAMES WITH TECH INCREASE
BUFF TOTAL BY TWO IN FEUDFortenberry Leads
Team to Victories
Over Ancient RivalMatadors Smothered By
Huge Scores, 66-30
And 42-17

Despite the flashy passing technique and vicious defensive displayed by the Texas Tech Matadors last week when they invaded Canyon territory, the Lubbock quintet was forced to bow two nights in succession to Coach "Sad Sam" Burton's towering hardwood artists.

On Friday night the Buffaloes outclassed the Matadors with a score of 66 to 30.

Saturday night's score was considerably below the mark set the previous evening. The Buffaloes having become aware of their superior strength Friday were less anxious to run up a high score in the second tilt of the series. The score was 42 to 17.

Fortenberry and Burk High

The second contest proved to be a much better game than did the Friday night affray. Otis Burk, who seemed to be considerably "off," came back in the second game to take honors as high point man. George Ray Colvin recuperated to make a box score of 8 points against Burk's 10 points.

Fortenberry fell below his first night's performance considerably. After making 19 points Friday night he was put on the "spot" by two of Tech's best guards, and as a result was seldom able to get in a scoring position.

The number of fouls were cut into half during the second engagement. This was due largely to the fact that the Buffs struck a defensive attitude and avoided the "hot spots" where fouling comes so easily.

There were 23 personal fouls Saturday evening as against 41 similar infractions Friday.

Prepare for Henrys

The Buffaloes got some valuable practice in defensive technique in the second game. Coach Burton realizes that they will need every art of defense at command when the Wichita Henrys, the National Amateur Champions, come to Canyon this week.

In the Friday night game the contest began with the Buffs hopping to a four-point lead. Tech then scored three to lag but one point in the first two minutes. From then on out the Matadors were helpless to do anything about the rising score of the Canyonites. The half ended 29 to 12.

Many Subs Used

The second half was played pretty largely by substitute players. The outstanding playing in this period was done by Guy Richards, substitute guard. Eleven Buffaloes were given a chance to play in the game, and ten of them added points to the winning score.

Friday's box score:			
West Texas	G	F	TP
Comer, f	5	0	10
Morris, sf	1	0	2
Monroe, sf	0	2	2
Colvin, f	3	1	7

Senior Play is Chosen

"Ellen's Elopement," a comedy in three acts, by Marie Josephine Warren, is the play chosen by the High School graduating class this year for its annual production. Linnette Cain, Louise Shirley, Mattie Pearl Whittenberg, Dan Aynesworth, J. C. Baker, Audell Kimmins and Bill Moore make up the cast. Miss Eulalia Burrus, a senior, is to direct the play as a unit of practice teaching in public speaking.

Home Ec Girls Entertain

The Home Economics dining room was the scene of a hilarious party Monday evening, when the high school Home Economics club entertained the high school girls. The evening was spent in playing games. Hazel Kirby and Linnette Cain won a contest and received tiny address books as prizes. Margaret Seay beat Louise Shirley eating an apple, impossible as it may sound. Refreshments of sandwiches and punch were served to 35 girls and the Home Economics practice teachers. Miss Cleo Holmes, teacher of High School Class, sponsored the party.

Senior Rings Ready

The seniors are now eligible to order their rings and Mr. Johnson at the College Book Store, is ready to take the orders. The rings will be of the same design as that used by last year's graduates.

B. Garrett is confined to his home with chickenpox.

Recreation Reading Corner Meets Student Need.

One corner of the Freshman English room has been converted into a very attractive reading nook. Comfortable upholstered chairs, pillows, pot plants, books in attractive book ends, and a magazine stand, pictures, and a reading table and a reference desk invite one to relax and read at one's spare moments. The reading corner, which was furnished and arranged by students from the four grades in high school, is being used frequently by students in all the classes. Every day new additions to the recreational reading materials are provided by the students from their personal libraries and by the teachers and practice teachers. Hazel Kirby is the student chairman in charge of the project.

More Students

W. T. Hi's enrollment was increased last week by eleven more new students, including Leonard Impola, Wandell Johnson, Malcolm Bull, Jake Witherspoon, Wade Johnson, Johnnie Wilson, Harold Gill and Pat McCormick from the Canyon High School; J. T. Gillham from Palo Duro, and Johnnie Price, from Amarillo.

Honor Roll, Fall Quarter

Dan Aynesworth, J. C. Baker, Mary Neal Bandy, Esther Lou Bandy, Alberta Barnett, Thirza Bourland, Sam D. Burton, Ellen Lois Cleavinger, Louise Cleland, Leo Dufflot, Rosemary Hanover, Hazel Kirby, Margarethe Meyer, Virginia Murray, Odell Reynolds, Don Savage, Louise Shirley, Mattie Pearl Whittenburg.

A recent communication tells of the marriage of Miss Vera Askew and Mr. Lester Etter of O'Donnell. The wedding took place December 23 and on Christmas day the happy couple were guests in the home of Miss Mabel Harris, '23. They will live at O'Donnell.

Mrs. Etter graduated from W. T. high school in 1928 and had completed sophomore work in the College.

Third Graders Do Language Project

A play, "What the New Year Brings," was presented by the children of the third grade in their room Saturday morning, to an appreciative audience made up of kindergarten children and members of the class in Education 212.

The play was developed by the children as a unit of work in language, after members of the class had read the story in their readers and noted its possibilities for dramatization.

Father Time, in gray robe and with flowing white hair and beard, was the principal character in the performance. He was ably supported by twelve other third graders representing the months of the year.

Rufus Dodgen, '32, was a campus visitor over the week-end. He is spending the winter at his home in Groom.

Ripping 'o Pants
Gives Spectators
Chuckle 'o Mirth

The Buffalo-Matador basketball tilt in Buffalo Gym here last Friday night threatened to become a game "for men only" when the combatants on both sides playfully engaged in the innocent pastime of "Pants-ripping" or "Ripping 'o Pants," the title depending entirely upon the point of view.

Naught came to harm, however, and the game ended in ripping fashion and the players still as scantily clad as ever—but no scantier.

W. T. TEN YEARS AGO

The Buffaloes defeated the quintet of Clarendon College last night to the tune of 51 to 47. In defeating Clarendon College the Buffaloes boost their percentage from 250 to 500.

The Buffaloes lost two games to Simmons University last week, and split games with Abilene Christian College when they invaded the Abilene territory.

Grady Burson, star half-back on the 1921 team, was recently elected captain of the 1922 squad.

The College Infirmary is just about completed, and according to Mrs. Marr, college nurse, will be open for business in about two weeks.

Not all W. T. students know that Grady Hazlewood, who, on January 1, took oath as District Attorney for this judicial district is a graduate of W. T. He was a

Buffaloes Play
Air Men of San
Antonio, Feb. 11

A feature attraction of the Buffs home schedule in basketball this season is the game with Randolph flying field from San Antonio. On the air men's squad, are such notables as Stecker and Ables of West Point; Stecker is probably better known for his football achievements, however he and Ables were both high ranking men of America in basketball. Arthurs, one of the best men ever turned out of Nebraska; Gibson, a star of old Perdue, and Gowan of Marquette, will probably be the starters when Uncle Sam's flying squadron swoops down on the West Texas Buffaloes on Feb. 11.

The team will fly up from San Antonio, and after putting on some Army flying formations over Canyon, they will proceed to Amarillo where they will land; making the trip from Amarillo to Canyon by bus for the game which will be played at eight o'clock Saturday night, Feb. 11.

"This is the biggest attraction we have ever booked at Canyon," said the Buff mentor. "Our fans want the best and we certainly have booked it this time," continued (Sad) Sam.

member of the class of 1923, as was also Mrs. Hazlewood (formerly Andrine Smith). Mr. Hazlewood took his law degree from the University of Texas and has been one of Amarillo's most successful young lawyers. Before his election as District Attorney he served as Assistant District Attorney.

Freshmen Fail In
Garnering Points
Against Sandies

Mitchell Jones' freshman squad of basketball players played an exceedingly good brand of defensive basketball last Friday night against Amarillo's Golden Sandstorm five, coached by Davis Hill, ex-Buffalo star, but ended the game on the short end of a 39-20 score.

A total of 23 players were used by the two coaches, Jones in hopes of finding a scoring combination, and Hill in trying out an abundance of applicants for starting positions. The Sandies will be "one of the teams to beat" when high school teams from over the Panhandle gather here for the High School meet next month.

Dunaway, Sandie guard, was high point man with nine, McElroy, freshman center, was high for the Jonesmen with six.

Budget

(Continued from page one)
islatre, but may be changed to any extent by the legislature in finally passing the appropriations bill. It is likely that the appropriations will not be finally considered by the legislature until late in the session, or about the first of May.

STUDENT CRUISES

Magazine subscription scholarship workers and crew managers write immediately for very best student scholarship offers of leading publishers. Can be worked there now. Permanent positions if experienced, also summer crews for U. S. and foreign territory. For full details write—The Collegiate Scholarship Institute, 219 Republic Building, Miami, Fla.

You smoke a Pipe—

and we'd like
to talk with you
about it

All races of people since the beginning of time, so far as we have been able to read, have had some kind of a pipe and have smoked something—whether they called it tobacco or what not.

AND since smoking a pipe is so different from smoking a cigar or cigarette, we made a most painstaking, scientific study in an effort to make, if we could, a tobacco which was suited to pipes.

We found out, first, that there was a kind of tobacco that grew in the Blue Grass section of Kentucky called White Burley, and that there was a certain kind of this tobacco which was between the tobacco used for cigarettes and the tobacco used for chewing tobacco. It is this tobacco which is best for pipes.

We found out that Mr. J. N. Wellman, many years ago, made a pipe tobacco which was very popular. But it was never advertised and after he passed away nothing more was heard about it. We acquired this Wellman Method and that is what we use in making Granger.

TEN CENTS

The Granger pouch
keeps the tobacco fresh

Next was the cut. We knew that fine tobacco burnt hot because it burnt so fast. You could hardly hold your pipe in your hand, it got so hot at times. So remembering how folks used to "whittle" their tobacco we cut GRANGER just like "whittle" tobacco—"Rough Cut." It smokes cooler, lasts longer and never gums the pipe.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco

—right process—cut right. So we put Granger in a sensible soft foil pouch instead of an expensive package, knowing that a man can't smoke the package.

GRANGER has not been on sale very long, but it has become a popular smoke. And we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.
