## Senate Action Is For Purchase Of Property

### Research Expert To Be Lecturer

IRC Will Sponsor  
Panama University  
Professor's Talk

By EARL WALKER

Dr. Werner A. Bohnstedt, professor of political economy and sociology at the National University of the Republic of Panama, will come to Canyon on March 4 for a lecture sponsored by the International Relations Club of W. T.

Dr. Bohnstedt was a resident of Germany until 1936 and is a graduate of the University of Kiel there. For the past ten years he has devoted most of his time to research work in the field of social problems of industrial society. Prior to 1933, he acted as adviser in the German Labor Unions and on different committees on workers' housing conditions.

As assistant and later as chief editor of the only European sociological weekly magazine, the "Soziale Praxis," and as secretary and later General Secretary of the German branch of the International Association for Social Progress, Dr. Bohnstedt acquired a vast knowledge of modern social and economic problems and the possibilities of their solution.

To Speak at IRC Convention

At the request of the Research Department of the Universal Christian Council for Life and Work he collaborated for several years in the scientific preparation of the International Conference on Church, Community and State, which met in Oxford in 1938.

Dr. Bohnstedt, director of the Institute of Social and Economic Research at Panama U., has been in Panama since 1936, and has concentrated on research concerning social and economic conditions in the Central American countries. He will come to Canyon from Albuquerque, New Mexico, where he will be the principal speaker for the Southwestern International Relations Conference.

Club to Select Delegates

The local chapter of the I. R. C. will select delegates for the convention at their next meeting, which will probably be February 6. Approximately ten representatives will be chosen. Three of the delegates from W. T. will prepare papers and read them at the convention.

About 15 member colleges and universities of Western Texas and most of New Mexico will be represented at the convention. Among the members are West Texas State, Texas Tech, Texas School of Mines, Sul Ross, McMurry College, Amarillo Junior College and Wayland Junior College.

The conference will be invited to meet at W. T. in 1941, according to Prof. S. H. Condron, sponsor of I. R. C. here.

### Journalism Courses Added To Schedule

Addition of two journalism courses to the spring semester schedule is shown in the program just released by the Registrar.

Journalism 211—News Photography, will be repeated by request of home economic students and others, including agriculture students, who will have to illustrate reports later in their work. This will be a one-hour course, meeting at 10 a. m. each Friday in Room 314, with laboratory periods to be arranged. Sophomore standing is prerequisite.

Journalism 302—Radio News Writing, will be a new course offered at 2:30 p. m. each Wednesday in Room 203. Junior standing is prerequisite. The College weekly newscasts over KGNC will provide one phase of the laboratory work.

Journalism 242—Copyreading, will meet at 1:30 p. m., TTS, in Room 203. The radio course will be patterned after work done by Olin E. Hinkle, director of journalism at the University of Missouri and at Radio Station KFRU in Columbia last summer.

CLUB TO SPONSOR PLAY

On March 6, Alpha Sigma Xi, men's social club will sponsor a play given as a lecture number in the auditorium of the Administration building. The play has not definitely been decided upon, but it is to be one of the following: "The Ivory Door," "The Imaginary Invalid," or "Our Town."

The cast for the play is to be chosen from try-outs held from February 1 to 4. Dr. Baxter Geeting is urging students interested to see him soon.

### Final Examinations In 'Practical' Home Economics

Here is a new "pass the biscuits" technique just perfected at W. T. by co-eds of the Home Economic department. In the picture showing this foods experiment are Lother Stephenson, Anton; La Nelle Sims, Post; Captain Ernest Schur of the Buffalo cagers, Vernon; Helen Eoff, of Shamrock; and Charles Halbert, House, N. M. The "tallest of the tall" didn't leave a crum—and that's proof of the pudding!

### Short Time Until

### NOMINEES WILL SEEK 'PERSONALITY QUEEN' TITLE

Election Wednesday

Selection of one of the ten girls will be made tomorrow in a special election for the "Personality Queen" title. Polls will be open from 8 a. m. to 5:30 p. m. in the hall on the first floor of the Administration building.

The ten petitions carried the following names:

Annette White  
Myrtice Kinard  
Margaret Esther Hill  
Marion Miller  
Dorothy Grigsby  
La Nelle Scheihagen  
Marcelle Reid  
Dorothy Picture  
Maxine and Maurine Hoyle  
Gaynelle Douglas

The election date was originally scheduled for Thursday, but the Student Senate moved the day because of final examinations on Thursday.

Prominent mention will be given to the winner in 1940 Le Mirage, College yearbook. Gaynelle Douglas was the recipient of the title last year.

### Body Mechanics Is New P. E. Course

Body mechanics is to be added by the women's physical education department as physical education 302, a three-hour credit course, next semester. This course will not be found on the regular class schedule in the Registrar's office.

It is being offered for the convenience of physical education majors, and is open to both men and women. Prerequisites are junior standing and six semester hours in physical education. This class will meet at 8 o'clock on Tuesday, Thursday and Saturday.

Only two activity courses will be discontinued at the end of this semester. They are P. E. 151—tumbling, and P. E. 142—golf. The other courses will be a continuation of this semester's work. Because of the great demand, P. E. 131—tennis, will replace the discontinued courses. For several years, more girls have taken tennis than any other sport. Students enrolling for this course will be required to furnish racquets and balls. No duplications are allowed in tennis or swimming.

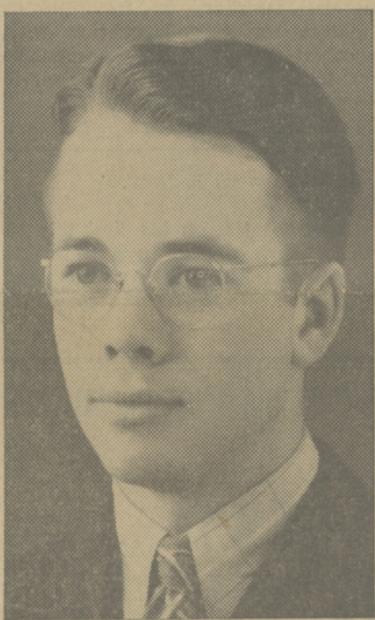

### Mathematics Course Will Be Scheduled

Mathematics department has announced a section in math 121 is being scheduled at 11:00 MWF. The course is being offered now to accommodate new students and others who failed to get it during the Fall semester.

Mathematics 420, Methods of Teaching Mathematics in High School, a course not listed on the printed schedule, will meet at 11:00 MWF. A room for the class will be designated later.

Students, who are ready for calculus and would like to begin the course at this time, should file their requests at the Mathematics office. An effort will be made to give the course if there is sufficient demand.

Story of Finland and her people is shown in a March of Time film at the Olympic Saturday Midnight, Sunday and Monday. The film depicts the rise of the little 21-year-old republic and the courageous Finns' desperate fight

STEPHEN MILNER

### Steve Milner Is Subject of Student Honor

Sparkling teeth that light up a ready smile, contrasting a like for lemons—sometimes a dozen a week—are possessed by Stephen Milner, the "Student of the Week."

"Steve," as he is called, is a senior. He came to W. T. in 1937 from Hedley, a graduate of the high school there. His mother and father are living in Canyon.

A pre-law major, he is vice-president of the Students' Association, third vice-president of the Baptist Student Union. Although he is a member of the YMCA, IRC, Men's Chorus, and the tennis team, his work as an assistant in the government department takes much of his time.

Milner will speak at the annual Southwestern International Relations Club Conference at Albuquerque, March 1. He is especially interested in international relations' subjects.

Tennis and basketball are favorites for after hours, and he plays on the intramural basketball team with the Termites. After graduation he plans to enter law school at Baylor or the University of Texas or perhaps to work on a master's degree here at West Texas.

### New Art Course To Be Given

Advanced Costume Design, Art 322, is to be offered during the spring semester at 2:30 p. m., MWF, Miss Isabel Robinson, head of the department, has announced.

Advanced problems in styling, such as: Color scheme, importance of details, decoration, textures, draperies, personal grooming, and budgeting will be studied. Fashion illustration and rendering for commercial reproduction will be part of the course which carries Art 231 or an equivalent as a prerequisite.

### Room In Museum Is Made Larger

A startling illusion of added area has been achieved in the basement annex of the Panhandle-Plains Historical Society museum.

Recently the natural habitat diorama cases were moved to the western portion of the basement to form a line of expansive natural periodical history, and a series of five oil paintings, done by Gustaf T. Sundstrom, former preparator at the Museum, were hung on the east wall.

A room which was naturally large was broadened in effect by the depths of background in Mr. Sundstrom's works. The pictures add "distance" to the walls and carry the eye up the rugged slopes of the painted landscapes.

The five pictures include new species of animals and are the only pictures of their kind hung in a museum. Two portrayals of the cat family, the Felis campestris and the Felis margariti, named for Mrs. Johnston by her husband, the late C. Stuart Johnston; a specimen of the saber tooth tiger family, Ischyrosmilus saevius; the Calippus regulus, a three-toed horse whose name means "Little King"; and a picture of the antelope groups, the Tetrameryx onusosogriss and the Capromeryx studeri, named for Floyd V. Studer, friend and promoter of the Museum, have been hung.

### Aggie Class Visits An Amarillo Plant

The poultry class of the Agriculture department, under the direction of Frank R. Phillips, department head, visited the Swift and Company plant in Amarillo Wednesday afternoon.

Mr. Phillips, assisted by Kenneth Black, directed the class through departments where they saw chicks feeding with "battery feeders," chickens being killed commercially, the storage of frozen chickens, and eggs being candled commercially. They also visited the sausage-making department and the smoke house.

"This is one of the many methods used by the agriculture department in making its laboratory work practical," said Prof. Phillips.

GUESTS AT RANDALL

Special guests for a formal dinner Tuesday evening at Randall Hall were Miss Anna Hibbets, Frances Usery Marjorie Reeve, Houston Bright, Bud Scruggs, Ralph Owen, Borden Price, Lathan Jackson, and W. J. Harris.

PAPER IS PUBLISHED

A paper on the new species of the Osteoborus hillii, written by the late C. Stuart Johnston, former head of the paleontological department at West Texas State, was published in the December issue of the American Journal of Science.

The dog-like animal described in the paper was found in Palo Duro Canyon, and was named for Dr. J. A. Hill because of his interest in the field of paleontology.

## Twelve Compete For No. 1 Honor

Twelve girls from four classes were selected as West Texas Beauties Thursday when freshmen, sophomore, juniors, and seniors assembled for the Student Senate authorized election.

From this group, one girl will be selected as the No. 1 Beauty, and will have a prominent place in 1940 Le Mirage, College yearbook. As previously announced, Gene Howe, Amarillo publisher, will judge and select two girls from pictures of the group for special prominence.

Senior beauties are: Ferne Fry of Lockney, Mary Helen Stalls of White Deer, and Ann Pallmeyer of Memphis.

Mary Collins of Canyon, Ernestine Ballard of Amarillo, Eula Fay Foster of McLean were the junior class' selections.

Sophomores elected were Jerry Daniels of Spearman, Mary Walton of Pampa, and Irene Hunt of Wheeler.

Muriel Faye Phegley of Lockney, Elaine Murphy of Pampa, and Ann Shelbourne of West Point were beauties named by the freshman class.

Mary Collins and Mary Helen Stalls top the repeater list, both having recorded two years previously as W. T. beauties. Ann Pallmeyer and Mary Walton were also listed as beauties last year.

### Scholarship Trophy For Athletes Will Be Given By Curtice

Two beautiful scholarship trophies for athletes who letter in football have been announced by Head Coach Jack C. Curtice.

Coach Curtice will give a trophy for the varsity football letterman making the highest scholastic record in any nine month session. The recipient must have passed in 12 semester hours of work in each semester of the term.

Dr. J. A. Hill will give a similar trophy to the freshman gridder making a numeral and meeting the same scholastic attainments. The awards will be made at the beginning of each fall session.

Coach Curtice's trophy, already on display, shows a football player carrying the ball. It is a gold figure, complete even to cleats on the shoes, upon an ivory base. Mr. Curtice believes that the awards will help to impress upon the athletes the importance of scholarship in their college careers.

### Alpha Chi Activity For Year Reviewed

Alpha Chi, national scholarship society, opened activities of the year with the promotion of the following students from Junior membership to Senior membership: Margaret Dixon, Margaret Garner, Mary Nell Jennings, Gerald Manzer, Lucille Morris, Marjorie Reeve, La Nelle Scheihagen, Edyth Shearer, Clarence Whitten, and Ulane Zeek.

Initiation into Alpha Chi is a semi-annual event. The new Junior membership includes: Mildred Bennett, Hollis Bledsoe, Margaret Britten, Edmund Burgess, Doris Davis, Al Ketchersid, Ruth Reeve, Mary Lou Robertson, Mogie Routh, Mildred Shuman, Lena Snitker, Opal Snitker, and Mary Stringfellow.

The Senior membership includes: Neville Bremer, Carolyn Greenway, Bryan Morgan, Allen Patman, Francis Phillips, and Allen Stecker, and graduate memberships includes: Wayne Christian, Ardis Patman, and Roach Allen. Sponsors for the year are Miss Isabel Robinson and Olin E. Hinkle.

Plans for the remaining year include an entertainment for all honor roll students to be given about the second week in February.

The pie selling project, sponsored by the Alpha Chi, will continue until the meeting of the Southwestern Conference at Southwestern University, Georgetown, Texas, some time in March or April.

Two lectures are scheduled for presentation during the new semester. One is a lecture on "Archaeology" by Floyd V. Studer of Amarillo, and the other a lecture on "The Publication of Poetry" by Luella Grace Erdman.

Alpha Chi shingles will be presented to the new members in the latter part of February.

The events of the year will be climaxed by the annual picnic to be held some time in May.

### Beauty Standards

MARY HELEN STALLS

MARY COLLINS

Three successive years selected as W. T. beauties mark the record of Mary Helen Stalls and Mary Collins as unprecedented. Both have other records to add. Miss Collins, a junior from Canyon, was Freshman Sweetheart in 1938, and Miss Stalls was a high contender for the No. 1 title last year. She is from White Deer, and is a senior. Both are members of Delta Zeta Chi sorority.

### Ten Students Have Parts In Music Recital Wednesday

Before an audience of private music students, several students performed in the third and last recital for the semester at 4:30 Wednesday afternoon in the auditorium of the Administration building.

Piano solos and recitalists were: "Sonata, Opus 2, Number 1, First Movement," Beethoven, played by Cleo Bourland; "Solfeggietto," C. P. E. Bach, by Lynn Paul; "Open Thy Blue Eyes," by Massenet and arranged by Rogers, played by Mary Helen Lindsey; "Number 1 in A Major of Two Fancies," Cecil Burchleigh, played by Elvia Speer; "Scenes from an Imaginary Ballet, Number 1," S. Coleridge Taylor, by Ann Shelbourne; "Polish Dance," Scharwenka, by Geraldine Hart; and "Tango," Niemann, played by Lela Louder.

Geraldine Warner sang "None But the Lonely Heart" by Tschalkowski, and Loretta Cole sang Neidlinger's "On the Shore." "The Rhine, The River of Story" by Robert Franz was sung by Lora Mack Hawkins.

There was one violin solo on the program, and it was played by Jean Tarleton. It was "Rondino" by Beethoven, arranged by Chrysler.

### Salon Pictures To Be Selected On February 15-29

Many entries are in prospect for the Second Annual Panhandle-Plains Salon of Photography Contest here February 15 to 29.

The aim of the Panhandle-Plains Salon is to encourage advanced amateur photography and to exhibit the best photographic art produced in this section of the state. All work submitted will be carefully considered by a competent staff of judges.

Last day for receiving entries for the contest will be February 11. Rules of entry have been set by the judges and are listed as follows:

Rules of Entry

1. No more than four prints may be submitted by any one individual.

2. Prints may be made in any photographic medium, but hand-colored prints, and photographic copies will not be considered.

3. Prints must be submitted on standard 16-20 inch mounts and white or light-toned mounts are preferred.

4. No entry fee will be charged, but exhibitors must pay transportation charges both ways.

(Continued on page 2)

### Union Discussion On Campus Wave

Hill Suggests Time  
For Student Thought  
Should Be Assured

Bringing the student union building into campus "sewing circles" as the No. 1 topic was effected by several important happenings last week, one of which was the passing of a resolution by the Student Senate to buy the Conner property.

After the special meeting Friday, the resolution was presented to Dr. J. A. Hill by Ulane Zeek, Association president. President Hill immediately suggested that the plan be given plenty of time for student consideration.

The Senate recommended that a plan to buy the Conner property, which has been under consideration for several weeks, be presented to the student assembly Saturday, and that a ballot poll be held on Wednesday. The resolution was to the College president and provided that the property be purchased with money from a fifty-cent addition to the student fee.

No Poll This Week

An election will not be held this week, Miss Zeek indicated last night. The constitution provides that the announcement of a student election shall be presented in The Prairie three days before any student election. There is discussion as to the application here.

At the regular meeting of the Senate on Thursday, the group conferred with President Hill on necessary arrangements for an addition of \$2.50 to the student fee, which would be used to build a student union building and library.

Board Would Agree

The College president might add \$1 to the book fund for support of this combination plan. Dr. Hill also explained the consent of the Board of Regents of the College would be needed. He indicated that according to precedent, the Board would probably agree.

At the special Senate meeting Friday, Miss Zeek explained that immediate action is necessary on the Conner property, because the owner is willing to sell for \$6500 if the decision comes in time for the owner to accept other plans. The deadline has been set at February 1.

Students May Visit Senate

"Students who are interested in the union will be welcomed at the Student Senate meeting to discuss the plans," Stephen Milner, chairman of the Senate said Sunday night.

The Association president suggested that alternative plans might be offered to the student body for selection.

The property which the Senate resolution considered is a two-story, white frame, facing the south entrance of the Administration building on a 100 feet by 150 feet lot. It is off the immediate campus, but occupies the place on which the student building in the Ten-Year Plan would be built.

### Buffalo Band Plays For Weekly Program Over Station KGNC

Featuring Buffalo Band, the West Texas State regular weekly radio program was given over KGNC, Amarillo, from 8 to 8:30 p. m. last night.

Directed by Prof. C. E. Strain, the band played "Fort Popham March," Hall; "Cheerio," Goldman; and "March Dunlap Commandery," Hall. George Stokes and Bob McKenzie acted as co-masters of ceremonies, with McKenzie playing the part of Buffy Westex. The radio players gave an adapted skit. Hollis Bledsoe read the newscast.

Brynild Vaughan interviewed Stephen Milner, the third "Student of the Week."

GEETING GIVES REPORT

Dr. Baxter M. Geeting, head of the department of speech, presented reading and accounts of his visit in Europe with the famous Town Hall of Europe before a Hereford meeting of the TSTA recently.

Prof. Geeting gave several dialect readings, and detailed reports of visits in Germany, Vienna, Budapest, Rome and Paris.

DISPLAY IN ED BUILDING

An exhibit of industrial arts units for the primary grades will be on display in Room 103E from Wednesday through the remainder of the week. The work has been assembled by students in Education 331. Students and members of the faculty who are interested are invited to see the exhibit.

*Easy self-confidence, the willingness to be blown up from outside with the divine affilatus, and a sweet content in one's inherent right to be superior lead directly to medicority.—Woolbert and Weaver.*

### Delphian Fund: Notable Achievement

Not content to stop at any given point in its service to students of this section, and especially those of Hall county, the Delphian Club of Memphis has added \$200 to its loan fund here.

Perhaps only a student beneficiary of the fund can fully appreciate its meaning. But everyone can recognize the resourcefulness and genuine service of a group of women who are making opportunities greater and life richer for the young folk. The fund now amounts to more than \$2,100.

This fund, like other similar ones, is a continuing service. It is easy to express sympathy for the newer generations and to wish them well. To render more than lip service, however, is the measure of achievement.

To the Delphian Club of Memphis: Heartiest thanks for a job well done.

To other similar organizations in the Panhandle: Why not do something similarly concrete for the worthy and often underprivileged students from your counties?

### Take Away The Backboards

By removal of the backboards from the basketball floors, a revision of the game by plays and players, has been suggested by a coach who hopes it will eventually result in adding fans and thrills to college and professional basketball.

Removing from the cage game of six-foot, nine inch men, who usually—but not locally—lack skill but become an asset to the team because of height, is one of the first points in an interesting report made by Paul Mooney, Columbia coach.

"Take away the backboards, and make the players shoot at open baskets as the old professionals did, and you'll see science and skill replacing sheer luck and height as the most important factors in the game," to quote Mooney in a Saturday Evening Post story.

Skill in a game keeps the gymnasiums and stands filled, and it seems unfair that the taller boys are permitted three shots at the basket because the backboard affords the ball's return; take away the backboards and give the little fellow a chance to test ability against ability, Mooney explained.

Whether the backboards are removed or left as they are West Texas' "Tallest Team in the World" will still be standing over the basket throwing 'em down into the hoop, we always say.

### Thorndike On Economics

Edward Lee Thorndyke, who is universally accepted as the greatest contributor to our laws of learning, recently said, "more and better education in the facts and principles of economics will improve the ignorance and irrational thinking about economics and business."

"Education of adults by books, magazines, newspapers, lectures, radios; education of adolescents by courses in the high school; education of children by additions to and modifications of the instruction in arithmetic, history, geography, civics, or in whatever curriculum is provided in the so-called social studies—all these may profitably pay more heed to the facts and principles of economics, as of all the other sciences," Dr. Thorndyke reported.

Explaining an experiment on persons above the average in education and intelligence, he pointed to several practical everyday economical problems which were answered deplorably. Three out of four of 76 persons thought milk companies make a profit of 15 per cent on milk; and that the cost of a loaf of bread was one-fourth of the retail price.

"Over half thought that no trade can possibly benefit both parties and that a country gains by swapping other commodities for gold and silver so far as possible."

"All available evidence goes to show that half of the adult population could easily be led to believe that the Federal Government can give every needy citizen ten dollars at no cost to anybody, that General Motors could cut the price of cars by twenty per cent if it would pay no dividends, or that borrowers of less than a hundred dollars should pay less than one per cent interest."

This seems significant in our local college where thoughts about National economy are perhaps as ludicrous. It is probable that U. S. economic history of the last few years adds to the prestige of the "usually unquestionably experimental data of Thorndyke."

## THE PRAIRIE

A weekly newspaper published every Tuesday by the Students' Association of West Texas State College, Canyon, Texas.

Entered on November 21, 1919 as second-class matter at the post office in Canyon, Texas, under the act of March 8, 1879.

Member of the Texas Intercollegiate Press Ass'n.

## Riding Herd On the Air Lanes . . . .

By MARY EDITH BUGENTAL

Kay Kyser must have forgotten those red flannels when he and Jinny Sims were "Kinging and Queening the Lake Placid Winter Carnival. Was he recognized last week on the Kollege of Musical Knowledge through the hoarse fog?

### TOP O' THE HIT PARADE:

This week's leaders are "Scatter-brain" (1), "Oh, Johnny, Oh" (2), and "South of the Border" (3). The latter has scored high for 12 consecutive weeks. Orrin Tucker and Mark Warnow shared orchestral honors on Saturday's "Parade." Tucker's Wee Bonnie Baker strikes a new high in baby-talk songsters. If such songs as "Oh, Johnny, Oh" are at the top of the list often, more singers like Wee Bonnie will be in demand to dispense with the lyrics properly.

GLENN MILLER, New Dance King, now broadcasting over Coast-to-Coast C.B.S. Network, three times weekly, for Chesterfield.

"No News is good news," or so they say. By this time it's no news that Glenn Miller has "made the change to Chesterfield." Miller's a newcomer, but he's making up for lost time with a Tuesday, Wednesday, and Thursday spot over CBS.

All of which naturally leads into the subject of Fred Waring, heard Monday through Friday over NBC. His "Button, Button" novelty isn't nearly so novel as it was a couple of months ago. However, Waring is still Waring, and good listening. The same goes for his extra-super-colossal glee club.

### Coming Sunday

One of the outstanding leaders of youth in the South, the Rev. Clayton T. Griswold of Philadelphia, will speak at the Canyon Presbyterian church next Sunday morning. Students are being urged to hear him.

Rev. Griswold is director of the youth budget of the Presbyterian church and is making a tour of this section with Dr. Sam Higginbotham, moderator of the General Assembly of the Presbyterian church, who will speak at Amarillo Sunday.

The local visitor has studied and taught in France. He is a graduate of Amherst College and Biblical Seminary.

A group of W. T. students will make up a party to hear Dr. Higginbotham at the Central Presbyterian church in Amarillo Sunday evening.

Guppy: My wife is always complaining that she has nothing to wear.

Pometto: Great Scott, man! Tell her she's right in the height of fashion without knowing it.

Teacher: "What do you know about Atlas?"

Student: "He was the world's greatest gangster."

Teacher: "Gangster? Where did you get that idea?"

Student: "The history book says he held up the world."

Under the wide and starry sky  
Dig a grave and let me lie;  
Glad did I live, gladly die,  
And I laid me down with a will.

This be the verse you grave for me;  
Here he lies where he longed to be;  
Home is the sailor, home from the sea,  
And the hunter home from the hill.

—Robert Louis Stevenson.

No, we aren't morbid. Just find an interest in the wide variety of epitaphs we humans choose for ourselves. Have you any stored away?

THE POSTMAN KNOCKS TWICE (One)  
Dear Sir:

From where we sit, it seemed a rather unjustified conclusion Bugental made last week as to who is the more un-American, Dies and his committee or others. We are surprised that he mentioned the "activities."

So, Bugental, we changed your headlines and placed the "View With Alarm" over the "Pride" story and we hope you won't mind. Anyway if you don't go any further in proving your right to ride us than you did in showing your reasons for disagreeing with Dies' work, we can't be hurt.

Theoretically yours,  
Theorem A. Proof.

Dear T. A. P.:

I suppose I did stick my neck out by making that rather dogmatic statement. However, here are three reasons why many Americans believe the sooner that committee Dies the better:

(1) The Dies committee is an extra-ordinary, unqualified, political group duplicating the services of other, more efficient agencies. Extra-ordinary because Congress (and its committees) is not delegated by the Constitution to engage in law-enforcement, anti-law investigation, or similar matters. Congress is the law-making body. Unqualified because those men are not trained, crime-investigation experts and have only slightly more experience in this field than you and I. Political because the members of the committee are politically elected, and depend for their return to Congress upon another election; and must make political furore to hold their places. I am not condemning them as individuals, nor am I (at this time) condemning our political system of parties. The case here is whether such a body should act in a judicial and law-enforcing capacity.

As to other bodies, better able to handle such an assignment: the Department of Justice, the much-publicized and quite efficient "G-Men," the Army, Navy, and other Intelligence services, and the good, old American forces of a free press, free speech, and free thought.

(2) The records of the Dies Committee does not reveal any outstanding disclosures of definite practical value.

(3) Their method of operation has been highly objectionable. The basic rights of citizens under the Due Process of Law provisions of the Constitution have been violated. And the Dies Committee is still the most un-American force in 1940 America.

Likewise theoretically yours,  
(until Dies hears about this) J. T. B.

### THE POSTMAN KNOCKS TWICE (Two)

The second knock may not be quite as strong as the first. The knocker is a "ghost." He signs himself "M. I. K. E." and addresses the radio class after each Monday night production to give them a low-down on the listener's opinion of the program.

Speculation within the class is rife as to the true identity of their anonymous critic. Needless to say the finger has pointed in turn to each of the class and several of the faculty, as well as some other suspects outside our ivory tower.

### DEFINITION

Drizzle: A drip that goes steady.  
Who Yah callin' a Drip?

### WE VIEW WITH ALARM

For all of us who enjoy life and in particular the life we are now leading, there is definitely something of alarm in the following statistics from Harper's (Oct., 1939).

The subject of the article: "Conscientious Objectors."

No other comment is necessary:  
Men in the U. S. drafted during the last war 2,810,296  
Men in the non-combatant service 65,000  
Refused military service under any conditions 4,000  
(75 per cent refused because of religion)  
Refused, when given chance to change mind 500  
Acquitted 1

Sentences:  
Sentences disapproved 53  
Served sentences 450  
Sentenced to death 17  
Life imprisonment 142  
Sentenced to 50 years 3  
Sentenced to 40 years 4  
Sentenced to 30 years 19  
Sentenced to 25 years 57  
Sentenced to 20 years 73  
Sentenced to 15 years 47  
Sentenced to 10 years 89  
Sentenced to 5 years 29  
Sentenced to 3 years 5

The average sentence of those who escaped execution or life imprisonment was 16.9 or nearly 17 years. If war comes again, in which classification will you be?

### Art Exhibit Opens Today at Grade School Auditorium

The exhibit of 150 reproductions of the works of famous artists has been received and hung in the study hall of the Canyon Grade School. Beginning this morning, students who have purchased tickets to the exhibit will be taken to the study hall in groups or classes to see the prints. Each group or class will be accompanied by a teacher who will discuss the pictures.

The exhibit will be open to the general public from three to five o'clock each afternoon this week. The admission is ten cents.

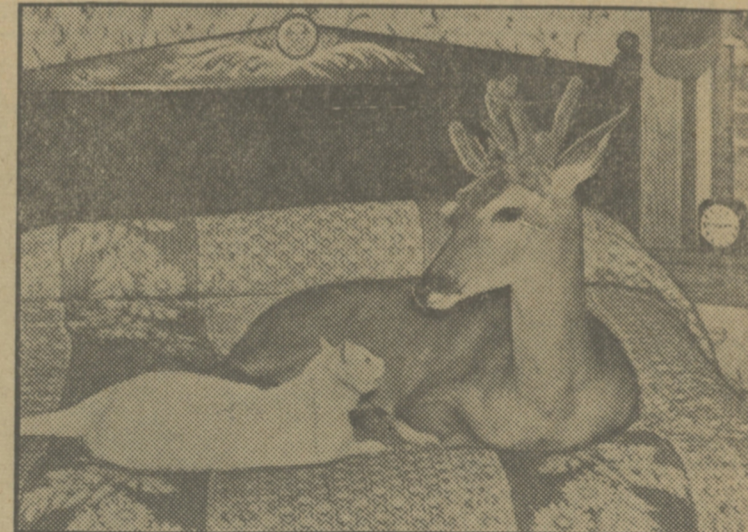

The committee which is to have charge of the selection of pictures to be purchased with funds raised by the small admission charge will be guided in its choice by the attention attracted by the various pictures on display.

Bjones: How are you getting on with your courtship of Miss Cherry?  
Dzudi: Oh, just fine.

Bjones: I'm glad to hear that. I heard her father objected to you. Has he changed his mind?

Dzudi: Oh, yes; he must have. When he kicked me down the front steps last night he said it was for the last time.

### Deer Likes Domestic Life

Even master's bed is open to "Barnegat Pete," brought up in Barnegat, N. J., home of Raymond Beckett, who rescued deer from forest fire few years ago. Here Pete and family cat get ready for regular, mutual noonday nap. Deer has been virtually adopted by entire town.

Fresno Invites Trouble

BUFFS ANTICIPATE SUN BATH IN CALIFORNIA

Football players of West Texas State are looking eagerly to a bath in California sunshine next year. Fresno State College of California has recently asked the Buffs to play a game there Oct. 12 and Head Coach Jack Curtice has accepted the game.

Fresno State is well known to all of the football fans on the coast, and their teams are frequent winners of the Far Western Conference.

This game is expected to be a severe test for the young backfield of Jack Curtice. They will be without the services of far-famed Flip-pin' Foster Watkins, ace quarterback of last season's team.

The Maroon and White Buffaloes will open the football season here September 19 against the McMurtry Indians of Abilene.

In joining the procession of Southwest teams to the Pacific Coast, this will be the first trip that the Buffs have ever made to California. The Fresno State Bulldogs have a stadium that will seat 12,000 persons. Head Coach James "Rabbit" Bradshaw of the Bulldogs uses the Warner system of play.

Ranchers Impose Split On Talls

Cowboys Round Up A Jittery Bison Crew In Abilene Series

Winning the first game just as it pleased, West Texas State's "Tallest Team On Earth" was stopped cold in the second of a two-game series with Hardin-Simmons University by a score of 32 to 25 in Abilene last week.

In the first game, the Buffaloes' floorwork and superior ball handling gave them an easy victory, and they outclassed the Ranchers by a score of 49 to 25. Captain Ernest Schur was the sparkplug of the maroon and white attack. He rang up a total of 14 points.

Price Brookfield, sophomore, who did some fine playing, was close behind Schur with 12 points. Cowser headed the Cowboy attack, scoring a total of 9 points, with Reed only one point behind. Half-time score was 23 to 11.

Hardin-Simmons tried their old trick, holding the ball on the Buffs in the second game. Because of this ball holding, the Buffs became jittery and were unable to hit the basket with the ease of the night before. This is an old trick of the Cowboys, and it occurs consistently, but not always as effectively.

Big Charles Halbert led the Buffs' attack with 8 points, and Lother Stephenson rang up 5 to be second high for the team. Cowser, Hardin-Simmons ace player, and Grady Osborne, heralded center, led the Cowboy round-up with 11 and 10 points, respectively.

The score at the half was 12 and 11 with the Cowboys leading.

BAGWELL IS BETA PREXY

Selection of Bill Bagwell of Claude as president was made by members of Epsilon Beta, social club for men, Wednesday.

Bill Harris and James Harrison were re-elected as vice-president and secretary-treasurer.

Uncanny Accuracy

Above is shown Price Brookfield, sophomore forward, who led the Buffaloes in their second game against Daniel Baker College of Brownwood by scoring a total of 19 points. When "Brooky" is "on," his actions are those of a mechanical machine, and his shots flow through the basket with ease from any angle on the court.

Basketball Teams Experimenting In Pre-Tourney Work

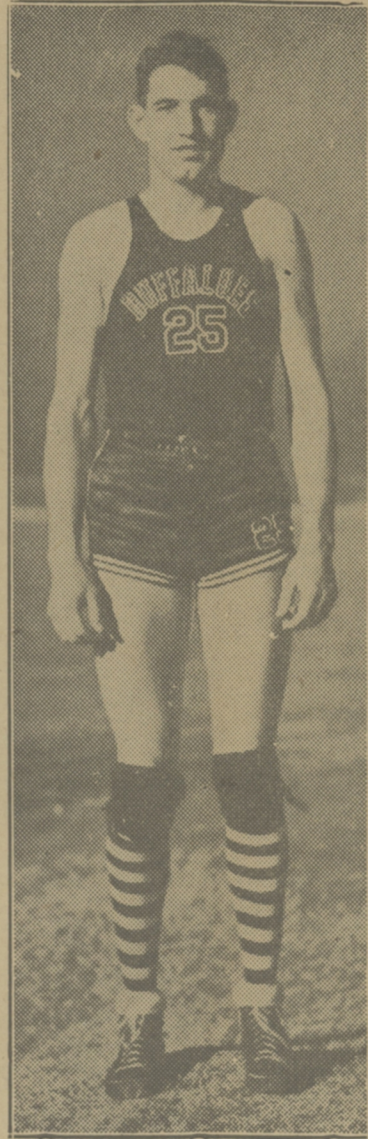

Intramural basketball got under way recently with each team playing a practice game against some chosen opponent in the league. The strength of each team is not necessarily indicated by the results of these first games, as a few of the teams haven't signed up all of their players and they have never played before as a unit.

The results of the games that have been played are as follows: The T-Club turned the Bullshooters back by a score of 60-19, the Termites beat the Stafford Hall quintet, the T-Club won another game by stopping the Bachelors to the tune of 42-24, and the Galloping Terrapins routed the Wildcats for an easy win.

These games are merely practice sessions played in order to organize the units, and also to help intramural manager Mitchell Jones complete a schedule for the double-elimination tournament that is scheduled to start soon.

Modern X-ray now makes it possible for you to escape the possibility of error in counting chickens before they are hatched.

Capable Reserve

Pictured above is big Donald Kendrick, capable reserve on the "Tallest Team On Earth." Don's eye for the basket makes his one-handed shots unusually accurate. He hails from Groom, Texas.

Basketball Tourney To Open February 5

Plans have recently been completed for the girls' annual intramural basketball tournament which will be held from February 5 to March 11.

The teams met last Monday and voted to limit the number of players to ten for each team, including the team manager. Two other conditions were voted upon, and decisions are to play on Monday and Thursday nights at 7 o'clock, and to play a round robin tournament.

Although practice sessions for the teams have already begun, actual play will not begin until Thursday, February 5.

for picnic purposes. Plans are also being made to transplant a lawn in the spring.

Buffalo Wallow

"There ain't no flies on me . . ."

Current Muse: Wonder how many students on this campus know that there is such a thing as a "T" Club? Because it hasn't received a large amount of publicity, it is scarcely known, but it is a fine organization. This club is made up of all the players in football, basketball, and tennis who have won varsity letters. Leon "Popeye" Williams heads the organization as president, and the members have specific rules to abide by.

COLLEGE FOOTBALL RULES CLARIFIED

Four collegiate football rules were revised and two old rules were clarified at a recent meeting of the National Collegiate Athletic Association, held in Palm Springs, California.

- The revisions:
1. The penalty for forward passes touching ineligible receivers on or behind the line of scrimmage was reduced to the loss of a down.
  2. The penalty for roughing a passer will in the future be enforced from the spot of the previous down.
  3. The time allowed for putting the ball into play was reduced from 30 seconds to 25.
  4. It was ruled that conical cleats must be three-eighths of an inch instead of one-half inch, and the point head must be parallel with the base.

In order to clarify the rules, the officials were warned to be on guard to determine whether a free ball is intentionally or unintentionally kicked. In another rule, it was made clear that on kicks from behind the line of scrimmage, protection is given the kicker only when it is reasonably obvious that he is going to kick.

DID YOU KNOW

That Carleton college won 64 consecutive basketball games at home. . . . That Chet Jaworski of Rhode Island State College swished 477 points through the nets last season to set a new collegiate record. He bettered Hank Luisetti's mark by twelve points.

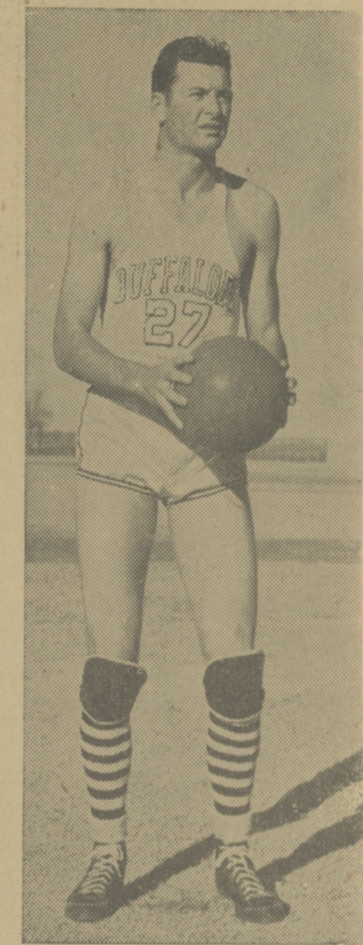

CRACK OF THE WEEK

Coach Mike Brumbelow of the Texas Christian cagers seems to be quite an optimistic fellow. He maintains faith in his boys' winning a few of their starts. He said "I still think we're good enough to chalk up two or three successive victories before the season closes."

JUST ANOTHER JOKE

Coach: "Did you take a shower?"  
Athlete: "No, is there one missing?"

Promoted Starter

Shown above is Dewey Johnson, one of the tall men on the Buffalo squad. Dewey's fighting spirit and aggressiveness enabled him to gain a starting berth on the No. 1 team lately, and against Daniel Baker he rang up 15 points in the first game.

Freshmen Add To Victory Record

Yearlings Grab Easy Win From Amarillo Business College

W. T. Yearlings added a victory to their record in the Amarillo Jaycee League Saturday night in Burton Gymnasium defeating the Amarillo Business College 45 to 14.

It was a playoff of a postponed game which Jack Maddox, freshman forward, scored 17 points for honors over Stockman, guard, by 5 points. Maddox of Medicine Mound, is high point man in the League, and top scorer for the freshmen this season.

In a practice game here Friday night, the Yearlings trampled over McClendon's Grocery, a Jaycee Leaguer, by 57 to 32.

Most of the freshmen's games have been in the Amarillo league competition, and the first-year men maintain a perfect record except for one forfeit.

The locals have the record of the 1939 freshmen as a standard, the team having gone through the season undefeated.

HE PILOTS THE FAST-STEPPING  
"CENTURY"  
but he smokes a slow-burning  
cigarette for

EXTRA MILDNESS  
EXTRA COOLNESS  
EXTRA FLAVOR

MY JOB IS SPEED—  
BUT MY SMOKE IS  
SLOW-BURNING  
CAMELS

TAKING IT EASY, Engineer Bronson says: "No speed for me in my cigarette. That slower-burning feature makes sense to me. I've been a Camel smoker for years. I know Camels are milder and always taste swell. And—on the side—I don't object a bit to getting those extra smokes per pack."

FAST BURNING—creates hot flat taste in smoke... ruins delicate flavor, aroma...

SLOW BURNING—protects natural qualities that mean mildness, thrilling taste, fragrance... a cooler smoke...

THE CENTURY READY TO "HIGHBALL," as they say in railroading! Engineer Walter L. Bronson (above) swings up into the cab of Number 5449, one of the big Hudson type locomotives which flash at 80 miles an hour across the landscape between New York and Chicago in a day-in, day-out epic of modern railroad speed.

HERE'S EXTRA MILDNESS, EXTRA COOLNESS, AND EXTRA FLAVOR, and here's why: Camels are slower-burning. They have thoroughbred quality through and through. Finer, more expensive tobaccos are used, in the first place. And these choice tobaccos are combined into a matchless blend.

Smoke a Camel. Notice how slowly it burns. That is your clue to true cigarette enjoyment—the "extras" of mildness, coolness, flavor—and—extra smoking in every cigarette. Camels burned 25% slower than any other cigarette in recent tests (full details below). You'll always rejoice over the day you switched to Camels!

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to

Camels—the cigarette of Costlier Tobaccos

# DZX Dance Will Be Friday; PO's, EB's Present Pledges

"Dance and be merry, for next week will be dead."

With restrictions, it's an appropriate theme of dance-stylers who next week will forget their goings-on to bury a head for finals coming on. The maze clears with only one formal to go. Dancing Friday night will be members and guests of Delta Zeta Chi sorority. Raymond Raillard's band will play and the Cousins Hall ballroom will be the scene.

Virginia Good, Frances Miller, Ernestine Cundiff, Jane Boone, Dardanelle Whatley, and Janice Kendrick are new members to be introduced.

Two of the most traditional dances of the year were those last week of Pi Omega and Epsilon Beta, two of the oldest campus social clubs. Epsilon Beta annually presents a "Beta Queen." Pi Omega members ever since '25 always come back for the club dance, making a homecoming short of the College's annual influx.

Attractive Ruth Hill, from down-south Moody, Texas, was crowned queen of Epsilon Beta at its fall presentation dance Friday night in the Cousins Hall ballroom.

Long, dark hair was prominent as the Queen came into the spotlight, escorted by James Harrison, club secretary. She wore a white chiffon skirt and a royal blue satin blouse with the insignia EB embroidered on it with sequins. She was crowned with a silver and blue crown also bearing the club insignia. She carried a bouquet of peach colored gladioli.

The ballroom was decorated with blue and white streamers draped from the ceiling. Epsilon Beta shields adorned the orchestra stands and the back of the stage. A larger lighted shield hung at the front of the stage.

Lewis Cole, president, announced and introduced the three new members of the fraternity to the guests. The men presented were: B. Raymond Evans, Happy; John Frank Toles, Happy; and L. B. Floyd, Ralls.

Special guests at the dance were: Mrs. Geraldine Green, Mr. and Mrs. Olin Hinkle. Mr. Hinkle is sponsor of the club.

Music was furnished by Raymond Raillard and his Majors in Swing.

## Home Economics Club Plans For Program

The Home Economics Club met in the dining room of the home economics department, Thursday at 11 o'clock.

A report was made by the committee concerning the Christmas basket filled and given to a needy Randall county family. Each club member contributed clothing, food, and helped in making candy for the basket.

The club voted to have a page in the annual. During the social hour, each class presented a stunt, the winning prize going to the freshman who presented a "boob" to the members.

The Home Economics club, officers and committee chairmen and the sponsor met together in a called meeting Thursday afternoon. A schedule for the meetings during the spring semester was arranged and programs planned.

## Dr. Robert Jarrett, Jr., Will Teach First Aid

Students of West Texas State College are invited to take a course in first aid which is being taught by Dr. Robert Jarrett, Jr. The course began Friday night at 7:45 when a group met in room 104 of the Education building of the College.

This course is being taught in connection with the scouting course in the college, all members of which are required to take the course in order to obtain their scouting certificate.

J. B. Speer, chairman of the local boy scouts' committee of advancement, is interested in town men taking the course in order to be eligible as councilors for awarding merit badges in first aid.

After completing this course in the ten meetings, students will be awarded merit badges. According to Milton Morris, W. T. instructor in scouting, this course will not be too easy, but it will give those attending valuable knowledge whether or not they plan to work with the boy scouts.

Dr. Jarrett is chairman of health and safety of the Randall County district of boy scouts and has had much experience along the line of first aid in the medical profession and working with boy scouts.

Meetings will be held on Tuesday and Friday nights this week at the College.

New York University has more students (37,376) than any other U. S. college or university.

Miami University tests have proven that men have more rhythm than women.

The average attendance at a college football game this year was 22,733.

Approximately one-third of the University of North Dakota students are Lutherans.

## Many Ex-students Exchange Vows

### BULL-ROGERS

The secret marriage of a former W. T. student, Virginia Leigh Bull, to Bryan Rogers on December 17, has been announced. The ceremony took place in Canyon.

Mrs. Rogers is a graduate of W. T. and has been employed by the Standard Oil Company in Amarillo for two years.

Mr. Rogers is a representative of the George D. Barnard company with headquarters in Amarillo, where the couple are living.

### CAWTHON-GOLD

The marriage of Velma Cawthorn and Woodrow Gold, solemnized on New Year's Day, has been revealed. The vows were exchanged in the Central Church of Christ of Amarillo with Luther G. Roberts performing the ceremony.

Mrs. Gold is the daughter of Mr. and Mrs. Homer Cawthorn of Chil-dress.

Mr. Gold attended West Texas, and he is employed in Amarillo.

### BROCK-RAGLE

Rev. E. L. Stanford, Methodist pastor, and Rev. E. E. White, Supt. of Methodist District, officiated at the marriage of Hazel Brock and Ernest Ragle at Olton during the Christmas holidays.

Mrs. Ragle, daughter of Mr. and Mrs. W. P. Brock, attended West Texas State two years ago.

Mr. Ragle received his degree from W. T. and is teaching in the Hale Center schools.

### FRAZIER-GOODAL

Miss Eula Frazier became the bride of Mr. James Goodal in a double ring ceremony, December 22. The Rev. W. M. Culwell, pastor of the First Methodist Church in Floyd-dada, officiated. They were married in the parsonage, with the pastor and his wife attending.

The bride wore a sand colored crepe dress, with rose accessories. She carried white roses. The couple spent their honeymoon at Mineral Wells, Texas.

Miss Frazier is the daughter of Mr. and Mrs. A. H. Frazier of Braver. She was graduated from West Texas State in '38 with a major in speech. She has been teaching English in the Separman High School, where she will finish out the year.

Mr. Goodal is the son of Mr. and Mrs. J. F. Goodal of Los Angeles, California. He has been employed with the Phillips Petroleum Company in Borger for the last few years.

### DEAN JUSTIN TO BE GUEST SPEAKER AT FEB. AAUW MEET

Mrs. J. B. Speer was hostess to members of the American Association of University Women when the organization met in regular study and business session Monday evening, January 8.

The group interested in international relations heard problems of the Far East discussed by Misses Mary E. Hudspeth and Margaret Barrett and Mrs. Baxter M. Geeting. Mrs. Speer served as group chairman.

In the current literature group Mrs. Geraldine Green gave a brief review of Van Paassen's "Days of Our Years" and "The Tree of Liberty" by Elizabeth Page. Mrs. Geeting discussed Texas novelists.

Mrs. Guy Tabor and Miss Ruth Lowes contributed to a discussion of informative labeling of commodities for the group studying consumer problems.

Following the meeting of the study groups, a short business session was held with Miss Grace Clark presiding.

Dean Margaret M. Justin of Kansas State College at Manhattan, Kansas, has been invited to be guest speaker at the February meeting of the local branch. Dean Justin is a national officer of the A. A. U. W. and will be filling speaking engagements in Texas next month. The time and place of the February meeting will be announced later.

Louis Cole will accept a position with the Retail Credit Association in Amarillo upon graduation January 26.

The University of North Dakota has 33 nationalities represented in its student body.

Help Keep Canyon Clean!

## WHAT, NO HAT!

## Brief Views of Mid-Season Fashions Seen

By WILMA TERRY

Often seen on the W. T. campus is Miss Average Co-ed, prancing against the northern gales. We do not notice the struggle she is putting up against the wind, but we are interested in what she is wearing.

At once we recognize the much advertised and popular knitted half socks of blue wool. From Vogue she has taken a tailored suit of blue and gray; the blue and gray plaid swing skirt is topped by a gray buttoned coat with plain trims. A hand-made hat of the same material as the suit and gray flat oxfords complete her outfit.

Standing near the entrance of the ballroom floor, we see Miss Co-ed on the arm of a well-groomed gentleman. As she takes off her green velvet wrap, a green velvet dress with a tight bodice and a flattering full swing skirt is revealed. Worn over her curls is a copper mesh snood to match her copper mesh bag and copper sandals.

For a luncheon, milady Co-ed wears a beige tweed suit. The flared six-gored skirt is worn with an "Alerte"-blue jersey waist with a high neckline. The princess jacket is trimmed with self-material buttons and self-material braid. The braid accents the seams and trims the cuffs. The "Alberte"-blue toque and black purse, shoes, and gloves complete her ensemble.

From her favorite sport, whatever it may be, comes Miss Co-ed who is as attractively dressed as ever. This time she wears Botany flannel slacks with a soft white wool sweater and a green and red parka jacket. Completing the sport outfit are white wool socks and red cape-skin shoes.

## Freshman Honored At Surprise Dinner

Geneva Smith, freshman from Dumot, was complimented Friday evening with a surprise birthday dinner given by the residents of Yucca Lodge. Her birthday cake was brought in on a large tray with several beautiful gifts.

Dinner was served to the following: Misses Vohndell Lesley, Burdell Nelson, Belinda Sikes, Mary Isabelle Hanvey, Margaret McLaughlin, Lottie Mae Clay, Louise Cheatham, Esther Gordon, Roberta and Florine Nicholson, Helen and Ora Sharpe, and Mr. and Mrs. R. E. Henson.

Northwestern University received more than \$9,000,000 in gifts during 1939.
