

'Fourth Dimension' Is Campus Feature

Organization of the West Texas State Bureau of Student Opinion has been completed and plans for this school year are now being formulated. The bureau is sponsored by The Prairie, but it will also serve directly the Students' Association, faculty members, and campus organizations.

Purposes of the poll is to reveal student opinion on outstanding questions of the day, both local and national, regardless of reasons or causes. It will offer to the local press what Dr. George Gallup offers to the U. S. press termed a 'fourth dimension' in journalism.

Bill Moore, has been appointed Director of the Bureau. Jenna V. Stephenson, Roy Cheatham, Christine Jarrett, and Glenn Thompson have been named staff interviewers. Others will be added immediately.

The Prairie is now affiliated with the Student Opinion Surveys of America with headquarters at the University of Texas and will publish summaries of the American collegian's opinions.

W. T. S. Bureau of Student Opinion is associated with the Student Opinion Surveys of America, however, the local bureau's objective is to scientifically measure the local campus sentiment, whereas the Student Opinion Surveys of America tabulates results of campus polls from key institutions throughout the United States. These tabulations are then sent to the publication office of the colleges where interviews were taken for publication.

'They Also Lived For Their Country' Is Youths' Epitaph

"This generation of young people was born in the period of the world war from 1914 to 1918 and the unsettled period immediately following. At this stage of their lives, when hope should be highest, comes the threat of another deluge of blood and destruction of their dreams. If two generations in succession inherit such a background, what will be the effect of such an impact on America?"

Thus Prof. Stuart H. Condon put the challenge squarely to his audience in a radio talk last night. His message, which was the feature of a forum over station KPDA, Amarillo centered around the "Problems of American Youth."

"I use the term 'Problems of Youth' rather than 'The Youth Problem,'" he said in opening. "There is no 'Youth Problem' any more than there is an 'adult problem.' The same problems confronting youth confronts every other level of our population. When these problems are solved for one group there will be a solution for all groups."

The head of the economics and government department of W. T. S. C. studied his forceful address with statistics. Defining youth as "that section of our population between the ages of sixteen and twenty-four," he gave these figures: "According to the Maryland Youth Survey Commission there are twenty million young men and women in this bracket. Five million are out of school and unemployed. Eleven million have jobs, mostly in the unskilled field. Sixty-five percent of

Buffaloes and Coaches Have Records Off the Field

(Ed Note: Opening a series of features written by Jenna V. Stephenson, staff writer, on the football team members, Coaches Al Baggett and Jack Curtice are presented).

Coaches make the team. We present Al Baggett, head coach, who says: "To make a team, you've got to make friends. To win a game, it takes a lot of work and a lot of desire on the part of the boys; and that's what we have here!" Collects rocks as a hobby, also Indian relics, and movie-camera work comes next. Graduate of Ouachita College where he starred under Morley Jennings, present Baylor coach . . . did graduate work in Michigan, Southern California, and working on his Ph. D. at Columbia. Has attended 18 major coaching schools . . . came to W. T. five years ago with excellent records. Coaches "the world's tallest team" . . . has a reputation for getting things done . . . married . . . known for his booming voice and broad smile.

Jack C. Curtice, assistant coach, is liked by the boys, and that's half of his success! Native of Louisville and student from Owensboro, Ky. Graduate of Transylvania University and has his master's from Columbia where he is continuing his doctor's degree. Was an All-Kentucky quarterback . . . received a trophy for excellent ability and sportsmanship . . . in eight years of coaching has seen his teams win eighty per cent of their games. Is married and has a daughter . . . courteous to inquirers . . . ready wit and good humor.

Make Your Guesses Passes

Here's an opportunity for "dopesters" to turn their predictions into theater passes and cokes. Each week The Prairie will print a list of the big games, including the members of the Alamo Conference, and any student who guesses the nearest to the scores will be given two passes to the Olympic Theater. Second prize will be two cokes at Bob's Coffee Shop. All entries must be in The Prairie box before 5:30 on Friday to compete for the prizes. Anyone who guesses the exact score of the Buffalo-O. C. U. game will be given a free pass.

Buffaloes-O. C. U.
St. Mary's vs. Sul Ross
T. C. U. vs. Texas A. & M.
Baylor vs. Nebraska
Arkansas vs. Texas U.
Notre Dame vs. Navy
A. & I. vs. S. W. S.
Western State vs. Colorado State (Greeley)
Arizona State vs. New Mexico State
Army vs. Yale

Ticket Sales Begin Tomorrow

Ticket receipts for the special train to run to Abilene for the Buffalo-Cowboy football game on November 11 will be on sale for \$4.40 tomorrow, according to an announcement by the Senate committee.

Gate tickets for the game will be forty cents, Al Baggett said yesterday. Arrangements will be made so that students can take advantage of this special price.

"I would like to urge all students to pay the money for their fare and get their tickets in order to gauge how the project is going to come out," Ulane Zecek, student president said. The Student Senate is sponsoring the special train.

Many of the ex-students will probably ride the train, and plans to inform the exes are being carried out by the Senate committee.

The special will leave Canyon about 6 a. m. Saturday and will return after the game, probably arriving early Sunday morning.

Based on an average football crowd of the University of Kansas, and on a typically warm sunny afternoon, the "inside dope" consumed consists of 1,972 bottles of coca-cola, 1,424 hot dogs and buns, 807 candy bars and 751 bottles of grape, orange and lemon pop.

More Jumpin' And Jive At Night Club

Hobby Shows, Voice Recordings Added

Only eleven more days until homecoming. . . . There will be more music than last year with three dance bands playing in three different ball-rooms. Logan Largent of Plainview will bring the third orchestra; Raymond Raillard and his W. T. Majors in Swing, and Jesses Pampa String Band will play in Cocanut Grove and Old Tascosa Bar. These dances will be a part of the climaxing night club scheduled Saturday night, October 28.

Mrs. Tommie Montfort, general Homecoming chairman, said Saturday that student organizations, faculty members and students have been very helpful in planning the program and that all of the general arrangements have been made. Between now and the Day, as suggestions continue to come in, time will be given to making arrangements for entertainment units.

Clear Main Hall

To clear the main hall for dancing, Homecoming managers have moved games and most concessions to a big tent rented from Amarillo Tent & Awning Company. In the tent, Guy Harp and assistants will assemble all manner of games and will add a floor show in which dancing school students will perform.

Decorations will reflect the theme of each room and of the Halloween season. The big night club, one of the most colorful Homecoming events ever conceived in the Southwest, will be opened at 8:30 p. m. by the Queen of the Homecoming, who will be chosen and crowned at 7:30 p. m. from among the candidates selected by former students of various towns and counties.

Earlier events will include an assembly program at 10:30 a. m., luncheon for queens, and football game at 2:30 p. m.

Direct Hobby Show

One of the many added features will be operated by the speech department. Voice recordings will be made on equipment owned by the department. A clinic, too, will be available to anyone wishing to test his voice and receive advice as to its improvement.

Miss Anna I. Hibbets will direct a visiting room where faculty members will "drop in" during the morning to greet former students. This room will be the music studio of Miss Pauline Brigham on the first floor of the administration building.

A hobby show in which exhibits will come from ex-students will be held at the museum. Dr. L. F. Sheffy and Dr. Hattie M. Anderson will be in charge. All exes having hobbies are being urged to bring material for exhibiting, and to write the sponsors in advance about it so display space can be provided in (Continued on last page)

Coffee Talks "Neutrality" Over KGNC

The second broadcast in the new series of W. T.'s remote control studios was heard last night from 8 to 8:30 over KGNC, Amarillo.

Prof. Herschel Coffee gave a talk on "Neutrality." Houston Bright, vocal soloist, sang several songs and Marjorie Reeve played piano solos.

The news cast was given by Brynild Vaughan, and Lannie Line acted as master of ceremonies.

Drama students from the radio class presented a one act play, "Let Him Speak Now," written by Dorothy Lee Yearwood. Miss Yearwood was graduated from West Texas State last year. The play was adapted for radio production by Mrs. Baxter Geeting.

The cast included: Ruth Cline, Glen Davis, Nell Stevenson, and Alton Paul.

Thomas Heads Prairie Sports Department

Sam Thomas, Jr., of Canyon, is the new sports editor of The Prairie, following an appointment last week.

Thomas selected assistants for the sports department last week which included the following: Arthur Ray of Amarillo, Josh Hopkins of Canadian, Roy Cheatham of Panhandle, and Carolyn Greenway, who will handle women's sports.

The sports department will invite exes who are well known sports writers to contribute to a special homecoming edition being planned by The Prairie. Such prominent exes as Jerry Malin of the Amarillo News, and Glyndon Riley of Kirkland will be invited to contribute stories.

Motion Pictures Being Made In Palo Duro Park

Motion pictures are being made in the Palo Duro State Park this week.

Paul Hoefler of Hollywood looked over the Palo Duro last week and decided that it was just the place that he wished for some night scene to fill out an African picture.

Negroes from Amarillo are being used in a night scene tonight. Most of the negroes will be practically nude when the shots are made. 150 are in the cast tonight.

Several day shots were taken yesterday, with 35 in the cast.

Mr. Hoefler was highly pleased with the Palo Duro as a substitute for the wilds of Africa, which he seeks to represent.

A lion will be used in one of the scenes this week.

Almost a million gallons of fuel oil are required to heat Mount Holyoke College buildings a year.

Radio Class to Have Semi-Weekly Programs

The 331 speech class, which deals specifically with radio production, is planning to start a series of presentations which are to be given twice each week over KGNC.

It has not yet been determined what days nor at what time the programs will be presented, but this will probably be announced in the near future. Dr. Baxter M. Geeting will be in charge of these presentations.

Speech Clinic For Students Opens

A speech correction clinic has been organized for the benefit of College and demonstration school students who need this treatment. It meets twice a week in the Education building under the direction of Miss Helen Loree Ogg, clinical adviser, who trained in the Hill-Young School for Children in Los Angeles this summer.

All students who have speech defects are invited to attend. Last week eleven were given treatments. Miss Ogg teaches by the Moto-Kinesthetic method which is a matter of speech and organ manipulation.

The system was originated by Mrs. Edna Hill Young who has spent her lifetime developing and perfecting the method of instruction. Her first school was set up in Minneapolis, but in 1930, was transferred to Los Angeles.

A smoking ban poll taken at Texas Christian University by the student body indicated a six to one majority against smoking in the halls of the Administration Building.

Opens Lectures

Roy E. Dickerson, who is conducting a Conference on Education for Marriage and Family Life here, addressed the student assembly of West Texas State yesterday morning.

Students Hear Social Problem Specialist's Timely Address

"Marriage Is A Journey—Not A Destination"—Dickerson Says In Marriage Life Conference

"Marriage is a journey—not a destination," declared Roy E. Dickerson of Kansas City yesterday morning here in opening a week's "Conference on Education for Marriage and Family Life."

Popularity of the course was shown last Friday when the enrollment was found to be almost full. Only sixty members to a class are allowed. On investigation of the rolls, it was found that only twelve vacancies were left. The 2:30 section was closed with its quota of sixty. The 1:30 section had fifty-one in it, and the 3:30 section had fifty-eight.

Interesting to note was the number of girls in relation to the number of boys. It was found that one hundred and thirty-eight girls had enrolled and only thirty one boys.

Cagle Teague of Childress Infantile Paralysis Victim

Cagle Teague of Childress, West Texas State graduate in 1935, often described as "one of the best friends W. T. ever had," died in a Quanah hospital Saturday morning.

He had been stricken by infantile paralysis a week earlier, and had entered the Quanah Memorial hospital Wednesday. The funeral was held at the Childress Baptist church Sunday afternoon. He was a member of this church.

West Texas State was represented at the funeral by Dr. and Mrs. A. M. Meyer, Mr. and Mrs. Al Baggett, Mr. and Mrs. Frank R. Phillips, Mr. and Mrs. T. M. Moore, and Milton Morris. Hundreds of friends gathered from a wide area to show their admiration for Mr. Teague, and the floral offerings were particularly impressive.

Mr. Teague's illness was traceable in part to the physical strain of caring for a brother who is very ill at a hospital in Temple. The former Buffalo star athlete, a very active man, had played tennis a week before he was stricken. He was freshman coach here one year under Mr. Baggett.

For three years he had been teacher of vocational agriculture at Childress high school. He had completed most of the work for his master's degree in agriculture at Texas Technological College. He was a son of Mr. and Mrs. B. J. Teague, prominent farm couple of Childress county. He was interested in livestock farming and had purchased a tract of land shortly before his death. He was unmarried.

Prof. Frank R. Phillips, head of the agriculture department, said: "Cagle Teague was one of the most farseeing graduates of the agriculture department, and he was recognized for his agriculture work at Texas Tech. Judging from his influence, he was one of the most successful men the department has produced."

The Y. W. C. A. at the University of Kansas, Lawrence, Kansas, annually sponsors a lantern parade for all women students. They have held their twenty-third.

School Executives to Be Here for Course on Marriage

The Panhandle Superintendents' and Principals' Association will make sessions of the Conference on Education for Marriage and Family Life here on Saturday its program for the day.

Supt. H. T. Burton of Clarendon, president of the school executives' group will have a short business session at 10 a. m., then the body will adjourn to the conference's last day sessions. Many other school men, club women, churchmen, and others who work with young folk are expected to attend the public sessions of the conference which opened yesterday.

Home management supervisors, demonstration agents, home economics teachers, farm agents, Scoutmasters, Parent-Teacher Association workers, and club members generally are among those urged to hear Roy E. Dickerson of Kansas City, nationally known lecturer, during the short course.

Student Wins Fifty Dollars With Essay

Martha Ritchie, sophomore from Fort Worth, received fifty dollars in prize money from the C. M. Goethe Essay Contest sponsored by the World Outlook.

Last spring Miss Ritchie wrote an essay entitled "William Tyndale and the Bible." Miss Mary Moss Richardson suggested that she write on that subject for her term theme in English, and then submit it to the Outlook to be judged.

Miss Ritchie was requested to send a picture and a short summary of her school work which will appear with a detail of the contest in an early issue of the World Outlook. The Outlook is a Methodist Church publication, and probably will be remembered as the Missionary Voice.

Besides Miss Ritchie, one other Texas student, Miss Sophie Grenwelle of Sabinlo, Texas was given honorable mention.

Helpful references were found in the College library, Miss Ritchie said.

EDITORIAL POLICY OF THE PRAIRIE

In striving to produce a newspaper which will be a purposeful thing, rather than just a thing, The Prairie considers it necessary to print a statement of general policy in order to carry on a consistent program.

Actually the student newspaper is the official organ of the Students' Association, therefore, it is published for the benefit of all the students, but not for any one student. And accordingly, statements which promote selfish interests and show a desire for free advertising will be deleted.

Publication of any article will depend upon the quality of work, the news interest contained and the amount of copy the staff has on hand. Favoritism will be avoided as much as possible. Prominence and proximity of the story will determine the space given. The Prairie intends to give prominent places to subjects which is considered editorially worthwhile to the College and students.

Use of pictures in the paper is regulated by the availability of cuts usually and not always by the importance of the subject because The Prairie hasn't a budget for engravings. Because of the added interest when pictures are used to illustrate student activities, The Prairie will attempt to obtain and use more pictures.

VETERANS OF FUTURE WARS

"Dedicated to the Veterans of Future Wars!" Thus reads the caption on a bulletin board in the Green Room, office of Dr. Baxter M. Geeting. The board features pertinent clippings designed to show the trend of international events. Editorials revealing seldom publicized facts of national and foreign policy, quotations from reliable authorities, and news stories of exceptional weight have their place here.

Featured on the board is opportunity for all interested to forecast the United States "M" Day. "M" Day has become popularized as the date of mobilization of this country's forces. Starting off the prognostications, Dr. Geeting has set May 15, 1940 as his estimate.

In this regard the speech department head explained that he was not prophesying the declaration of war for that date. "Mobilization will proceed actual declaration of hostilities," he said.

Students interested in this unusual feature may visit the Green Room and inspect the bulletin board.

THE NEW TEACHER

The gang was waiting for the new teacher. They were waiting with anticipation unusual in such a rough gang, but they liked new teachers. They liked new teachers because they, the gang, had a reputation for running teachers out of the school in no time. So they waited for this new one.

When he came they were doubly pleased. He was a tall, awkward man. He would be easy prey for their favorite trick. The leader of the gang began a caricature of the teacher on a slate. The picture grew until its ridiculous qualities overcame all the pupils around the drawer. They burst into laughter.

The teacher discovered the cause and ordered the gang-leader to stay after school. When he was alone with the boy he spoke slowly and his words amazed the would-be artist. "You've got something, Jim," he said. I don't know whether you could be an artist or a poet or a writer or what. But you've got something.

"Take this book home, read it, then draw a picture for me of some of the characters."

The pictures didn't prove to be extraordinary. But the change in the boy was. "He had something!" Somebody had recognized it. He settled down. Later James Whitcomb Riley showed the whole world what he had.

The possibilities for would-be teachers are fascinating in their extent. Discovery is continually awaiting them. For the teacher who "has something" himself, there will be many such chances ahead.

USE "BIG NAME" BAND

A "big name" dance band will appear on the New Mexico State College campus during the first semester, sponsored by the lyceum committee of the college. Enrollment at the State College is 1,064.

More details about the dance arrangement reveal that a concert is to be presented before the dance. The band has not been selected.

This is one of the many examples in which Colleges—the same size as W. T.—are adding well-known bands to the artists course series. Virtually all of the larger universities and colleges have been using "big name" bands on lyceum programs for several years.

Definition: Canvasser's futile door-to-door calls: Not worth a rap.

Economy consists of darning the holes in your typewriter ribbon.

A reason why girls kiss and make-up: The stuff rubs off.

THE PRAIRIE

A weekly newspaper published every Tuesday by the Students' Association of West Texas State College, Canyon, Texas.

Entered on November 21, 1919 as second-class matter at the post office in Canyon, Texas, under the act of March 8, 1879.

Member of the Texas Intercollegiate Press Ass'n.

"America's Way Out"

U. S. CAN HOLD MARKETS

The subject of the day it would seem is Europe's latest attempt to settle the World's eccentric economy by war.

We in this country cannot remain entirely uninterested in this conflict for a number of good reasons: first, we are all directly or indirectly descended from European parentage; second, our trade and cultural relations with European nations have maintained a bond between us; and third, no part of the civilized world can fail to shudder at the shock of world economy which inevitably accompanies such wholesale destruction of resources, property, and manpower.

It is, however, significant to note that we may be overlooking the real points and values in the issue. Our predecessors came to this country not to open up a new storehouse of resourcefulness for destruction but rather to found in the new world a society where peace and security might be the lot of those fortunate enough to live here.

Our problems may still be laid on tables closer home than Munich, and our frontiers, though extensive, do not include the Rhine.

The day that Britain's navy blockaded the North Sea we in the United States also went to war, but our enemy is Japan and not Germany. By going to war Germany forfeited her widespread world commerce; Britain and France also being at war are unable to do more than hold their own on the world markets. That leaves Japan and ourselves to divide the real spoils of this war, the world markets.

By sending men and supplies to Europe we merely add to the total destruction in addition to the great losses which we would sustain. On the other hand by sending men and merchandise to South America we may at the same time stimulate the development of a rich continent and build up permanent and growing ties of friendship and commerce with our more immediate neighbors.

After all our ties of understanding should be stronger with these other new countries than with that decadent and crumbling order which would carry us down with it into another dark age. We of the New World have a new culture to build and it is only by freeing ourselves from the ancient and insoluble feuds of Europe and setting ourselves to the task of picking the torch of civilization from the falling European hand and carrying it on to new and unheard of heights that we can ever come into that greatness that is rightly ours.—S. D. Burton.

PEACE PLATFORMS FOR CANDIDATES

Woodrow Wilson was elected president in 1916 on a "Keep America out of War" platform. Our next president, if the World War II lasts until then, will probably be chosen on the same "Peace for America" ticket. Obviously more than a man's policy is needed to do the job of keeping us out; the co-operation of everyone is necessary. The United States was involved in War I by insidious propaganda, and experts agree that propaganda won that war and prophesies that it will win the present one. Propaganda, this time, has in addition to the press, two new weapons, radio and the newsreel. Our method of co-operation is plain, accept war news with a box of salt, and more than a grain of common sense.

TRY ANOTHER SAMPLE?

There is not a young person in America who wants to go to war. Fine! Why don't we stay out of it then? The answer is attitude.

It is not only that. In the beginning, we like the "prosperity" resultant from rising prices, but we could solve our unemployment question by sending men to war. (Incidentally that very thing—in 1917—is what caused our unemployment now—the result partly of putting women in all branches of industry, but more the result of turning the middle-west into a dust-bowl.) It would, of course, be cheaper and akin in method to solve our unemployment problem by lining up all WPA laborers and shooting them. Thereby we could save the cost of uniforms, training, and transportation overseas. Preserving the strength and quality of youth is another advantage of this latter method.

But there are greater forces that affect our attitude. Propaganda and war profiteers. You say we can legislate to take the profit out of war. But examine the possibilities. Legislation is clumsy at best, and a commerce as huge and complex as ours is not easily governed. The task is almost insurmountable if we did not want to do it. Do we? War profits are fabulous, you know.

Suppose we could legislate to eliminate war profiteering; propaganda is yet harder to fight. Daily our sympathies are being directed to the cause of the Allies just as in World War I. Yet we have not heard of any Polish children's hands being cut off. Sure, we wouldn't believe it—but Propaganda Ministers have learned too.

The world is still safe for democracy. There is a holy crusade on its way to end for all time dictatorship and "oppression"—shall we join? Perhaps we could really do a good job this time; we got the practice in 1917 and 18.

We have had our sample; now shall we have a full helping
—N. J. Reynolds.

Hart Palpitations

by Fred Hart

I went to the dancing school last night. I entered the presence of the socially graceful with a desire to make myself an Astaire in one easy lesson. I soon found myself a flower among the wallpaper patterns, with no lesson.

Alas, Rex Shearer and I had sought a dancing school for beginners; instead we found a seeming excuse for the sophisticates to reveal their advanced footwork. Is it possible that dancing is so popular around here that everyone tries to attend every dance, even if it is a class for novices?

It is true that Marcelle Reid kindly suggested that this columnist ask some young lady to assist in a spin about the room. But, being of and in the Old South, I simply could not go up to a charming bit of femininity and, bowing in the approved manner, chirp somewhat in this wise: "May I have the pleasure of placing my No. 12's on your tiny feet during the next rendition on the nickelodeon?"

So, calmly leaning against a friendly wall, I admired the advanced technique of the instructors. It appeared to me that Laura Mae Gibson was a human bug on a hot wire, trying to tell me something about "you gotta feel rhythm," but me—I felt totally contented while resembling perhaps, the stag which at eve had drunk his fill.

STYLE NOTE: The latest and most approved (by me) fad for the W. T. co-ed is a well-fitted suit supplemented by a flower in the hair and a few daubs of paint here and there gathered while painting the Health Center.

In case you hear that Hart is talking to himself of late, just remember that I am coaxing myself into the mental state necessary to appreciate Cornelia Otis Skinner here November 8.

Crisler & Hart, Inc., will shortly announce a pre-marriage course to supplement the marriage instruction being generously distributed at the moment by our guest, Roy E. Dickerson. One lecturer will be Sam A. Thomas, Jr., who has a remarkable philosophy—if it works. Further announcement will be deferred until Thomas' theories can be given the exhaustive study they seem to deserve.

To those students (a misnomer) and faculty members who have been complaining about the exercise of intellect in using uncommon words in this column, I can only recommend that they go to the dictionary. That's what I use.

Chamber of commerce note: Unless the highway department makes another false start, we shall have a street light by the time this goes to press. So shake off that inferiority complex. We have a city. WE HAVE A STREET LIGHT!

The organizing of county clubs is a good thing. If we keep on we may happen to remember that we're Texans.

Crack of the week: "It is surprising how much hot air one small instructor can put out in a large room."
—L. S. Baker.

Memo for Registrar's office: Now that G. Donald Bowie, Jr., is a regular student, please see to it that he attends assembly regularly and accept no excuses on the ground that he is assistant business manager.

More notes from a memo pad: Mr. Henson and Mr. Hibbets have new Nashes. . . . For a sample of that good old southern baby-talk, see Dorothy Nell Dean. Cute little Homecoming buttons are appearing on the campus, but "Who's got my button?" is a resulting game.

(Editor's Note: Mr. Hart is in no condition to continue this corner. He swooned while talking to three young ladies and, on coming to, revealed that they told him the PI Omegas are going to sponsor another Sadie Hawkins week.) Real Ed. note: Why?

A minister of propaganda for Le Mirage says the staff is looking for gorgeous young ladies to serve as models in carrying out this year's theme—which seems to be feminine beauty of W. T.

The judge in this model contest will be an f4.5 Carl Ziess lens, which is no respecter of persons and clubs. See Editor Sam Burton for details.

A certain upperclassman at Texas Tech found a freshman's date book and used same in meeting several numbers marked "cute." Now he is looking for the freshman.

PROGRESS: W. T. has been ahead of many of the big universities for 30 years. For many big schools have just now abolished smoking in the main buildings.

Curious note: A 10-year-old girl was the first enrollee when Hardin Simmons opened in 1890.

Statisticians at Texas Wesleyan College reveal that a majority of co-eds there are bow-legged. The Health Center here declines to assemble such data.

Found in copy-drawer: This would be much better if it were two lines shorter.

While browsing in other college papers, I find many mentions of special trains. We can entrain for Hardin-Simmons if 150 of us put up \$5—in advance. Or if 250 of us put up \$4.40—in advance. The question is: Can we make up our minds—in advance?

SURVEY. . . . An average of forty-two youthful hearts go pitty-pat from five until six o'clock each afternoon at Cousins, according to a check on the telephone conducted by Torchy Walker. This would conclude that Betty Co-ed tabs long phone conversations, these only averaging one minute and twenty-six seconds.

THE CURSE OF CONVENTIONALISM . . . is being abolished in the speech departments "green room." To be a little radical they've started a bulletin board for "Veterans of future Wars," but since this is the stronghold of the American Legion, this column will in the future conduct, "The American Legionnaire 1944."

Breathes there no man with soul so dead
Who hath never stopped and turned his head
And to himself hath softly said
NOT BADI!!!

EX-STUDENT

POSTOFFICE

By Jenna V. Stephenson

Industrial research is the field in which E. B. BROWN, an ex-student of the World War years, has made a conspicuous success. After ten years in New York City, he now lives in St. Louis where he is employed by Anheuser-Busch to work exclusively on yeast, malt, and cereal products. Mr. Brown states that he considers his laboratory and experimental bakery the best of its kind in the industrial field anywhere. After leaving W. T., Brown graduated from Yale. He has one son, Elmer, Jr., now 13 years old. Brown's hobby is gardening and he has been growing fine dahlias for years.

AUSTIN CONE, '38, is running a sandwich shop at Buena Park, Cal. That's one ex who knows where his next meal is coming from.

HARRY E. KELLY teaches diversified occupations in the Pampa high school. Dozens of his pupils are in all kinds of non-pay positions over the city learning what is required in various places and trying to make up their minds what they want to do when they are out of school.

MARGERY TANKERSLEY, '38, junior class sponsor at Kress where she teaches history and commerce.

MATTIE JORDAN, bride-elect of Ray Axtell of Spring Lake, has been the honoree at numerous social functions in Plainview lately. VIRGINIA HOHLAUS, '38, was one of those who entertained for her. The wedding is to be October 18.

A. L. PATRICK, formerly principal of the Sam Houston school in Pampa resigned last spring to go into the grocery business.

W. T. exes really get around! We have proof of it too! This summer Mitchell Jones, professor of education, was enrolling at the University of California. He is quoted as saying that he met twenty-three exes from W. T. and there were others there whom he did not see. Mr. Jones is working on his Doctor's degree for Education and Psychology.

Another proof of the same comes from Miss Edna Graham, associate professor of mathematics who went on a summer tour to Alaska. She had taken books from the Canyon library with her to read, and having completed them, went to the post office at Valdez, Alaska to mail them home to Canyon. The post mistress exclaimed, "Canyon, Texas? Why, I went to school down there in 1926!" She was Mrs. Nancy Sanderson Meals, who went to school here in 1917, 18, and 19. Nancy Sanderson, as she was then, taught on the South Plains, and in 1926 attended school here for another year. She later went to Alaska.

Death of Student's Relative Points to Museum Exhibit

A second circle has been drawn around a marriage license of the first couple wed in Hemphill County which is in the Panhandle-Plains Museum.

It is the license of Sylvania and George Simpson—grand parents of Dorothy Simpson, a junior from Canadian. Mrs. Simpson died recently.

The late George Simpson was an early buffalo hunter in the Panhandle.

Several former students have written M. A. theses on the early Panhandle, utilizing information received from Mr. and Mrs. Simpson.

Museum Visitors Number 200,000

More than 200,000 persons have registered as visitors at the Panhandle-Plains Museum and of these more than 11,000 have come since July 1.

Last Sunday there were visitors from many counties of the state and from Arkansas, Pennsylvania, New York, Oklahoma, Colorado, Louisiana, New Mexico, Illinois, Iowa, Michigan, and California. Many foreign countries are represented among the visitors each year. The registration book last week showed a total of 202,937 guests.

It is pointed out frequently by scientists that the museum is unique and distinctive in that it has unusually complete exhibits on the history of this region, collected within the lifetime of the first white residents. Through the work of Floyd V. Studer, the late Prof. C. Stuart Johnston, J. Everts Haley, Prof. L. F. Sheffy, WPA scientific crews, College staff members and students, and the benevolence of hundreds of plains residents, the museum contains a complete picture of ancient and modern life in this section.

Students now working at the museum include Faye Trammell of Rule, Elsie Thompson of Canadian, Charlotte Buchanan of White Deer, Artie Lee Smith of Alanreed, Forrest Howard of Miami, and Ozzie Malloy of Plaska. Wayne Christian of Vega, a graduate student, is in general charge and is supervising completion of laboratory projects. WPA workers supervised by Mrs. Johnston are continuing to enrich the museum and build displays.

Former PHSPA Officers in W. T. Now—New Officers Plan Convention Here

Pictured above are last year's officers of the Panhandle High School Press Association, each of whom is a freshman at W. T. this term. Left to right, they are Miss Dorothy Jane Day of Pampa, Miss Charlotte Buchanan of White Deer, and Miss Renna Beth Bellah of Canyon. The high school press group has its permanent headquarters here. Plans for the 1940 convention were started yesterday by the new officers.

Changes in contest rules, made to provide more equitable competition and increase interest, were made by the executive board of the Panhandle High School Press Association in a meeting at Amarillo recently.

The Association is sponsored by the division of Journalism at West Texas State, and has its permanent headquarters here. Olin E. Hinkle, director of journalism, is its adviser.

Awarding of cups will be discontinued by the Association, and instead winners will be given engraved plaques. Names of winners will be engraved on the plaques each year until all space is used, then the plaques will revert to the Association and will be placed on display at its headquarters here. This ruling applies to contests for best sports story, editorial, column, feature story, and news story.

In the newspaper division, a rating-criticism system will replace the contests, the officers decided. Plans were started for the annual convention here February 3. One

ka to teach and was made post mistress at Valdez in 1932. Her hometown was Plainview.

And back from Alaska to South America! Miss Darthula Walker, instructor of geography at W. T., ran across another ex in Rio de Janeiro. Ruth Anderson, close friend of Miss Helen Hickman, college nurse, was given a temporary position as executive in command in one of the Methodist Mission schools in Rio when another teacher was allotted her vacation leave for one year with full pay. Miss Anderson has been teaching at Porto Alegre.

or two main speakers will be sought, but student speakers will be heard at sectional meetings.

At the Amarillo meeting were Miss Joan Shouse of Borger, president of the Association, and Miss Dorothea Martin, journalism sponsor; Miss Bernice McClellan of McLean, vice-president; Miss Burton, substituting for Miss Laura Lou Ferguson of Canyon, secretary-treasurer, and Mrs. Tommie Montfort, journalism sponsor; and Mr. Hinkle.

Campus Activities

Girls of Cousins Hall met last week and elected new officers for the coming year. Margaret Esther Hill of Amarillo was elected president. Others selected were: Vice president, Margaret Deal of Amarillo; treasurer, Doris Davis of Amarillo; social chairman, Marrie Lee Clay of Pampa; vesper chairman, Ruth Clay of Pampa; refreshment chairman, Dorothy Grigsby of Quail; annual representative, Nell Green of Canyon; and Prairie reporter, Hazel Bath of Pampa.

During Freshman Week at Cousins Hall, freshmen were compelled to do many unpleasant things. One of the most commendable things done, and upperclassmen might take notice, was to learn "Alma Mater" and "Buffaloes."

Other duties were, eating dessert under the table, carrying books in a pillow case, wearing signs and having fifty boys to sign them, wearing shoes around the neck, wearing hairnets and no make-up, and sucking all-day suckers.

At a meeting of all Randall Hall girls September 27, the following officers were elected: President, Gaynelle Douglas; vice president, Mary Helen Stalls; secretary-treasurer, Virginia Lee Hussey; social chairman, Ferne Fry; Prairie reporter, Wynona Bomar; annual representative, Edythe Shearer; and vesper chairman, Mary Byerly.

Plans for a coming party were discussed and other business attended to.

Special guests at Randall Hall this year have been, President and Mrs. J. A. Hill, Dean and Mrs. R. P. Jarrett, Mrs. Geraldine Green, Miss Hattie M. Anderson and Miss Jennie C. Ritchie.

Randall Hall had their first vesper service Tuesday night, October 10. Miss Jeannette Young, the new Episcopal student worker at the Little House of Fellowship, gave the devotional.

Sorority Pledge Vows Taken Last Week

Six new pledges of Delta Zeta Chi sorority were given pledge vows last week.

Pledges taking the vows were: Virginia Good, Canadian; Dardnella Whatley, Groom; Janice Kendrick, Moody; Ernestine Cundiff, Littlefield; Jane Boone, Lamesa; and Frances Miller, Plainview.

Pledges for Gamma Phi sorority took pledge vows last week, and received their pledge pins.

New pledges for the semester are Lena Snitker from Morton, Mary Jo Horn from Floydada, and Frances Hoskins from Spearman.

PI Omega sorority initiated four girls at their official pledge ceremony Thursday night at the home of Coystal Tabor.

The four pledges are: Mary and Virginia McGowan, sophomores, Anton; Marion Miller, sophomore, Canyon; and Mary Ruth Curl, sophomore, Amarillo.

Pledge vows were signed, and each girl received a PI Omega pledge pin with the club shield and Greek letters on it. Duties were assigned, and each girl chose a big sister from among the members.

Hour of Prayer" were sung by the girls with Miss LaNelle Scheihagen accompanying at the piano.

First formal dinner at Randall Hall was Wednesday night, October 11. Each table was centered with a bouquet of yellow marigolds.

The program consisted of a song "Neopolitan Nights" sung by Miss Jane Williams, junior from Clarendon and Louise Crumacker, freshman from White Deer. Frances Deen Carmichael, freshman from Miami, accompanied at the piano and played a medley of popular numbers.

Special guests were Dr. and Mrs. Harris M. Cook, and Mr. and Mrs. C. A. Murray.

Friday the thirteenth does not seem to be so unlucky. The thirteen members of Kappa Tau Phi eluded superstition last Friday night, October 13 by sponsoring an all-college dance at Cousins Hall.

A ladder was placed at the entrance to the ball room. The superstitious evaded it while the unsuperstitious flaunted their bravery by walking under it.

Mrs. Geraldine Green and Miss Florence McMurtry, club sponsor, were special guests. The group presented Mrs. Green with a huge bouquet of bronze chrysanthemums.

Raymond Raillard and his Majors in Swing furnished background for the superstitious with their music.

PROF. PHILLIPS CALLED TO O. E. S. BOARD SESSION

Prof. Frank R. Phillips will go to San Antonio Saturday to attend a meeting of the board of the Texas Order of Eastern Star, of which he is a member. The board will make up the budget of the Order and of the Home for Aged Women at Arlington. He also will attend a session of the grand chapter.

Hibbetts Back From Accountants Meeting

Prof. Robert J. Hibbetts of the West Texas State department of business administration was among the Panhandle residents attending the San Antonio convention of the Texas Society of Certified Public Accountants last week.

This meeting, held in conjunction with that of the Texas Association of College Instructors of Accounting, was addressed by many outstanding educators and accountants. Prof. Hibbetts said on his return, "The Undergraduate Curriculum for Accounting Major" was the theme of the educators' gathering.

All discussions were timely and many of them were directly applicable to accounting problems in this section.

Prof. Hibbetts is one of the few college instructors in Texas who have the C. P. A. rating.

D. A. R. ENTERTAINS

Esther McCrory Chapter, Daughters of the American Revolution, entertained at Cousins Hall recently with an afternoon tea program. Mrs. G. Don Bowie sang and Dr. Baxter M. Geeting gave a reading. Hostesses for the occasion were: Mrs. Geraldine Green, Miss Florence McMurtry, Mrs. J. S. Humphreys, Mrs. Clyde Warwick, and Mrs. Tom Knighton.

Salesman: Here we are, the latest things in homes.

Prospect: Eh?

Salesman: Yep, garage for three cars with built-in living rooms.

Mable: Does it make any difference on which side I sit?

Alford: No, I'm ambidextrous.

Members and Pledges Of Girl's Clubs Entertained Monday

Delta Zeta Chi sorority entertained the other sororities on the campus and their pledges, with a bridge party, Monday afternoon from 4 to 6 o'clock. Bridge was played in the Red Room of Cousins Hall.

Members of Delta Zeta Chi are Ernestine Ballard, Maurine Hoyle, Maxine Hoyle, Mary Helen Stalls, Eula Paye Foster, Virginia Lee Fortenberry, Mary Collins, Kay Sawyer, Shirley Ann Oliver, Cleo Bourland.

Pledges are Dardenella Warley, Virginia Good, Janice Kendrick, Frances Miller, Jane Boone, and Ernestine Cundiff.

Twenty Attend Y Regional Conference

Twenty members of the local YW-YMCA attended the regional conference at Lubbock Saturday and Sunday.

The theme of the meeting was "Finding the Campus's Place in the Community." Dr. D. F. West, a Christian minister, was the principal speaker.

The Amarillo Junior College, Texas Tech, and W. T. were represented.

Those attending from W. T. were: Laverne Savage, Carolyn Holt, LaNelle Scheihagen, Margaret Dixon, Wynona Bomar, Jerry Montague, Walter Edwards, Robert Miller, Aylene Gates, Dorothy Simpson, Ruth Elene Boyd, Mildred Schuman, Gaynelle Douglass, Frances Campbell, Lella Louder, Anita Cleland, Miss Matye Swayne, Jennie May Elliott, Mildred Lust and Louise Cleland.

Weddings Among West Texas Exes

Announcement has been made of the approaching marriage of Miss Marjorie Buckler, daughter of Mr. and Mrs. O. P. Buckler of Pampa, to Ben H. Guill, of Amarillo, son of Mrs. H. H. Guill, of Pampa.

The marriage will take place October 29, at 4 o'clock with Bishop E. C. Seaman of Amarillo and the Rev. R. K. Snell, minister of St. Matthew's Episcopal Church of Pampa officiating.

Miss Buckler attended Pampa high school and Hockaday School for Girls in Dallas from which she was graduated in 1934. Later she attended Mills College in Oakland, California, University of Texas, and University of Colorado.

Mr. Guill was graduated from W. T. S. C. in 1933, and was formerly a teacher in the Panhandle, Amarillo, and Pampa schools. At present he is operating the Royal Crown Bottling company at Amarillo.

Miss Theresa Stamps became the bride of Doyle Chapin of Friona at 4 o'clock Sunday afternoon. The ceremony was read by the groom's father in the home of the bride's parents. Several relatives and friends of the couple attended the wedding.

Mrs. Chapin was graduated from Groom High School and attended W. T. last year.

Opal Snitker Heads Church School Class

Opal Snitker, junior from Morton, will serve as president of the Euzeilian Sunday School Class of the First Baptist Church.

Other officers are: First vice-president, Lena Snitker; second vice-president, Lucille Jameson; third vice-president, Clarice Whitten; group captains, Ariene Jolly and Jean May; secretary, Adele Harrell; assistant secretary, Carlee Wirt; reporter, Mary Ella Davis; and teacher, Mrs. T. C. Gooch.

MRS. MONTFORT TAKES OFFICE

Mrs. Tommie Montfort of West Texas State was named vice president of the Llano Estacado chapter of the American Association of Spanish Teachers October 14 in their meeting at Wayland College, Plainview. Representatives of the meeting included those from Lubbock and Plainview High Schools, Texas Tech, Wayland, and West Texas State.

MILLER RECEIVES GIFTS

Robert Miller of Olton, was presented with a red letter Bible, four ties, and six dollars by the Methodist church of Hereford, recently. Mr. Miller worked in the Hereford community during the summer for several weeks. He is a sophomore and a speech major.

The flying course offered at Northwestern, Alva, Okla., by arrangement with the Civilian Aeronautics Authority has made definite plans to insure the immediate enrollment of 20 students with a possibility that 10 per cent of the quota may be girls.

COLUMBUS DAY SPEAKER

Mrs. Geraldine Green, associate professor of English, spoke on Columbus Day at the San Jacinto Kiwanis Club, Amarillo on October 12. She showed an interesting collection of dolls from the various points visited and named by Columbus.

New Fraternity Pledges Are Announced

Alpha Sigma Xi fraternity has announced pledges for the first semester. They are: Jim McCray, Panhandle; Ed Lewis, Panhandle; Perry Landers, Higgins; Bob Roberson, Abilene; and Lathan Jackson, Moran.

New pledges for Tri Tau fraternity have been announced for the first semester.

Pledges are: Zandel Boucher, Childress; Bob McKenzie, Panhandle; Noble Lyde, Childress; Rodney Rogers, Amarillo; and Charles Murphy, Clarendon.

Epsilon Beta, announced six pledges for the current semester. They are: Neville Bramar and Carlos Briley, Amarillo; John Toles and B. Raymond Evans, Happy; L. B. Floyd Ralls; and Hollis Bledsoe, Westbrook.

Officers of the club are: President, Louis Cole, Pampa; vice president, Bill Harris, Claude; secretary, James Harrison, Panhandle. Pledges recited pledge vows Wednesday night.

Shearer Is T Anchor Prexy

The T-Ancor club met Friday and officers for the 1939-40 term were selected.

Officers elected were: President, Cecil Shearer; vice president, Warren Driver; reporter, Curly Wiley; secretary-treasurer, Crawford Kiker; and sergeant-at-arms, Raymond Wagoner. The four seniors were unanimously made advisers, and a social committee was appointed. Orville Hays is farm superintendent.

HOME COMING--

(Continued from page 1)

the art room.

Vote on Queen

Voting on the favorite ex-student couple will be held during registration.

Prominent ex-students in each county have been asked to call meetings at which candidates for Homecoming queen will be selected. Award to the most popular ex-student couple will be a painting which will be painted by Mrs. J. A. Hill. Mrs. Hill will prepare a special one for this prize.

"Singing through the years" will be a pleasant activity of returning ex-students at a general assembly program. The program will be given at 10:30 a. m.

George Stokes of Plainview, College baritone, will lead the singing of songs which were familiar on the campus in earlier years.

Homecoming ex-students will compete for many awards, and among them will be prizes for the best limericks submitted to the department of English.

The contest has no serious purpose, but may afford some diversion to alumni verse-makers.

Jump and Jive On Amateur Side At Dancing Club

Under the sponsorship of Mrs. Geraldine Green, and led by Marcelite Reid and Dusty Brown, a Dancing Club for W. T. students got started in a big way last Monday night.

This club, primarily organized for the purpose of teaching freshmen how to dance, is now open to all college students who are interested in learning new steps and dances. It meets every Monday night at 6:45, and membership dues are a nickel each meeting.

Cushing, a Novelty And Tenor, Has Had Alien Trouble

Cushing-Hutton turned out to be Mr. and Mrs. Cushing.

Presenting a concert here Thursday morning, Mr. Cushing, a Canadian, was quite a novelty as well as a tenor. For fourteen years he has had more trouble than he had being accepted here by his student audience. For that many years he has been trying to get his naturalization papers, and occasionally has been pointedly questioned as he traveled in and out of the country.

Indian Love Call is the most popular number from the company's repertoire. Using electrical transcriptions to accompany the voices was originated by the Cushings three years ago.

The Cushings will remain in the Southwest for about five weeks, before returning to Chicago. They appear in Albuquerque Thursday afternoon. This was the first in the lyceum series.

Miss Jennie C. Ritchie and Dr. Hattie M. Anderson were guests of Marthan Richie and Ulane Zeek Sunday at Randall Hall.

Bufs Face OCU Goldbugs Friday Night

Student Rally On Thursday 7 a.m.

Bufs Have Dropped One and Won One In Grid Season Battles

A mass student rally Thursday morning in front of Burton Gymnasium will give the Buffaloes a send-off to Oklahoma City where they will tackle the Goldbugs Friday night.

The West Texas State eleven coached by Al Baggett and Jack Curtice had an open date last week. Their record shows a 19-0 loss to Arizona State at Tempe, and a 35-0 triumph over Western State College of Gunnison, Colo., on the local field. Arizona State is a high-flying outfit which has beaten other opposition just as badly as the Bufs—or more so.

The Goldbugs looked strong in beating Austin College 13-6, but slipped the following week and dropped one to Texas Wesleyan, 19-0. In the last two weeks, O. C. U. has fought to scoreless ties with Fort Hays, Kans., Teachers and Southwestern Oklahoma State at weatherford. A tight defense will get a major test when the Buffaloes' great passer, Flippin' Foster Watkins, turns loose his darts.

The probable Buffalo starting lineup is as follows:

Left end, Johnson; left tackle, meek; left guard, Lockhart; center, Ricketts; right guard, McLaury; right tackle, Childers; right end, Co-Capt. Kendrick; left halfback, Co-Capt. Matney; right halfback, Sanders; quarterback, Watkins; fullback, Price.

Sanders, after correction of a tooth ailment, is expected to reveal his speed this week. He has fully recovered from a leg bruise.

With the ledger showing one defeat and one win, the Buffaloes rested last week. Losing to Arizona State 19-0, at Tempe, they rebounded with a 35-0 victory over Western State College here.

Their next game is against the Oklahoma City University Goldbugs Friday. In a game with Fort Hays State at Hays, Kansas, the Sooners fought to a scoreless tie Saturday. They have dropped games to Austin College, 13-6, and Texas Wesleyan, 19-0.

Arizona State stayed in the undefeated list by defeating California Poly, 35-0.

Other West Texas opponents appear to be strong, but others look lost. Arkansas Tech beat Kansas State College of Pittsburg 25-13. Texas A. & I. beat Sul Ross State 26-7. The Hardin-Simmons Cowboys took Texas Mines, 12-0. St. Mary's University of San Antonio lost their first game of the season to the Toledo University, 20-12.

The Bufs will play St. Mary's on Homecoming Day, Oct. 28.

College Golf Course Greens in Good Shape

Captain W. E. Lockhart reports that the College golf course is in excellent shape, including the greens and tee boxes.

Two boys regularly oil and drag the greens and pack the tee boxes. All students who have paid their activity fee are eligible to play on the course free. Score cards may be obtained at the number one tee box.

Official Notices

All-College night will be held next Saturday night with the game division in Randall Hall, and the dance in Cousins Hall. Ten cents will be charged for admittance to the games, and twenty-five cents for stags and ten cents for couples will be the tax for the dance.

The open swim period for girls will be held on Tuesday afternoon at 4:30 instead of Monday afternoon as previously announced.

Students from Lamb County will meet in Room 116 Tuesday afternoon at 4:30 to organize a county club.

Tickets to the Texas University exes' banquet may be purchased from Dr. B. F. Fronabarger on or before October 18.

The Prairie staff will meet this afternoon at 3:30 in the Publications office.

Type High will meet at 12:45 Wednesday in the Publications office to select officers for 1939-40.

Star Mourned

Cagle Teague of Childress, one of West Texas State's most beloved ex-students and a former star Buffalo fullback, died Saturday of infantile paralysis after a short illness. (Story on Page 1).

Tennis Squad Will Have 2 Lettermen

With two lettermen returning, tennis prospects for the 1939-40 varsity squad are becoming bright. Frank Kelly, junior from Panhandle, will fill the number one position on the team and Glen Milner, sophomore of Canyon, is expected to fill the number two position.

There is some difficulty in arranging a fall schedule, but Coach W. E. Lockhart expects to complete one shortly. Several trips are being planned.

New material which is shaping up well includes J. L. Burt, Jr., of Wellington; Vernon Casey of Pampa; Avon Garland Carter of Plainview; and Wayne Coleman of Lockney.

"Popeye" Williams Is Buffalo "T" Prexy

Leon "Popeye" Williams of Shamrock was elected president of the Buffalo "T" Club, after Jack Edmondson of Memphis resigned to become president of the senior class. Ernest Schur of Vernon is secretary-treasurer.

Foster Watkins of Dumas was voted the best player in the game with Western State; J. P. Meek best blocker-tackler; pass interceptions, Jesse Cornell of Clarendon, Carl Matney, Fairy Hill of Canyon, Dalbert Barron of Borger; recovered fumbles, Meek, Watkins; best blocker-tackler in backfield, Matney. Bert Levy of Amarillo gives a best-player award after each game. Players choose the recipients.

Ladies, Make Your Legs Behave! If you want to be graceful and attractive you should see these photographs and read what Hildegarde Dolson has to say on this topic of interest to women—and men. An entertaining and instructive feature in The American Weekly, the magazine distributed with the Sunday Chicago Herald-American.

Sanders Splash To Win Swim Contests

Sanders House carried away top honors in the intramural swimming contest Friday evening in the indoor pool.

Their only opposing team was the Epsilon Beta fraternity, and Sanders House had no trouble in winning all the events.

Crisswell, H. Gordon, Flowers, and Clifton, swimming the two-hundred yard relay, won easily over the Epsilon Beta team, composed of Bremer, Bledsoe, Harrison, and Bailey.

In the eighty yard breast-stroke, Clifton of Sanders House outclassed Bledsoe.

Harrison, swimming the eighty-yard back stroke for Epsilon Beta, failed to complete the race, won by Sharmar of Sanders House.

The fifty yard race was the best of the evening with Graves of San-

ders House finishing in thirty-nine seconds to beat Briley.

Crisswell of Sanders House won the one hundred yard free-style without competition; G. Gordon took over the 220 yard race for Sanders.

The Sanders House team massed forty-eight points as compared to eighteen for Epsilon Beta.

In a close decision Ballard Graves nosed out Warren King to clinch the intramural diving contest Friday afternoon. Hollis Bledsoe, representing the Epsilon Beta, was third.

Graves and King were representing the Sanders House.

The judges, E. C. Carver, Dan Hemphill, and Ray Steele are varsity swimmers and represented the College at the Roswell swimming meet last year.

Out-In-Town Team Wins Volley Opener

The women's intramural volleyball tournament got off to a good start Thursday evening when the Out-In-Town team beat the Kappa Tau Phi entry 15-0 in the first game and 15-1 the second.

Cactus Lodge barely won over Cousins Hall. The scores for this match were 17-15, 2-15, 15-11. Competition is expected to be greater than in last season's tourney.

All games will be played in Burton gymnasium, and will start promptly at 7 o'clock.

Shocking Cures. The blind girl whose sight was restored by a bolt of lightning. Amnesia victims who regained memories when hit on the head, and other instances when shocks succeeded after physicians failed. Read this illustrated feature in The American Weekly, the magazine distributed with next Sunday's Chicago-Herald American.

Lena Snitker Is Football Queen

Lena Snitker was elected Wednesday afternoon by the Buffalo "T" Club to be the football queen for 1939-40. She is a junior from Morton and a pledge to Gamma Phi Sorority.

Four attendants to the queen, one from each campus sorority, also were elected. They are Mogie Routh, Pi Omega; Jerry Daniels, Gamma Phi; Eula Fay Foster, Delta Zeta Chi; and Lillian Chambers, Kappa Tau Phi.

Miss Snitker will be crowned as football queen at the game Homecoming Day, when the Bufs will play St. Mary's University from San Antonio.

Each Hunter College (in New York City) student spent an average of 1,650 hours riding subways during his four years in college.

Spitzbergen is the most northerly inhabitable land in the world.

Sports Parade

Dropping all preliminaries and getting down to the question facing W. T. . . . The Buffaloes play their third game this week-end at Oklahoma City and the question is: "How tough are the Goldbugs?" Texas Wesleyan swamped the Goldbugs to the tune of 19-0. Last year the Buffaloes beat the Goldbugs 13-7. By the dope sheet then a victory by two touchdowns is predicted.

When the Buffaloes invade Oklahoma City to take the Goldbugs, they had better beware of 175-pounder by the name of Cahill. Oklahomans say he is dynamite.

Kansas State, who fought the Bufs to a 13-13 finish last year is, reports their coach, definitely stronger this year, but we'll find out when the far traveling Bufs journey to Pittsburg on Nov. 4.

Speaking of far traveling teams, the Bufs will play the Rattlers of St. Mary's at Homecoming. The Rattlers have traveled 5,000 miles to their first three games and incidentally they are the team who upset the dope bucket by beating the University of San Francisco Dons 7-6. They stomped Daniel Baker to the tune of 27-0 and then surprised the dope experts by defeating the mighty Musketeers of Cincinnati 6-0. St. Mary's has traveled from coast to coast and from Canada to Mexico four times in as many years and have traveled more than 40,000 miles since 1936. . . . The victory of the Rattlers over Xavier was the second upset and third straight win for the rambling Rattlers this season. They started the Xavier game on the short end of 4-1 odds. St. Mary's leads the Alamo conference.

| Alamo Conference Standings (Including non-conference games) | | | |
|--|-----|------|------|
| College | won | lost | tied |
| St. Mary's | 3 | 1 | 0 |
| A. & I. (Kingsville) | 2 | 1 | 0 |

| Sul Ross State | 0 | 1 | 1 |

Clipped from The Industrial Col-

legian—South Dakota A. & M. While we're speaking of State's future rivals, we might mention that West Texas State trampled on Western State (Colo.) 35 to 0.

Texas A. & I. defeated Sul Ross 26-7 last week. Both teams are in the Alamo Conference and are future opponents of the Bufs.

Looking over the only battlefield that we have in America, the gridiron, we see that again TCU was slightly upset in the game with Temple, losing by a score of 13-11.

The Betas say they are going to win the Intramural six-man football contest. They have two former Amarillo letter-men on their team, but then.

Long Island University has a halfback who has played football for Notre Dame and Alabama.

Do you go in for 10-year cycles? The Notre Dame football team was undefeated in 1909, 1919, and 1929. So what? Well, this isn't 1938.

A. F. Johnson, star Northwestern U. halfback in 1898 was selected on the all-American team, but did not learn of the award until 41 years later.

Buffaloes Make New Year's Resolutions; Will Be Scholars

By Mary Nell Jennings Residents of Buffalo Courts, dormitory for W. T. athletes, have adopted rigid regulations governing study periods.

From 7:30 to 9 p. m. on Mondays, Tuesdays, Wednesdays, and Thursdays is observed as study hours. During this time no radio playing or visiting is allowed.

A resident not passing in his work must remain in his room during the quiet hour until he has attained a passing grade.

Assistant Coach Jack Curtice, manager of Buffalo Courts, says the athletes are sincere in their desire to maintain a creditable scholastic standing and to make records which will help them to obtain employment when they leave college.

Fourth Fencing Practice Ends With Hot Chocolate

With a round of hot cocoa the fencing class concluded its fourth practice Tuesday night. Miss Nan Roberts is faculty sponsor and member of the beginners class.

A saber match between Marvin Petty and Sam Burton was won by Petty, 8-7, and a foil match between Sam Thomas and Carolyn Greenway was won by Greenway 5-4.

Howard Saunders, coach, was unable to attend.

"Where You Always
Meet A Friend"

Chesterfield's
RIGHT COMBINATION
of the world's best cigarette tobaccos brings out the best features of each

All the fine American and Turkish tobaccos in Chesterfield's famous blend are known for some particular smoking quality... and the way Chesterfield combines these fine tobaccos is why you get a milder, better-tasting smoke with a more pleasing aroma.

That is why, when you try them we believe you'll say... *They Satisfy*

For your pleasure... *The Right Combination* of the world's best cigarette tobaccos
