

134 Degrees Given at Spring Commencement

Three Receive Master's Degrees

Dr. Henry Neumann Declares Security For Whole World Is Need At Final Exercises

West Texas State College awarded three Master of Arts degrees and 134 Bachelor's degrees June 2, in its 31st annual spring commencement.

Athol Brunk of Alamogordo, N. M., a graduate of Northwestern State Teachers College of Alva, Okla., wrote his thesis on "Percentage and Per Capita Cost of Major Budgetary Expenditures in Municipal Schools of New Mexico for the Year 1939-40."

Allen Kavanaugh of Wheeler, a graduate of West Texas State, did his research on "Why Teachers Are Discharged."

Mrs. Joe F. Coffee of Amarillo, a graduate of Trinity University of Wapakachie, wrote a thesis on "The Practicability of the Stanislaus System of Acting for General Use."

In the commencement address, Dr. Henry Neumann of Brooklyn declared that the only security left for an individual or a nation is a security for the whole world. Most conflicts, he said, grow out of narrow nationalism, which furnishes both the provocation and the perpetuation of strife. Graduation from college should open up a larger world, he added, in which understanding and respect for the citizen will replace persecution and mere toleration.

Democracy motivated by true religion is the answer to most of the world's troubles, Dr. Neumann said. He warned, however, that religion is a great intensifier, and unless properly directed will increase bigotry and intolerance. He called for a wisely guided democracy which will respect the dignity of the human soul and permit steadily grander horizons as the world advances in technical spheres.

Texas Colleges To Sponsor NYA Program

Austin, June 9.—Thirty-four Texas senior colleges and universities will cooperate this summer with the NYA State School Work Council in sponsoring an information program for the purpose of clarifying the procedures and functions of the National Youth Administration, J. C. Kellam, state NYA administrator, announced recently.

John P. Manning, chairman of the NYA State School Work Council, has invited the general public and especially Texas educators and sponsors of NYA out-of-school work projects to participate in the programs which will include short talks before secondary education administration classes, individual conferences with Council members and NYA field personnel, and open forum discussions.

Problems Desired

"Educators and sponsors of NYA work projects are urged to bring problems and questions concerning the operation of the NYA Student Work program and the NYA Out-of-School Work program as they apply to their schools and communities," Manning stated.

State Superintendent L. A. Woods and representatives of the various divisions of the State Department of Education have also been invited to participate in the programs.

Members of the NYA State School Council and representatives of the State NYA Office will attend the programs, Kellam said.

The president of each participating college has designated one faculty member to act as chairman of the programs.

Colleges and universities sponsoring the programs and tentative dates are as follows:

Schools Listed
Texas College of Arts and Industries, Kingsville, June 10-11; Southwest Texas Teachers College, San Marcos, June 13-14; The University of Texas, Austin, June 16-18; Southwestern University, Georgetown, June 19-20; Southern Methodist University, Dallas, June 20; University of San Antonio, June 20; Tilton College (Negro), Austin, June 23; Our Lady of the Lake College, San Antonio, June 21; Texas (See NYA, page 4)

Summer Faculty Reception Will Be Saturday Night

The annual summer faculty reception for students will be Saturday night at Cousins Hall at 8:15 o'clock. It is a formal program.

The receiving line will include heads of departments, administrative staff, visiting instructors, and wives. Dr. Harris M. Cook, chairman of the welfare committee, is completing arrangements.

Institute Short Course Planned

Seventh District of the Texas Federation of Women's Clubs Is Sponsor

An intensive short course designed to acquaint club women and others with nations south of the United States will be held at West Texas State College on June 25-27 under the auspices of the Seventh District, Texas Federation of Women's Clubs.

It will be called the Latin American Institute and will be combined with a Senior Club Institute on the last day. Club women who are assisting in plans for the institutes are Mrs. H. F. Godeke of Lubbock, district president; Mrs. W. N. Stokes of Amarillo, chairman of international relations; and Mrs. T. V. Reeves of Canyon, program chairman.

The geography, racial problems, social changes, resources, art, and politics of Latin American countries will be discussed by widely-traveled members of the college faculty. Lecturers will include Miss Darthula Walker, head of the department of geography; Dr. L. F. Sheffy, head of the history department; Miss Mary E. Hudspeh, head of the Spanish department; Miss Edna Graham, professor of mathematics; Miss Isabel Robinson, head of the department of art; and Prof. S. H. Condon, head of the department of government.

Scores of club women and others are expected to come here for the short course. Registration, meals, lodging for all sessions will be \$5, or registration for lectures only will be \$2. Single lectures will be 25 cents.

Motion pictures, an art exhibit, Spanish dances, recreation, and talks by Latin Americans will be added to the program.

Instructors To Convention

Miss Edna Graham of the mathematics department, Miss Darthula Walker of the geography department, and Dr. Hattie M. Anderson of the history department will attend the national convention of Delta Kappa Gamma in Minnesota.

The W. T. instructors plan to visit Montreal, Canada; Maine, and New York.

PHILLIPS JOINS FACULTY

Felix Phillips of Amarillo has joined the W. T. summer faculty for another session.

He is instructor for Education 262 and Education 321.

Construction Work On New NYA Dining Room Unit Continues

Stone hauled from a rock quarry north of Canyon is the material with which young men of the NYA vocational school are building their new dining hall on the campus. The native rock is being used not only for the walls, but for a large fireplace and the floors.

The floor of the dining room will be of solid stone cut to fit on a rock saw made by NYA workers. The kitchen will have partitions of tile. The building will be in the shape of a huge "T" with the dining room, 83 by 20 feet placed north and south. The kitchen and utility rooms will be east and west, 28 by 36 feet over all.

The work has been progressing slowly with only three boys besides the foreman on the job. Many of the boys have been away helping with farm work. Gus Miller, foreman, estimates that 30 or 40 more days will be needed for completion.

The dining hall interior will be

Popular Scientist Here Tuesday

Glen Morris Program Shows Importance of Recent Discoveries

Glen Morris, popular scientist, will be here Tuesday, June 17, for an illustrated lecture in the auditorium at 8:15 o'clock. Many interesting and important developments shown at the Century of Progress are to be covered in the outline of his speech and demonstration.

Employing the energies of nature, Morris introduces the audience to his show with a brilliant display of lightening in 100,000 volt flashes. Ten minutes of fascinating illusions, among which a picture revolving at 36,000 revolutions per minute, apparently standing still, will be featured. "You will see things that do not happen," those who have observed the phenomena, report.

Revealing the flexibility of electricity and the ease with which it can be changed into different forms, Morris will send 300 amperes of current across the path of the least resistance—melting railroad spikes—while the human body withstands the application of the same type of electricity.

Interspersing the serious and scientific portions of the program will be fifteen minutes devoted to unusual effects of physics, consisting of a comedy of rapid-fire stunts with the only forms of electricity that can be taken through the body in large quantities being utilized. Current at a quarter million volts flows over the body welding steel, lighting lamps, etc. A candle is lighted from a drop of water.

A unique feature of his program is a miniature broadcasting station carried about the stage or through the audience used to control apparatus on the stage. He demonstrates how ships and planes are controlled by remote control and the terrible possibilities of the improper uses of science in war.

Admission is by student activity ticket or 50 cents.

Former Student Is Rockefeller Grant Recipient

To the University of Michigan for a year's study will go Howard Batchelder soon to study in the field of teacher training. Mr. Batchelder, a graduate of W. T. in 1936, is the recipient of the Rockefeller Grant which is issued from the General Education Board of Rockefeller Foundations.

While on a leave of absence from the Mississippi State College for Women where he is a professor of education and social studies, Mr. Batchelder will complete work on his Doctor's degree by the end of the period.

Going with him will be Mrs. Batchelder who completed work here for her B. S. degree in 1934. She completed work for her A. M. degree at the University of Michigan in 1939.

Mr. Batchelder received his A. M. degree from the University in 1938. He has done two years of graduate study there.

Leona Vetesk, '35, has been teaching for four years at Palmer Lake, Colo. She is attending Denver University this summer.

President Gives WPA Assistance

Bill Still Pending As to Aid From Texas Legislature; Outlook Very Encouraging

Senator Grady Hazlewood telephoned Dr. Hill Wednesday that he had secured approval in the Free Conference committee on Educational Appropriations to include in the bill \$170,000 for a new Science building, and \$10,000 for the construction of the Museum. These items will likely be approved by the legislature, but approval by the Governor must be secured before the money becomes available.

Presidential approval was announced recently of a \$56,000 WPA project for construction of the main unit of the Panhandle Plains Historical Society Museum. West Texas State College is to provide \$36,239 for the project and the federal government puts up \$20,713.

A wire from Congressman Eugene Worley was received by The News after last week's issue was printed.

The Panhandle Plains Historical Society museum is unique in many respects.

It was the first museum to be built on a college campus in Texas and the first museum in this area. The inspiration of its dreams and efforts has resulted in the establishment of similar or smaller institutions at several points.

It is the first museum built by the people who were yet living to preserve the records, the culture and the story of their own lives and times. It was built by the pioneers of the Panhandle of Texas, pioneer cattlemen, farmers, doctors, lawyers, teachers, preachers, and just plain folks and lots of them.

The first wing resulted from the efforts of public spirited people spurred on by a small group of faculty members and students of West Texas State College who 20 years ago organized a historical society. Citizens of the Panhandle matched a \$25,000 subscription by the Texas Legislature and the first unit was built. In 1936 funds provided from the Texas Centennial observance plus local co-operation and the Works Progress Administration led to the construction of the basement for the main unit.

Since its opening people from all walks of life in West Texas have contributed to its growth and interest and have used it to the tune of several thousand visitors. The contributions have ranged from labor to large cash donations, from historical thesis to magnificent and priceless collections of material.

Thousands Contributed
The Federal government through various WPA and NYA projects has contributed thousands of dollars to the museum. It has one of the largest and finest collections of fossil material in the nation. It has been able through exchanges to furnish many important scientific organizations and universities with valuable material from this region.

Last year Judge J. D. Hamlin of Farwell agreed to donate his art, antique and Southwest library collections to the museum if suitable housing could be found. This offer resulted in the people being given another opportunity to show their interest in the museum. It was decided to start a drive for building materials and money for the main unit of the building and if possible when enough for the sponsors' share had been raised to seek WPA and State appropriations for the balance.

A campaign was started with five bricks and which thus far has netted 239,519 common brick, enough sand for all construction work and more than \$7,000 in cash and fees. More than 30,000 school children donated one or more brick and 452 individuals and organizations have made donations of from \$1 to more than \$1,000 each.

Museum Has New Reynard Exhibit

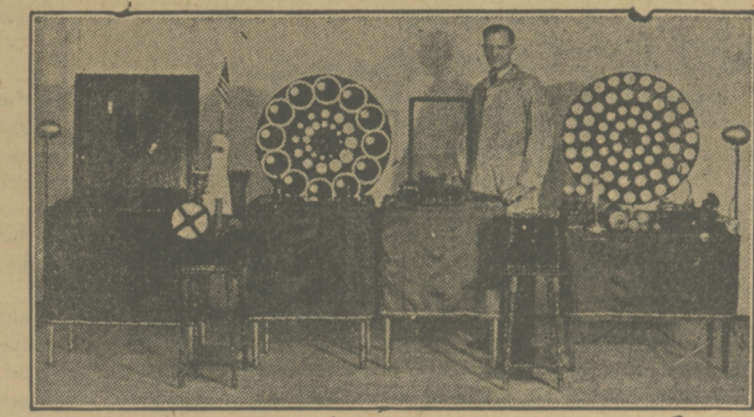

A collection of paintings by Grant Reynard of Leona, N. J., who is here as an instructor for the Palo Duro School of Art, has been placed on exhibit at the Panhandle-Plains Historical Society Museum.

Two of the pictures are incomplete ones to be finished at close of exhibition by Mr. Reynard. Many of the pictures are marked for sale. Included in the exhibit are: Pond in Winter, Quiet Afternoon, Old Stone and Trees; Ples Wren, Oklahoma; Vermont Landscape, Portrait of Nancy, Spring, Colt and Mother, Red Earth Through Trees, Fish Harbor, New England Green, Lady Singing, Beaching a Boat, and John Mariner.

TO TEACH AT DENTON

Prof. J. L. Duflot of the sociology department will teach at North Texas State Teachers College in Denton during the last summer period.

W. T. Summer Session Opens

GLEN MORRIS

Dr. Don Williams Returns For Audio-Visual Education Course

Assembly Tonight In Auditorium of Main Building

Students for the summer session will attend a first assembly tonight at 7:30 o'clock in the auditorium of the Administration Building. "Many important announcements will be made at this program," Dr. R. P. Jarrett said last week.

Faculty Forum Is on KGNC For Summer

W. T.'s faculty Radio Forum is scheduled to continue during the summer term.

Last night's discussion was the first for the new session. The subject was "Where is Roosevelt Leading Us?"

Taking part in the discussion were the following members of the W. T. faculty: Dr. A. Kirk Knott, Prof. J. L. Duflot, Dr. A. M. Meyer, and Dr. Harris M. Cook.

The discussion subject for Monday night will be the "Movies." Personnel will be Dr. Preston H. Scott, superintendent of speech in the Detroit public schools, Dr. Don Williams, audio-visual aids instructor, Dr. Conrad W. Freed of the speech department, and Grant Reynard of the Palo Duro Art staff.

Square Dancing Twice a Week

Square dancing on Monday and Friday nights at 6:45 to 8:30 o'clock will be held as a part of the summer recreational program in Burton Gymnasium.

Amarillo recreational groups will instruct students and townspeople. Dorothea Martin of Amarillo will be the instructor. An Amarillo WPA orchestra will furnish the music.

M. L. Simpson and Miss Hazel Evans of the education department are making arrangements. There is no charge for admission.

Staff Meeting For New Members This Afternoon

Students interested in working on the summer publication, The Prairie, should attend a staff meeting this afternoon at 3 o'clock in the office of College publications in the Administration Building.

The Prairie will be published in 10 issues during the current summer term.

The editor, Dan Hemphill, has explained that previous work on a paper is not imperative for summer students who wish to join the staff.

Dr. Osgood Visits West Texas State

Dr. L. A. Osgood, former W. T. English instructor, visited friends on the campus last week. He is currently instructor at Mississippi State College for Women.

BOB COX ON WAY TO COLUMBIA UNIVERSITY

Bob Cox, former freshman coach now teaching and coaching at Carlsbad, N. M., High School, visited the campus last week while en route to Columbia University for the summer session. With him were Mrs. Cox and Robert Edward, their 3-month-old son.

New Period Enrolls 608

Prospects Good For All-Summer Total With Two Five-Weeks

Enrollment in the newly inaugurated summer session consisting of two five-week terms had reached a peak of 608 students yesterday afternoon, reports from the registrar's office show.

Because of the nature of the new schedule, a comparison can not be made concerning last summer's enrollment. Last summer, the school was run on a nine week—three week basis, while the current sessions will be the two five-week ones. It is immaterial which period (or both) the students attend with regard to credit considerations, differing from last year.

The summer enrollment will probably be greatly increased upon commencement of the second term as a large number have voiced inclinations to attend.

Distinguished Visitors At P.-P. Museum

Distinguished visitors are welcomed to the Panhandle-Plains museum every week. Not infrequently some of these are from other countries.

More than 260,000 persons have visited the museum since 1933.

Recent visitors included several from the School of American Research and the Museum of New Mexico at Santa Fe. One of them was Miss Bertha P. Dutton, curator of ethnology at the museum in Santa Fe. Miss Dutton was field director for an archaeological expedition to Guatemala in 1938-39, and on earlier expeditions. In the same party were Mrs. Marjorie Ferguson Tichy, curator of archaeology and former instructor in the University of New Mexico; Miss Hulda Ruth Hobbs, curator of archives and frequent visitor to Guatemala; and Miss Jean M. Cady, secretary to Dr. Edgar L. Hewett, director of the American School of Research.

These visitors were highly enthusiastic about the work being done at the Panhandle-Plains museum.

Father of Mrs. Jarrett Is Dead

Funeral services for A. J. Howard, father of Mrs. R. P. Jarrett, were to be held in Acton yesterday afternoon at 3 o'clock.

Mr. Howard had been visiting here in the home of Dr. R. P. Jarrett, dean of the College, for about a month. He had been ill for several weeks and returned here for his health. He died Saturday night at 9:30 o'clock.

Mrs. Jarrett, Jim Howard of Dalhart, and Gus Howard of Dallas are the only surviving children. Billy Howard of Falls Creek, Hood County, is a brother living near Acton.

Mrs. Jarrett, Dr. R. P. Jarrett, Jr. and Virginia left Sunday to attend the funeral services. Dean Jarrett was unable to attend because of illness.

Fly Here for Graduation

Miss Nell Robinson, superintendent of the East Liverpool City Hospital, East Liverpool, Ohio, and Mrs. Eva C. Robinson of Harrisville, West Virginia, flew via TWA to Canyon for the graduation exercises June 2.

Miss Robinson is a sister of Mrs. Geraldine Green, dean of women, and an aunt to Nell Green, who was graduated by the College at the commencement. Mrs. Robinson is the mother of Dean Green. They returned to their homes Tuesday.

Criswell Gets Chemistry Laboratory Job

L. D. Criswell of Paducah has accepted a position with the Shamrock Oil and Gas Company at Sunray.

Criswell received a Bachelor of Science degree with a major in chemistry on June 2. He will work in the Shamrock chemistry laboratory. He is married.

Prairie Ads get results.

5th Column

"Words are things . . ."—Byron.

By Joe Crisler

Once more through these portals have entered hopeful youths, for their first time upon the threshold of a modern higher educational institution, in their endless quest for education, fun and frolic, social contacts, marriage, and what-not.

Again come others back to the institution for further knowledge, some for degrees, some for graduate work, some for teaching certificates, and for others it seems to have just become a habit. Then, too, perhaps some forlorn soul comes in the hope of meeting a long sought mate.

(The reader has by this time probably thought that this columnist is a youthful, slandering upstart without the least sense of diplomacy, but bear in mind that it is the policy of the 5th Column to expose and to express those feelings of truth, liberty, and freedom. —J. C.)

Regardless of the reasons these aspirants have entered these halls of knowledge, we bid you a whole-hearted welcome and wish to become your friend. Here's to you and to the new session. Here's to those who have passed on to other things, we bid you a fond farewell.

ALMOST CONFIDENTIAL

Already the campus is dotted with twosomes under the shade of the trees, whispering sweet nothings, and freshmen, too. Gee, but they learn fast.

Our editor got married week before last. A nearby newspaper in the June 4 issue stated that he would get married June 15. There's a law against bigamy.

ASIDES

"Panzer," as in "Panzer Division," means "armored" in German. As for "blitz" that means "flash of lightning."

"In God We Trust" motto on United States coinage is short for "It Is Better to Put Trust in the Lord Than to Put Confidence in Man," Psalms 118:8. As this would not fit on the coinage, Secretary of the Treasury Salmon P. Chase shortened it to the motto now used.

The White House at Washington was designed by an Irishman, James Hoban.

The weight of the full pack of a United States soldier is 65 pounds. Try walking a mile some time with 65 pounds on your back.

WHAT A MAN

Dusan Markov of Opove, Yugoslavia, got married and the newspaper men forgot the war for a little while. You see, it was his twenty-fifth marriage. All he could say was, "I am afraid I am fickle."

SIDELIGHTS

Now, I am asking you how can you tell whether a woman is a natural blond? Or a natural red-head? What better way is there to determine the character of female than by noting the kind of clothes she wears, her make-up, and the condition of her hands?

"In women's wear field, there has been an astonishing increase in the sale of sweaters," says a business item. The Lana Turner influence, no doubt.

COFFEE

We feel that the most abused item on the country's bill of fare is coffee. That which is called coffee in most places is a curious

Book Review Series Needed

With the announcement that a complete recreational program for West Texas State summer students is to be carried out, we are looking for an activity formerly on the summer program here but not now included.

Book reviews were popular a few summers ago. They are no longer included on the summer program, but not because there was lack of interest. Many came to the book review sessions which followed assembly session on Tuesday night. This might not have been the best time for the review; perhaps the afternoon period after classes might be more convenient.

It is certain that there is a need for more recreational programs of this type. There are many who can participate in this so-called recreation that would not be interested in the softball games.

Of course, the general demand is not necessarily for book reviews, but there is a need for a few more intellectual programs. And the attractive thing about using a book review series for this purpose is found in the fact that members of the summer faculty are eager to participate. This offers definite assurance of the program's success.

Homemaking Pupils At High School Meet Today

Homemaking students of Canyon High School are meeting today to complete plans for their group project this summer, which is the making of recreational equipment to be used next year at socials and at the noon hour.

Dividing into groups, some of the girls will work on the club scrapbook and yearbook, while others will devote their time to the recreational file, collecting songs, contests, and games for groups of different ages. All other students will work at the recreational center where they will make bean bag boards, box hockey, checker boards, darts, rope hoops, and jar ring games. Workers at the center will assist the girls.

New President

At a meeting of the local Future Homemakers of Texas Club Friday morning at the high school, Georgia Faye Holt was elected president. 23 of the 31 girls taking summer projects were present.

Other newly elected officers include Shirley Harrell, vice president; Pauline Winstead, secretary-treasurer; Martha Jean Dowd, publicity chairman; Martha Hannah Hammond, yearbook chairman; Anita Davis and Katherine Davenport, scrapbook chairmen.

culinary concoction carelessly conceived.

"Oh, coffee!" We heard a restaurant patron cry, "This must have been made in a tin can." And there was the man who said, "If this is coffee, bring me tea, and if this is tea, bring me coffee."

PASSING BY

"You're Only Young Twice" is said to be a book of very practical advice to women in their forties who want to make it appear they are in their thirties.

"Behind the Rising Sun," by James R. Young is an entertaining and enlightening book. Mr. Young is the American newspaperman the Japanese jailed because he said the Chinese could not be defeated.

I have written many lines that people have told me that they read somewhere else. But then, it is comforting to know that somebody really reads this column.

Freshmen Themes Show Attitude About Assembly and Spring

One of the things that a first-year student likes least about college is to have to do much theme writing. Here at West Texas, the teachers have a grand habit of making these themes as pleasing to the classes as possible. At the end of the nine-week period, most of the freshmen classes were required to write themes on subjects they selected. Some extracts of these papers have been compiled.

A girl who signed her name "An Energetic Freshman," wanted to form a window washing brigade because she wishes to know whether the dust is blowing or the sun is shining—and besides she likes to look at flowers and trees.

Perhaps the most common subject of all freshman themes concerns assembly. Some freshmen believe in compulsory assembly; others do not; and all have their reasons. One freshman boy proclaimed in his theme, that not only did he not like assembly, but he was pretty sure that the faculty did not either. Other freshmen said they believed meeting as a group twice a week was a good thing, since it is one of the few opportunities for contact between the faculty and the student body as a whole. Some said a student had a right to be noisy or to leave if the programs were uninteresting, but others disagreed and believed that anyone should have the common courtesy to remain quiet when someone else is speaking. This last group also believed that if students were quiet so that everyone could hear, more would enjoy it. Almost everyone agreed that with slight modification of procedure and more time spent in preparation for assembly, that compulsory assembly would not be objected to by the student body as a whole.

Themes on spring are predominant at this season of the year, but like most discourses on such subjects, these freshman writers admit that they are in love—and so love spring.

Hill Talked About Improvement Being Made on the Campus

President J. A. Hill spoke Tuesday at the weekly luncheon of the Rotary Club on improvements being made on the campus.

Geo. Stallworth explained the USO call for funds. \$500 is asked from Randall county for this fund. The government is building the necessary buildings for entertainment around the army camps, but has asked six welfare organizations to furnish the personnel to operate the religious, educational and recreational program. Soldiers leave camps as often as they can in order to get away from the military atmosphere. These organizations will furnish wholesome surroundings for the men while they are on leave. Keeping up the morale of the men is the fundamental mission of these organizations. Pointing to the experience of World War I, Mr. Stallworth believed that the present plan would be more efficient than the one of the first war.

Mr. Hill stated that about three-fourths of the property west of the campus had been bought for the college. It will take three or four years to clean off the houses. It was found that the houses could not be sold, as planned, so the houses or material must be used in some other way.

Work is progressing slowly on the addition to Randall Hall. When completed there will be room for 86 more girls. It has not been determined how the old president's home will be used.

No definite information has been received from the Free Conference Committee as to the appropriation bill pending in the legislature. Both houses of the legislature have provided for a Science building, and

A representation of an early scene in a pioneer camp is shown in a picture (above) of a diorama display in the Panhandle-Plains Historical Society Museum. This is one of the cases supplied by the Coronado Cuarto Centennial Commission.

WAR BABIES By Schlensker

"Can you imagine that? After I spent two years keeping that hussy away from him, she gets appointed hostess at the same camp he's in."

the Senate added \$40,000 for the completion of the Museum.

No funds are in the bill for repairs. No such appropriation has been made in 10 years, and no money has been provided to repair the Education building since its erection in 1928. \$25,000 each year for four years is needed to put the \$2,000,000 plant in good repair.

Dr. Hill stated that changes are being made in the future course of the college. Public health will be stressed starting this fall. The fact that 42% of the men examined under Selective Service have been found physically defective indicates that the schools have not been looking after the health of the pupils. Making better citizens, physically as well as mentally and morally, will be the aim of West Texas State in the future.

Visitors were, J. M. Carpenter of Canadian; Howard Lynch and Arch Hunsley of Amarillo.

RESIDENT OF KANSAS IN SCHOOL HERE

Miss Caroline Barber of Coffeyville, Kansas, is in school for the summer session and will graduate in August. Although she is teaching in Kansas, she plans to move to Texas.

She is a resident of Randall Hall for the summer, and she is a past president of the hall organization.

Every person is responsible for all the good within the scope of his abilities, and for no more, and none can tell whose sphere is the largest.—Gail Hamilton.

First Play Night To Start Recreation

Softball Always Big Attraction

Two Programs Each Week On Wednesday and Friday For Men and Women

West Texas State's summer "play-night" will get under way tomorrow night under the powerful lights of Buffalo stadium at 7 o'clock. Assistant Coach Leslie Van Meter is supervisor of the recreational nights.

These play nights caused much enthusiasm among summer students last summer, and a similar program is being planned for this season. Participation in all events by students is welcomed by Coach Van Meter, and he has urged as many students as possible to be present. Play nights will begin at 7 o'clock each Wednesday and Friday nights.

Games already scheduled for these events are volleyball, shuffleboard, paddle tennis, goal-high; and in addition to these, the swimming pool will be open every night except Sunday at 7:30 and will close at 9 o'clock. Goal-high is one of the new games to be featured this year. The rules are similar to those in basketball with the exception that it is played in a circular court and there is only one basket.

There will be two leagues in the baseball events—a major league and a minor league. Teams already entered in the major league are the Lions Club, NYA, Buffalo Courts, and Stafford Hall. At the present time, no team has entered in the minor league.

Events will be held for both boys and girls and all students are being urged to attend to "have the fun of their life."

Film Tells Of China's War Today

How China's 400 million people are today only just beginning to fight the invading armies of Axis-Partner Japan is shown in the latest March of Time film, "China Fights Back," which comes to the Olympic Theatre Sunday and Monday.

Although China has already suffered grave losses in her four-year-old war with aggressor-nation Japan, the March of Time shows, she is today mobilizing her full manpower and industrial resources for a new struggle to drive out the invader and re-establish her national economy.

Under Generalissimo Chiang Kai-shek, the first man in 800 years big enough to unify and direct the tremendous energies of the Chinese people, China was well on the road toward becoming an exemplary democratic nation when the war began.

In "China Fights Back," the March of Time shows how the Chinese people are today continuing their all-out effort to preserve their national independence and their free and democratic way of life.

Open Afternoons and Nights

Pictured above is a last summer's group of bathers at W. T.'s modern outdoor pool, which is open in the afternoons from 3:30 until 5:30 and at night from 7:30 until 9 o'clock.

Buffalo Lake Is Filled Thursday

Spillway Overflows At the Lake for First Time Since Dam Was Built in 1939

Water poured over the spillway of Buffalo Dam Friday morning for the first time since its construction two years ago. Water continued running over the spillway until the middle of the week, and the Lake is now full.

It is believed that the Lake will stand bankfull throughout most of the summer owing to the slow rains which soaked the valley above the dam before the big flood hit Thursday night.

The Lake covers 1800 surface acres of water, making this the largest body of water in Northwest Texas.

Buffalo Lake will be the mecca for boating enthusiasts during the season. More than 125 boats registered last year before the drought lowered the water. With the Lake completely filled, most of these boats will return for the season.

In spite of the fact that last Sunday was the formal opening day for two of the smaller lakes of the Panhandle, more than 10,000 people visited Buffalo Lake last Sunday.

WPA to Complete Canyon Street and Alley Topping

District WPA officials have indicated to Mayor C. H. Jarrett that work will start soon on finishing the topping project in Canyon.

The three alleys connecting the business houses were topped last winter but all of the topping was ruined by the freezes. This work will be done over when the project is re-opened.

Fifteen blocks on Second Avenue are ready for topping. The caliche base was completed last fall.

Federal money is available to complete this topping and it is indicated that WPA is anxious to complete this work in June and July.

Experience is the mother of custom.—Henry Ward Beecher.

The formal opening at Buffalo Lake is set for June 15.

Hundreds of fishermen have enjoyed the facilities of Buffalo Lake during the past month, with excellent success. In spite of the high water, fish are being hauled out of the Lake in large numbers.

The hard surface road from Umbarger to the government property has been of great service to the hundreds of daily visitors to the property.

Buffalo Wallow

"THERE AIN'T NO FLIES ON ME . . ."

GEHRIG STILL ON ROSTER

Lou Gehrig, the Iron Man of baseball, will still be on the Yankees' roster as far as the team is concerned. The 26th man won't be visible, but he'll be there just the same as he's been there in the past and his locker will remain a shrine as long as the Yankees play baseball.

HERE'S ONE

Joe Blenke of the Idaho Falls Post-Register says, "The Reds are losing with such regularity it looks like the experts had 'em sized up correctly last spring. They told everyone the Reds were the team to beat, and brother, that's what the other teams are doing."

CONN'S TRAINING

Eddie Brietz, syndicate sports writer says that Billy Conn was indicted in Pittsburgh for speeding without a license. That's one way to get in shape for Joe Louis.

LAUGH OF THE WEEK

Coach Jess Neely of Rice Institute stated, "I don't know if my high-scoring back, Bob Brumley, will be drafted, but if anybody gets up and testifies Bob hasn't got any dependents, they are sure mistaken. I know of some coaches out at Rice that can be placed in that dependent call, and no fooling."

LET'S SWIM

West Texas State's fine swimming pool is open to students, and Coach Leslie Van Meter is urging students to go in while the water's fine. This pool is one of the finest in this part of the country, and all you need is an activity ticket with a health certificate and the water is yours. It opens at 3:30 in the afternoon and 7:30 at night.

DID YOU KNOW

That Lou Gehrig played 130 consecutive games for the Yankees . . . that Maxie Rosenbloom has been recently signed for a featured role in "Ringside Muzie" . . . the New York Yankees' football owner was at College Station to watch big John Kimbrough graduate—could it be that they want him to play football? . . . that the Philadelphia Athletics are up on top in the batting averages and the New York Yankees are hugging close to the bottom.

Students Attend Camp at Hollister

Five students of West Texas State left today for Hollister, Mo., where they will convene two weeks with members of Young People's Christian Associations and Young Men's Christian Associations from many American colleges. This is an annual meeting.

Delegates from the local Student Christian Association include Miss Mildred Merchant, president; Melvin Kiker, vice president; Lucille Weast, co-director of the Freshman Fellowship Club; Sarah Thompson, and Carolyn Holt.

WORKING ON MASTER'S

Miss Mattie Devin, a W. T. graduate, is at Northwestern University, Chicago, where she will receive the Master's degree during the summer.

Fairway Is Clean--Golf Prospects Good

Golf should be a popular sport at West Texas State this summer, for the course is in good condition. Because of the recent heavy rains, every thing is green, and the fairways are in excellent condition. Heavy undergrowth mars some of the roughs and hazards, but these will be mowed, making it easier to find that lost ball.

The nine-hole course is a center of activity on holidays and weekends, and students find it excellent recreation when studies become boring and tiresome. Located only a short distance from the campus, it may be reached in a few minutes walking from any of the dormitories or residences in Canyon.

Considerate farmers keep the adjacent fields clean and comparatively smooth, so that those with a "slice" or "hook" will not be inconvenienced too much when their ball soars out of bounds and lights in a field across the way.

Golf is always a popular sport here during the summer session.

Department of Home Economics Shows Growth

From only three graduates, ten years ago, the Home Economics department has grown until this year, 26 girls were graduated. In 1937, when Miss Margaret Barrett, head of the department, came here, ten girls were given diplomas.

Approximately three hundred students are in the department. About 15 are boys, 45 are freshmen, and the sophomores and juniors have approximately 30 students each. One is a graduate student and 26 are seniors.

Vocational and Smith-Hughes preparation is taught and girls after graduation are given the Certificate of Approval, which allows them to work under the Smith-Hughes plan. Both Federal and State Boards of Vocational Education approve the work done in this department. Graduates have been accepted by other institutions, not only for advanced work, but as teachers. Girls graduating from this department may attend any graduate university or college without taking pre-entrance examinations.

Teaching is not the only vocation that majors in this field may enter. They may become Home Demonstration agents, Federal Security Supervisors, shoppers for department stores, demonstrators of home equipment or may specialize in other related fields. "The important thing is that Home Economics is a basis for homemaking and related subjects." The Kappa Omicron Phi is a national honorary Home Economics fraternity with membership based on scholarship.

Alumni are not forgotten and at the present Miss Barnett is working on a Texas map showing where the different graduates are and what they are doing. Two times a year, she publishes a sheet with letters and greetings from exes and news from the department. Miss Fern Bowman, a graduate, is now teaching in Missouri University, and Miss Mable Jones is at Pennsylvania State College. Mrs. Howard Golden's thesis on her master's subject has been published because of the outstanding research done on the paper. Other alumni have also distinguished themselves in their chosen branches in the field.

BAD COMPANY

A Scotsman was charged with being drunk and disorderly. "Any excuse," asked the judge. "Aye, yer honor, I got intae bad company." "What sort of bad company?" "Weel, I got a present of a bottle of whiskey and I met two tee-totalers."

West Texas Gas Company

Water went over the spillway of Buffalo Dam Friday morning for the first time since the dam was completed in 1939. At that time the engineers said flood waters would never be large enough to fill the Lake.

Top pictures: Left, showing water as it came over the spillway early Friday morning; right, showing the gauge and the dam; water is 37 feet at the gauge.

Lower pictures: Left, boys on the dam watch water as it starts down the spillway; right, showing water 2 feet deep as it goes down the spillway and spreads out over the valley below the dam. Tierra Blanca creek was out of banks for several days. Hundreds of fishermen made big hauls Sunday in the creek below the dam and spillway.

West Texas Students and Former Students Marry in Early June Ceremonies

Frances Usery And Houston Bright Wed

Miss Frances Usery and Mr. Houston Bright were united in marriage Thursday afternoon in the home of the bride's parents, Mr. and Mrs. Dan K. Usery, 1906 Sixth Avenue.

A screen of greenery, placed just back of double doors leading to the dining room, was flanked on either side by floor baskets of white gladioli to form a background for the bride and groom. The Rev. J. R. Bright, father of the bridegroom, read the single ring ceremony.

The bride wore a tailored dress of non-crushable linen of sea foam and white print. Her corsage was of white gladioli. Her traveling costume was the same with the addition of white accessories.

Brief Reception

A brief reception was held following the ceremony, at which Mrs. Porter Pierce presided at the punch bowl and Miss Lucy Jo Louderer served the two-tiered wedding cake, which was topped with bridal figurines. White gladioli and roses were used to center the table.

Invited guests for the wedding and reception included Mr. and Mrs. Wallace R. Clark, Mr. and Mrs. Clyde W. Warwick, Mr. and Mrs. O. L. Coleman, Misses Pauline Brigham, Helen White Moore, and Lucy Jo Louderer, and Weldon Bright, brother of the bridegroom, all of Canyon; Rev. and Mrs. Bright of Muleshoe, Miss Esther Rudolph, aunt of the bride, of Phillips, Mrs. Pierce of Fort Worth, and Mrs. S. B. Whittenburg and Mrs. Robert Hunt, both of Amarillo.

Leave for California

Mrs. Bright is well known in Canyon, having attended the public schools here and having been graduated from W. T. where she majored in piano. She has studied piano extensively in Los Angeles under the noted E. W. Grall, and has been teacher of piano in the Music Department of W. T. since her graduation. The bride was a popular member of Pi Omega, W. T. sorority, while in College. Mrs. Bright is pianist for a large number of programs presented by West Texas State.

Because of his extensive work with Canyon and West Texas organizations, Mr. Bright has many friends here. He did all of his college work at West Texas State where he has been a member of the college faculty in the Department of Music since his graduation. In addition to his work as director of the Methodist Church choir for several months, the bridegroom has done outstanding work in other musical groups in Canyon. He organized and directed a successful choral club at W. T. this year. Since first coming to Canyon, Mr. Bright has been a member of the College Madrigal Club and the men's chorus.

The couple will leave today by car for California where they will spend three months on the west coast and do graduate work at the University of Southern California at Los Angeles during part of the summer.

An informal bridge party was enjoyed Friday evening of last week at the Clyde Warwick home, 1110 Sixth Avenue, when Mrs. Warwick, Miss Pauline Brigham and Miss Helen White Moore entertained in honor of Miss Frances Usery.

The honoree received a prize for second-high score following the games; and high score winner, Mrs. Robert W. Foster, presented her prize with due ceremony to Miss Usery.

At a late hour the guests were invited to the dining room for refreshments of angel food cake squares iced in white with initials of "F-H" in yellow topping each piece, salted nuts, ripe olives, and coffee which was poured by Mrs. Dan K. Usery, mother of the honoree. White napkins printed, with the words, "Frances and Houston," were used for the occasion. The table was most attractive with a centerpiece of yellow snapdragons in a large crystal basket placed on a three-piece reflector set. Candles in silver holders were placed at

June Brides, Take Notice!

Lovely Shirley Ross models these three house coat designs for the June Bride. (Left) Lustrous pearl satin with enormous bishop sleeves caught at the wrists in

tight beaded cuffs. The same beading makes the wide pointed waistband. (Center) Daring but delightful is this one of black

chiffon, worn over a pale yellow crepe slip. (Right) In the tailored vein, but vastly flattering, this coachman coat is fashioned of pale blue taffeta, piped in scarlet.

either end of the center arrangement.

Those present for the enjoyable occasion were Miss Usery, Mrs. Usery, Mrs. Frank Chollar, Mrs. Wallace R. Clark, Mrs. Hosea Foster, Mrs. Robert W. Foster, Mrs. O. L. Coleman, Miss Lucy Jo Louderer, and Miss Olive V. Schramm all of Canyon; Mrs. S. B. Whittenburg and Mrs. Robert Hunt, both of Amarillo; and the three hostesses.

Mrs. S. B. Louderer assisted by her daughters, Miss Lucy Jo Louderer and Mrs. Frank Chollar, entertained with a 9 o'clock breakfast Tuesday morning honoring Miss Frances Usery.

Guests were at quartet tables for the lovely two-course breakfast at which the following were seated: Mrs. George Parr of Amarillo, Mrs. A. W. Hawks, Mrs. Robert W. Foster, Mrs. J. J. Walker, Mrs. Dan K. Usery, mother of the honoree, and Misses Pauline Brigham, Helen White Moore, Usery and the three hostesses.

An enjoyable affair in the form of an informal coffee was given by Miss Helen Hickman Thursday evening of last week honoring Miss Usery and Houston Bright, whose marriage is being solemnized this afternoon.

This hostess presented Miss Usery with a silver coffee spoon, featuring the coffee bean, which was made in Brazil.

Many other informal socials have been tendered the couple since announcement of their engagement on Sunday, May 25.

Exercises

(Continued from page 1)

nity and the necessity for discrimination. And the privilege of choice is one of the richest gifts of a democratic way of life.

Alpha Chi, a chapter of the Scholarship Societies of the South, announced that graduate membership had been given the following: Margaret Britten of Groom, Nell Green of Canyon, Brynild Vaughan of Canyon, Elsie Thompson of Canadian, Mary Stringfellow of Nara Visa, N. M., Harold Dean Fowler of Wildorado, Edyth Shearer of Pampa, W. T. Cooper of Amarillo, Mogie Routh of Amarillo, Glen Davis of Shamrock, Ruth Klein of Amarillo, and Mary Byerly of Erick, Okla.

In delivering the Baccalaureate sermon June 1, Dr. Earl H. Hamlett of the Polk Street Methodist Church in Amarillo asked and answered the question, "What Is Education." It is far more, he said, than men have thought. It goes beyond any idea of making money. It is more—but not less—than training of the mind. Education is not so much content, he stressed, as direction.

Dr. Hamlett pointed out the danger of "drifting on the flats" after graduation—the result of failing to gain the capacity to be inspired.

"You are being graduated in a mad age of history," the speaker said. "Man is mad, wild, and lost. . . . War and current destruction of values will leave a worse world. . . . Man has loosed wild horses of the mind. We must look to youth for the high courage to 'mount, be thrown, and rise to ride again. We shall need pioneer minds, free to think and unafraid.'"

Dr. Hamlett declared that "there is no future in the direction we have been going, on the roads of the past." Education, he stressed, must teach men to live together. War must not continue to save dictators and conceal basic economic chaos. He called for acceptance of the teachings of Jesus as adequate for a warring world.

On the afternoon of the same day, Prof. Wallace R. Clark directed the chorus and orchestra in a brilliant rendition of Mendelssohn's great oratorio, The Elijah. An audience which included residents of many Panhandle communities applauded the choruses by the group of more than 150 students and acclaimed the soloists. Houston Bright, young professor of music, carried the bass title role. Mrs. Ethel Scheilagen, a senior, was contralto soloist, and Miss Ada V. Clark sang the soprano parts.

The following received degrees: Bachelor of Business Administration: Raussia Lee Cantrell, Tulsa; Dorothy Cross, Silverton; Harold Fowler, Wildorado; Webb Garland, Clarendon; James Hodges, Tulsa; Frank Kelly, Panhandle; John Kimmons, Canyon; Mildred Lust, Dimmitt; Pauline Moore, Canyon; Earl Norman, Wildorado; Lester Pryor, Kirkland; Eston Shearer, Lockney; Meda Ruth Thomas, Lockney; Elsie Thompson, Canadian; Faye Trammell, Rule; Dardanella Whately, Groom.

Bachelor of Arts: Lucille Balderston, Canyon; Margaret Britten, Groom; Luzelle Bryan, Littlefield; Kathleen Carr, Abernathy; L. F.

Cleek, Panhandle; Mildred Cole, Hoover; Glen Davis, Shamrock; R. M. Francis, Canyon; Ruth Erma Garrett, Phillips; Nell Green, Canyon; Virginia Lee Hussey, Hereford; Ruby King, Hobart, Okla.; Doris Kirksey, Canyon; Ruth Klein, Amarillo; Geneva Lawver, White Deer; Mrs. Marguerite McAdams, Amarillo; Carollee Payne, Amarillo; Ruth Reeve, Frinot; Mogie Routh, Amarillo; Charmian Runyan, Delta, Colo.; Ernest Scheilagen, Hereford; Edwin Schreiber, Plainview; Edythe Shearer, Pampa; Lena Sniker, Morton; Ruth Taylor, Quitaque; Brynild Vaughan, Canyon; Willie Mae Wilson, Gruver.

Bachelor of Science: Carmen Adamson, Hedley; Lawrence Adkins, Big Spring; Winnie Faye Baer, Texline; Theresa Bain, Hedley; Mildred Bennett, Dumas; Roberta Bertrand, White Deer; Inell Biffle, Hedley; Mrs. Betty Bond, Amarillo; Lillian Bowe, Endee, N. M.; Beulah Brasuel, Canyon; Doyle Bunch, Chillicothe; Mary Byerly, Erick, Okla.; Mrs. Laura B. Carlisle, Maltador; Ruth Clay, Pampa; Anita Cleland, Canyon; Mary Collins, Canyon; William Cooper, Amarillo; Lemuel D. Criswell, Paducah; Icela Mae Crouch, Plainview; Charles Crowell, Bovina; Everett Culp, Happy; Evelyn Culwell, Wayside; Bonnie Dickinson, Amarillo; Viola Dooley, Canyon; Overton Donnell, Canyon; Kate Donnell, Canyon; Warren Driver, Petersburg; Marjorie Edwards, Tulsa; Walter Edwards, Tulsa; Helen Eoff, Shamrock; Mrs. Wandena Evans, Sunray; William Fields, Canyon; Stella Lee Fortenberry, Adrian; Eula Faye Foster, McLean; Leroy Francis, Canyon; Allene Gates, O'Donnell; Laura Gerner, Lella Lake; Fred Hart, Canyon; Alethea Hastings, Bovina; Lucy Hedgecock, Stinnett.

M. Williams, Knott; Mary Alice Wilson, McLean; R. V. Wood, Floydada; Winston Wood, Clarendon; Noel Woodley, Memphis; Mary Zimmer, Canyon.

Prairie Ads get results.

Many of These Romances Were Started Here

ANNOUNCEMENT MADE

The approaching marriage of Miss Thelma Carrell of Samnorwood to Cecil Jones of Amarillo has been announced by Mr. and Mrs. S. J. Carrell.

A graduate of Samnorwood high school and W. T., Miss Carrell has been teaching for the last two years near Lockney. Mr. Jones is a flying instructor in the naval air corps at Corpus Christi.

ROSE-SPRATT

Miss Katherine Rose of McAdoo became the bride of Carl Spratt of Hereford, May 25 in Ralls.

Mrs. Spratt is a daughter of Mr. and Mrs. A. C. Rose, and she attended Texas Technological College, Lubbock. She has been teaching in Ralls high school for the last four years.

Mr. Spratt was graduated by Hereford high school and West Texas State College. He is the son of Mrs. I. H. Spratt and he is director of the Ralls band.

BAER-BRIGADIER

Mr. and Mrs. Gaston Baer of Hereford have announced the marriage of their daughter, Hertha, to Morton Brigadier of Los Angeles, Calif.

Both are students at the University of Southern California. Mrs. Brigadier attended Hereford High and West Texas High schools. The couple will live in Los Angeles.

FULTON-NORMAN

Miss Margaret Fulton of Wildorado and Earl Norman of Canyon were married in Tucumcari, N. M. on May 24.

The bride is a graduate of W. T. High School. Mr. Norman is a graduate of Tarleton Junior College, attended the University of Texas, Austin, and was graduated by W. T.

The couple will be at home in Wildorado.

COLLINS-BAGOT

Miss Mary Elizabeth Collins of this city and Edward Hardin Bagot of Amarillo were married at 8 o'clock Saturday night in the home of the bride's mother, Mrs. T. W. Collins of this city.

Rev. Sam A. Thomas, Methodist minister, read the single ring ceremony as the couple and their attendants stood before an improvised altar of spring flowers and greenery, flanked by white tapers in white candelabra.

Wedding music was played on the piano by Miss Renna Beth Bellah. Before the ceremony, she played "Ah, Sweet Mystery of Life," by Victor Herbert. Wedding marches were Mendelssohn's "Wedding March" and "The Bridal Chorus" from Lohengrin and Wagner. During the ceremony, Miss Bellah played "I Love You Truly" by Carrie Jacobs-Bond.

Mrs. Terrill Christian of Claude, sister of the bride, was matron of honor. She wore a dusty rose marquisette floor-length gown fashioned with a sweetheart neckline. She carried a colonial bouquet of spring flowers.

Donald Bagot, brother of the bridegroom, served as best man.

Bride Wears Blue

The bride wore a full length princess style Wallis blue gown of broadened chiffon, with long pointed sleeves, high neckline, short train and fingertip length tulle veil. The dress was the wedding dress of the bride's sister, Mrs. Frank A. Spring of Friona.

For an only ornament, the bride wore a watch that her father gave her mother before they were married.

Mrs. E. O. Bagot of Amarillo, mother of the bridegroom, wore a floor-length blue marquisette dress, with a corsage of roses.

Reception at Canyon

The wedding reception was held in the Collins home, with Mrs. Spring presiding at the wedding cake and Mrs. Christian pouring the punch.

When the couple left on a wedding trip to an unannounced destination, Mrs. Bagot wore a navy blue crepe dress with a matching redingote and white accessories.

A graduate of Canyon High School, Mrs. Bagot received her B. S. degree Monday from West Texas State College, where she was a member of Delta Zeta Chi. While in college, she was named a college beauty three different years and was elected "Freshman Sweetheart" her first year in college.

The bridegroom is a son of Mr. and Mrs. E. O. Bagot, 1614 Monroe Street, Amarillo. He is a graduate of Amarillo High Schools, and attended the University of Texas, where he pledged Phi Kappa Psi, and West Texas State College, where he was a member of Epsilon Beta. He is employed by the Amarillo Hardware Company.

BETROTHAL ANNOUNCED

Mr. and Mrs. F. E. Ewing of this city have announced the engagement and approaching marriage of their daughter, Rowena, to James A. Peoples, Jr., son of Mr. and Mrs. James A. Peoples of Asheville, N. C.

Miss Ewing is a graduate of West Texas State College and has taught

in the public schools of Plainview and Lockney. For the past two years she has made her home with her brother, Dr. Maurice Ewing, in Bethlehem, Pa., where she was employed as secretary to the manager of St. Luke's Hospital.

Dr. Peoples is a graduate of Vanderbilt University and Ohio State University and was instructor of physics at Lehigh University at Bethlehem, Pa. He is employed in the research laboratories of Sperry Gyroscope Company in Garden City, N. Y.

The wedding is scheduled to take place June 18 at the ranch home of Miss Ewing's sister, Mrs. Herschel Clawson, and Mr. Clawson, near Tulsa. The couple will make their home in Hampstead on Long Island.

CUNDIFF-HEMPHILL

Miss Ernestine Cundiff, daughter of Mr. and Mrs. E. C. Cundiff of Littlefield, and Dan Hemphill, son of Mr. and Mrs. A. G. Hemphill of Littlefield, were married at the Presbyterian Church in Littlefield Friday, May 30.

The bride was attended by her sister, Kathleen, and the best man was Gayle Hemphill of Floydada.

Mrs. Hemphill is a graduate of West Texas State and was a member of Alpha Chi and Delta Zeta Chi.

She attended Texas Technological College, Lubbock, and Colorado College of Education, Greeley.

Mr. Hemphill received the B. S. degree Monday from W. T., and he is editor of the College paper, The Prairie.

The couple returned recently from a short visit in New Mexico. They will live at Pueblo Courts No. 5, and Dan will be a graduate student at the College.

GRIFFON-LEMMON

The marriage of Miss Mary Jo Griffin, daughter of Mr. and Mrs. L. E. Griffin, 2007, Monroe Street, Amarillo, and Eugene R. Lemmon, son of Dr. and Mrs. J. R. Lemmons, 2614 Ong Street, Amarillo, was solemnized Tuesday afternoon in the First Baptist Church of Sayre, Okla.

Rev. W. T. Cost read the single ring ceremony.

John O. Turner and Robert Rorex Lemmon, the bridegroom's brother, attended the couple.

The bride wore a beige tailored suit with accessories trimmed with saddle tan.

A graduate of Amarillo High School, Mrs. Lemmon attended College. Mr. Lemmon is a graduate of Amarillo High School. He attended the University of Texas and West Texas State College. The couple is at home at 2614 Ong Street, Amarillo.

PITTS-WILSON

Mrs. H. W. Pitts, 2805 Ong Street, Amarillo, announces the marriage of her daughter, Frances Ray, to James L. Wilson of Lubbock which

took place May 17 at the Presbyterian Church in Slaton.

Miss Pauline Baumgart of Merced and Perry Horton of Big Spring were the only attendants.

Mrs. Wilson is a graduate of Amarillo High School, and attended West Texas State College where she was a member of Pi Omega sorority. She has been attending Texas Technological College the last two years and is a member of Kappa Tau Beta sorority.

The bridegroom is a son of Mr. and Mrs. F. Wilson of Lubbock. He received his B. S. degree from Texas Technological College Monday night.

Mr. and Mrs. Wilson are at home in Lubbock.

HOYLE-SCHUR

The wedding of Miss Maurine Hoyle of Plainview and Ernest Schur of Chillicothe took place Saturday night at 8 o'clock at the home of Mr. and Mrs. H. C. Hoyle of Plainview. The single ring ceremony was read by Dr. E. A. Reed, pastor of the First Methodist Church, in the presence of relatives and a few friends.

The dimly lighted rooms were decorated with garden flowers and the wedding party stood before a trellis of greenery with baskets of roses and candelabra on either side.

Mr. Troy Ray of Amarillo played the wedding march and played "I Love You Truly" softly while vows were spoken.

The bride was dressed in powder blue with beige and white accessories and her only jewelry was a star sapphire pin, a gift from the bridegroom. She wore a corsage of gardenias and carried a bouquet of white roses. Her only attendants were her twin sister, Miss Maxine Hoyle, who wore a deeper shade of blue with brown and white accessories and carried white roses, and Miss Janice Kendrick of Canyon, college chum and sorority sister of the bride, who also wore a deeper blue with black and white accessories and carried white roses.

Gilbert Schur of Vernon, brother of the bridegroom, was best man.

Mrs. Schur, a graduate of Plainview High School, took a B. S. degree from West Texas State College in 1940 and taught the first grade in the Floydada school the past year. She belonged to Delta Zeta Chi at West Texas State.

Mr. Schur, son of Mr. and Mrs. E. B. Schur of Vernon, finished high school at Vernon and took the B. B. A. degree last year from West Texas State College. At West Texas he was a member of the T-Club, captain of the basketball team in his senior year, vice-president of his junior class, and was chosen a member of the college Who's Who for two years.

After a wedding trip to Colorado Mr. and Mrs. Schur will live at Chillicothe where he is assistant cashier of the First National Bank.
