

Baggett Is Head Of Athletic Set-Up

Plans For Student Pilot Training Are Completed

Homer Jackson Is New Promotion Manager

Instruction of pilot trainees will be in full swing this summer according to a statement made by George W. Cox, manager of the Canyon Aviation Service at West Texas Field. The course is being offered to college students for credit and to veterans taking flying lessons at government expense. A large class, made up of students and local residents, is expected to report for instruction this summer.

Announcement has been made by Mr. Cox of the appointment of Homer Jackson, Jr., as promotion and publicity manager of the field. Jackson, a junior journalism student, transferred from Wentworth Military Academy, Lexington, Mo. to W. T. in 1945. He was business manager of the 1946 Le Mirage, the college yearbook.

The present staff at the field consists of nine members. Chief pilot is Sherman Higdon, of Canyon, who served as an army instructor during the war.

Shop foreman Sherman Banaster, one of the seven designated maintenance examiners in this C. A. A. region will be assisted by Leo Ray and Truman Segal, who are at present the only other mechanics.

Mr. G. W. Webb will retain his position as bookkeeper. Mrs. Wells is to be in charge of a cold drink and snack bar on the field.

Chief pilot Higdon points out the field's excellent record of safety—more than 26,000 hours of flying time without an accident or injury to students. Twenty-six thousand flying hours conservatively represents two million, five hundred thousand miles, or enough flying to circle the globe one hundred times.

Change in Education Dept. Announced

Monday morning President J. A. Hill announced changes in the Education Department to adjust classes as made necessary by the illness of Dean R. P. Jarrett.

Dr. Roy L. Beger, director of Amarillo Center, will do work on the campus this summer. Dr. Beger's classes in Amarillo have been exceedingly popular, and he is welcoming an opportunity to become acquainted with students on the main campus.

Mr. William Brune who was formerly a member of the Amarillo Senior High School staff and who is now identified with the Canyon Veterans Administration Guidance Center will teach the class in tests and measurements.

Mr. Kenneth Goodman of the Demonstration School faculty will take charge of other classes in the Education Department.

President Hill states that all these changes will be worked out by tomorrow and that in the meantime Professors F. E. Savage, A. M. Meyer and Mitchell Jones will meet extra education classes.

It is expected that Dean R. P. Jarrett will be back on the campus within a short time.

Borge Music To Be Presented

Artistry and humor, magically blended into a unique and hilarious combination designed to tickle the jive fan and bring a deep chuckle from the critic with the pince nez, comprise the Victor Borge program to be presented here tomorrow.

The first of a series of recorded presentations scheduled for this summer, the Borge album includes "Phonetic Punctuation (Beginning)", "Phonetic Punctuation (Conclusion)", "A Lesson in Composition", "The Blue Serenade", "Grieg Rhapsody", "Brahms Lullaby", "A Mozart Opera," and "All The Things You Are."

Borge is one of the most unfathomable paradoxes in the world of music today. His ability to combine the amusing with depth has created for him a place in the music world.

This weekly presentation of the summer series, sponsored by Mrs. Geraldine Green and held in the parlor adjoining her office, is scheduled for 3:30 each Wednesday afternoon. The public is invited.

LE MIRAGE WILL BE READY FOR DISTRIBUTION FRIDAY

There will be extra copies for students who wish to purchase them. Call at the Publications Office Friday afternoon between 1:30 and 5:30 or Saturday morning before 12:00.

Edward Lauderdale, of the summer class of 1942, is superintendent of the Vega school. He succeeds C. T. Howell, resigned.

W. T. Band Scholarships Awarded

Seven high school graduates, two ex-servicemen, and four students of West Texas State College received band scholarships which have just been awarded by a committee of friends of the college. Winners were selected from applications submitted and those chosen will receive their tuition and other benefits for the 1946-47 session. All holders of band scholarships will be members of the Buffalo Band. The winners were:

J. C. Jones of Perryton, high school graduate, who plays the clarinet and tenor saxophone.

Gerald Smith of Hereford, junior at W. T.; clarinet and saxophone.

Joan Smith of Hereford, high school graduate; flute and cello.

Ellen Posey of Hereford, junior at W. T.; flute, violin, and voice.

Glen Smith of Hereford, veteran; trumpet.

Paul Teague of Phillips, sophomore at W. T.; BBB bass and string bass.

Richard H. McCune of Pampa, high school graduate; trombone.

Joe Cato of Amarillo, high school graduate; drums.

Doris Eugenia Baker of Tulia, high school graduate; flute and piccolo.

Grant Sharman of Dumas, veteran; trombone and arranging.

Norman Pink of Tulia, high school graduate; BBB bass.

Watson Mueller of Oklahoma City, high school graduate; drums and violin.

Sherrod Reavis of Shamrock, sophomore at W. T.; cornet.

Condron Starts Forum Ball Rolling

Room 211 in the Administration Building seemed electrically charged Thursday afternoon when Dr. S. H. Condron stepped from the platform after delivering an address entitled "Why Do We Talk About John L. Lewis?"

The students and faculty members comprising the audience quickly seized the opportunity to submit ideas, information, and questions. "What is the future of labor in the United States?"; "Where is its policy carrying the United States?"; "Which is worse—lawlessness or what we term Fascism?" were among the questions arising out of the ensuing discussion.

This exchange of ideas was the first forum of a series to be staged this summer under the leadership of a committee of three faculty members: Mr. Herschel Coffee, Dr. C. W. Freed, and Dr. S. H. Condron.

The committee's plans for the summer include five more meetings to be held on the following dates: June 20, June 27, July 18, July 25, and August 8. The topic and discussion leader for each date are respectively: "Where Is the World's Food?"; Miss Darthula Walker; "What Should Our Schools Teach?"; Dr. A. M. Meyer; "What Is Russia Up To?"; Dr. Ima Barlow; "What About Plastics?"; Dr. C. A. Pierle.

These forums, which will continue to be held at 3:30 in Room 211 on the dates given, are open to the public.

Students Urged To Attend First Meetings Music Groups

Dr. Wallace R. Clark, head of the department of music, has scheduled the following organizations' hours for the summer session:

Chorus—Monday and Tuesday at 12:40.

Orchestra—Wednesday and Thursday at 12:40.

All persons who are interested in participating in either of these organizations are urged to come to the first meetings so that all can begin rehearsal at the same time.

D. V. Biggers, who has been a member of the public school staff at Pampa during the past year, will be at Perryton for the 1946-1947 session, according to statement made by his sister, Mrs. Annie Biggers Reeves of McLean, who visited the campus Monday.

D. V. Biggers is a graduate of the college and Mrs. Reeves attended West Texas State College in 1924.

STUDENTS

If you have had any newspaper experience of any type, or if you have had no experience but would like to learn reporting or feature writing contact the editor in the office of College Publications. Office hours 4:30-5:30.

Summer Session Enrollment Up

Good Attendance With Varied Program Will Continue For a 10-Week Period

The summer session of West Texas State College promises to be the largest in several years according to enrollment indications at the end of the week.

Approximately 525 students have enrolled, an increase of twenty-five per cent over that of last summer.

The Graduate Division shows an increase of at least 30%. The figure is expected to be higher than this by the end of the week.

Noticable in the enrollment lines is the large number of men. Apparently there will be more men in summer school this year than at any time since the late 1930's.

Several new faculty members are on the campus working places made vacant by leaves of absence and resignations.

Miss Helen Whiteside, formerly physical instructor for girls in Canyon high school and late of the United States military service, has been employed in the department of physical education for women, taking the place made vacant by the resignation of Oma Wilson Ford.

In the business administration department teaching typing and machine bookkeeping is Miss Nola Belle Welch, regularly employed in the Lee Junior College, Goose Creek, Texas.

In the home economics department is Miss Margaret Owen, who will be in charge of the nursery school.

Miss Novella Goodman and Mrs. Mary Sligar are teaching education courses in their respective fields substituting this summer for Dr. Lloyd Smith and Miss Ruth Lowes. Dr. Smith is on leave on a special teaching assignment in one of the colleges of Indiana and Miss Lowes will study at Iowa State University.

It is likely that other faculty additions and changes will be made before the enrollment period is over.

It will be a 10 week session with July 4 observed as a holiday. August 11 will be baccalaureate Sunday and August 13 will be commencement day, with exercises in the evening.

Classes will be one hour in length and a 5-day week will be observed.

Organized play and recreational activities will be stressed this summer. Prof. L. E. Van Meter and Miss Ruth Cross will direct play-nights. Several picnics are scheduled. Softball leagues will be popular among the male students. Swimming is a daily activity at the college's outdoor pool. Several college picnics have been placed on the calendar. Dr. A. K. Knott will sponsor freshman activities. Dr. A. M. Meyer is sponsor of the Graduate Club, which is an active summer organization.

College expansion will be evident to summer students. An annex to Randall Hall is well advanced in construction. Work has started on the all-college cafeteria. Materials are being assembled for the veterans' trailer town which is to be expanded. It is possible that completion of the addition of the Plains Museum will be attempted.

Canyon Group In North Carolina

A group of eleven people left the First Baptist Church Sunday morning at 9:00 o'clock on a chartered bus for the fourteen hundred mile trip to Ridgecrest, North Carolina, to attend the annual Baptist Student Retreat, which attracts each year more than fifteen hundred students from colleges throughout the South.

Those in the Canyon group were Robert Kilgore, local director of student work for the Baptist Church; Mrs. T. H. Knighton, adult counselor; Bill Knighton, Harold Pritchard, Martha Hannah Hammond, Pauline Rudy, who graduated from W. T. College in 1945, Billie Bonifield, Neil Walling, and Martha Jean Dowd who has been attending school at Baylor University the past year.

The chartered bus also carried students from Wayland College at Plainview and Texas Tech at Lubbock, making more than thirty in the party.

The Ridgecrest conference will last from June 5th to 12th, and the bus is expected to return to Canyon on June 16th.

Dr. Wallace R. Clark, head of the Music Department, Mrs. Clark and Bea spent the week-end at Goodwell, Oklahoma visiting the home of their daughter, Mrs. James Flanagan.

Ex. Is Prexy Kids Inc.

Ray Daniel, who was president of his class when a student of West Texas State, is now president of Kids, Inc., a soft ball league of boys in Amarillo.

Kids, Inc. is an avocational interest of Mr. Daniel, who is identified with Southwestern Insurance Company, and who carries heavy civic responsibilities as a member of Potter County Commissioners Court.

When in college he worked part time in the office of the Business Manager, who was then Mr. Travis Shaw.

Canyon Boasts Eight Graduates

The eight students from Canyon who received degrees from West Texas State College May 30 in the last war-time commencement represented a seventh of the class.

Seven received B. S. degrees: Nina Iverson, art major and vice-president of Phi Kappa Phi.

Mrs. Renna Beth Barnard, piano major, member of the chorus and Delta Zeta Chi sorority.

Beulah Hammond, primary education major, member of Mary E. Hudspeith, B. S. U., Alpha Chi, and secretary of the senior class.

Martha Hammond, home economics major, president of Kappa Omicron Phi, member of B. S. U., and was library assistant.

Harold Stewart, industrial arts major and a member of the Veterans Club.

Mrs. Lillian Miller, education major.

Mrs. Zula Usery, primary education major, who has been biology laboratory assistant during the last year.

The B. B. A. degree was granted to Mrs. Waldeen Thomson who majored in business administration. She was president of Alpha Chi, member of Kappa Tau Phi sorority, secretary-treasurer of the Student Senate, president of Wesley Foundation, secretary to the superintendent of the Demonstration School, was a member of Student Christian Association, I. R. C., and was selected for inclusion in Who's Who among Students in American Universities and Colleges.

Dr. Freed Rejects Colorado Position; Remains in Canyon

Dr. C. W. Freed announced yesterday that he will remain in Canyon as head of the speech department of West Texas State College instead of going to Denver as announced last week.

Dr. Freed stated that after due consideration of all problems involved that he had rather stay in Canyon and West Texas State than accept the offer of the Colorado school.

Textbooks Available For Veterans

Veterans Administration has completed arrangements with the Library of Congress to distribute more than a million surplus textbooks to colleges and universities for the use of veteran-students, VA announced today.

Formerly used in the Army and Navy college training programs, the books are expected to alleviate the textbook shortage somewhat. It is estimated they will save VA more than \$3,000,000.

Distribution will be made to schools and not to veterans. VA is asking veterans not to apply for the books at VA offices or at the Library of Congress.

The VA has transferred funds to the Library of Congress to cover the cost of handling and mailing the books. VA acquired them from the War Assets Administration.

The library will mail printed lists of the books to accredited colleges and universities so that they may select the volumes they need. The schools then must requisition the library for the books they want.

Each school will set up its own distribution system to assure that only veterans will get the books. The supply of surplus textbooks must be exhausted before others of the same titles are purchased from any other source for veterans, VA said.

Howard Cox, who has taught at Spearman during the past year, is spending the summer at his home in Canyon.

All girls who were here last semester and who wish to have grades checked for "B" averages are requested to present brown books at the office of the Dean of Women.

Correspondent Speaks Lyceum

DON BOLT

The first number of the Summer Lyceum Series is Don Bolt, who will appear at West Texas State College next Monday. He is a veteran of the British and American forces in the World War. He is able to add his personal observations to the news of the day from actual experience with many of the important phases of world and domestic affairs. As a commentator and reporter with the Chicago Herald & Examiner, The St. Louis Globe Democrat and the Pittsburgh Post, Don Bolt is recognized as being one of the foremost in reporting the news of the world.

As a radio commentator Don Bolt has been broadcasting for a number of years. He has the diction of Franklin D. Roosevelt and is a keen analyst who knows his subject.

The subjects in which Mr. Bolt is particularly interested are "Our Stake in Latin America," and "America and the Post War World." He will speak at 8:15 in the Main Auditorium on one of the above subjects.

Exes Launch Business Enterprise

A new business has recently been opened by three ex-students of West Texas State College. It is a plant located in Pampa which will manufacture air conditioners.

Two of the partners are Ben Guill of Pampa and Pat Jones of Hereford. The third member of the firm is a silent partner.

Mr. Guill will be well remembered by people connected with West Texas State since he was a speech major and prominent in all dramatic productions while on the campus. He is an ex-serviceman having spent many months as an officer in the United States Navy in the Pacific theater.

Captain Emmett Hazlewood, who has been teaching mathematics in the United States Military Academy at West Point throughout the war, is returning to Texas Tech with a rank of full professor. After his graduation from West Texas State College, Hazlewood received his doctor's degree from Cornell University.

Mrs. Hazlewood will be remembered as Ann Mansell. Their two children are Barbara and Robert.

Julia Earthman, ex-student who has taught for the past two years at Miami, Texas, will not be in school this year, but she expects to do two courses by correspondence during the summer months. She reports that she has enjoyed her teaching and is looking forward to the next school year at Miami.

Bob Word has received his discharge from the U. S. Navy after more than two years in the Pacific theater, and expects to resume his work at WT this fall.

Veterans Wishing to Take College Work Urged to Get Papers Early

Veterans who intend to take advantage of the free educational and training benefits provided for them by the government should apply for their certificates of entitlement as soon as possible, even if they do not intend to go to school for several months, says Harold E. Van Horn, contact representative for the Veterans Administration.

Mr. Van Horn's office is at 502 Oliver-Eakle Building in Amarillo.

He said many veterans visiting his office are under the impression that they cannot apply for eligibility certificates until they arrive at the school or college they wish to attend, often in distant states. This is not the case, he said, and it is to every veteran's advantage to apply for the certificate well in advance of the date he expects to enter school.

Applications for eligibility certificates may be made at Mr. Van Horn's office, which forwards the applications to the Veterans Admin-

Miller, Van Meter, Nicklaus Assigned Posts

Announcement was made by President J. A. Hill this week of the changes to be made in the athletic department.

Al Baggett will be athletic director and head of the physical education department.

Gus Miller will be head basketball coach and assistant in physical education department.

Windy Nicklaus is slated to be head football and track coach.

Leslie Van Meter will act as assistant athletic director, assistant football coach and instructor in the physical education department.

Dr. Hill also announced a plan to extend the physical education department so as to include every male student in the college.

Baggett recently returned to the campus after serving in the army. He was Mediterranean theater athletic officer for more than two years, holding the rank of lieutenant colonel.

Before going into service, he coached the "Tall Buffs" in addition to his duties as athletic director. He came to West Texas State in 1933 as head football coach, after establishing an outstanding record at Amarillo College. He also coached at Wichita Falls Junior College and Vernon High School.

A West Texas State athletic standout in his college days, Miller served as acting athletic director during Baggett's absence.

He also held down the head football and basketball coaching posts. He took up coaching duties here in 1942, prior to which time he had held positions at Texas Wesleyan College of Fort Worth, Trinidad and Slaton High Schools.

Nicklaus also began his coaching duties here in 1942. He has been assistant football and head track mentor. His previous coaching experience includes posts at Amarillo College, Oklahoma Baptist College, Altus Junior College, Borger High School, Tahoka High School, and Horace Mann Junior High in Amarillo. He was the first football captain at Texas Tech in 1925, and captained the first Amarillo High School grid team to be known as the Golden Sandstorm in 1922.

Van Meter served four years in the Army. He was an officer in the physical training department. He served as assistant football coach in pre-war days.

Ford Resigns From H. E. Dept.

Miss Roxana Ruth Ford of the home economics staff who has been on a leave of absence during the 1945-46 session has submitted her resignation.

Miss Ford came to Canyon from Kingsville. During her leave of absence, she has studied at Iowa State College at Ames.

President J. A. Hill has not yet announced her successor.

Dr. Hattie M. Anderson, who is on leave this summer from the Department of History, underwent an eye operation in Dallas last week.

Reports indicate that the operation was entirely successful and Dr. Anderson will return to Canyon within about two weeks.

The annual summer reception of the college faculty honoring summer students will be held Monday, June 17, at 8:30 at Cousins Hall. All students, their husbands or wives are invited to be present.

Students' Official Newspaper

A weekly newspaper published every Tuesday except holidays or examination periods by the Students' Association of West Texas State Teachers College, Canyon, Texas. Entered on November 21, 1919, as second-class matter at the post office in Canyon, Texas, under the act of March 8, 1879.

REGISTRATION, LINE?

"Here we go again."
"Good old summer school."
"Teach all winter? Well, you can settle down and let some one else worry about who fails, and who gets mad at whom."
"No, I wrestled with learning myself, and was it physical education! I mean gymnastics, and I am not so sure about the education!"
"I heard that there would be more men on the campus."
"Gosh, I never intended to take so much work this summer."
"It's not on the dotted line yet. I hope the Dean didn't miss breakfast. Maybe I can drop this European History and make a little American History of my own."
"My feet are killing me."
"Cute shoes, though."
"I could stand a bit of barefoot without the sandals right now."
"We moved two inches then."
"Look who we're coming too."
"Yeah, put the white Karo in your voice, he don't sound too happy."
"Must be the man who missed his breakfast, but at least, from where he sits, his feet can't hurt."

"I AM A PART OF ALL—"

Did you ever marvel at a piece of Oriental tapestry? From a distance it appears to be a striking depiction of an Eastern custom or scene. Closer examination, however, brings to the curious eye more than that. Each thread of the picture is an individual, bearing its own distinction of coloring, its own evidence of expert workmanship. Bright hues and somber ones combine to form an integrated whole, highly pleasing to the Occidental eye. Without each of the threads the appearance of the finished work would lack in depth and richness.

So with us. As students it is our desire to develop personalities woven so as to give the richest result. What made the tapestry deep and rich? It was the diversity of the elements in its makeup.

We, of W. T. are fortunate this summer in being able to obtain for ourselves many of those things that will go into personality building. On the campus are students with degrees and years of professional experience in various fields. Meet these people. Enjoy with them the experiences the years have given them. Cultivate the acquaintance of faculty members. The cultural advancement gained from such contacts is invaluable. Talk with students of other nationalities and religions, with these interested in studies other than your own. Choose a sport and become proficient in it. Discover your library.

In all these contacts you will give, but you will also receive. The "tapestry" of your life will be interspersed with more beauty and color than you have imagined.

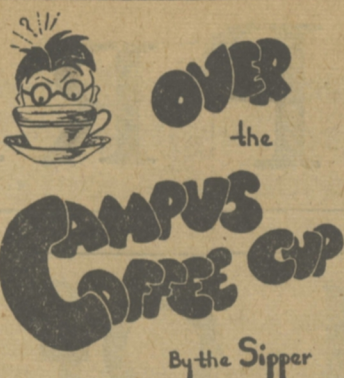

LET'S RECIPROCATE

The businessmen of Canyon and Amarillo who carry advertisements in The Prairie are doing more than advertising their wares. In fact, it is not necessary for any firm to advertise right now in order to sell all the merchandise that it can get. These advertisers are giving financial backing to the college, for the space fees which they pay do much to finance The Prairie. The advertisers are the same men and women who are called upon to give help to college enterprises of all kinds. They contribute to the Historical Society; they have furnished money to assist in the erection of the college chapel; they back the athletic program of the college. The appreciation of college students and faculty to the business people who support the college probably can best be shown by visiting the establishments of the advertisers and whenever possible making purchases there. The college community is a part of the larger community represented by the business houses of Canyon and even of Amarillo. More contacts between the campus group and business groups will lead to greater appreciation on both sides. Furthermore, the advertisers probably represent as good quality in merchandise as can be found anywhere. The summer is a good time to get acquainted with those whose advertisements appear in The Prairie.

THERE IS COLOR IN YOUR FUTURE

Every day you draw nearer and near to the color in your future. Look around you and you will see the young cannas, sturdy and green in their youth. It will not be long before their lovely red and yellow flowers will be here to brighten your future. When you have the pleasure of seeing these gorgeous irregular flowers in mass as they are here on West Texas campus, you will not forget the experience.

In the joy of having exams over and school out for the year, there was one large regret among the students as they left the campus—the cannas would not bloom for them. School has just begun for you, but don't despair, for your days can't be drab and colorless with cannas in your future.—Contributed.

By the Sipper

To the Joe's and Jane's who were here last winter, and those who already know what this column is, it will be continued this summer. To the new comers, it is a record of the lives of students on the campus, and the things that happen on some of our far flung playgrounds.

The Sipper's identity was known to some, and perhaps will be again revealed, but don't be surprised to read about your behavior in this column. When you are in doubt about the information that will appear, remember that the Sipper has more "Informers" than Garrett had Snuff.

Feeling sure that every one is interested in what is going on, and looking forward to bringing this report to you, here is saying don't worry about being good, but do have a good time.

Miss Adele Barnes, science teacher in the demonstration high school, will continue her advance study of biology this summer at the University of Colorado at Boulder. Miss Barnes received her master's degree from North Texas State Teachers College last year and did further graduate study at the University of Michigan.

being photographed glaring skyward, looking sullen and defiant, all because somebody decided, during the war, that well-shadowed bone structure had the decisive air appropriate to women behind the front. Sharp cheekbones denote strength, and strength is smart. And the advertisements are full of models who look resolute and belligerent enough to be knitters at the guillotine.

"Whom are we women supposed to be mad at, for heaven's sake? Men? Again?"—Lois Long, in "The New Yorker," May 18.

The Purple Cow strayed in the glade;
(Oh, my soul! but the milk is blue!)
She strayed and strayed and strayed and strayed
(And I wail and I cry Wa-hoo!).

I've never seen her—nay, not I;
(Oh, my soul! but the milk is blue!)

Yet were I that Cow I should want to die.
(And I wail and I cry Wa-hoo!)
But in vain my tears I strew.

"The United States is not and will not be a vast Metroland. It is a nation of cities and of countryside, spread over three million square miles, and so it must be hard to interpret and to unify, even in a great crisis. And even when it is really unified, each region will crab the deeds and the words of the others, especially of its nearest neighbors. The job of the leaders (and a most difficult job) is to hold together:

'this land,
My own Manhattan with spires, and the sparkling and hurrying tides and the ships,
The varied and ample land, the South and the North in the light, Ohio's shores and flashing Missouri,
And ever the far-spreading prairies cover'd with grass and corn.'
"To repeat, it is hard to do, and it has to be done by persuasion and not by coercion. But for a great cause, it can be done."—D. W. Brogan, "The American Character."

Lift" Proceeds Lift Proceeds

Randall Hall will be a much changed place when college opens in September of this year. It will have forty-five additional bedrooms each accommodating two girls. This will bring the capacity of the hall to 200 girls.

Furniture has been ordered for some time for both the old and the new parts of the dormitory. Room furnishings will be the same throughout. Single beds will be provided in all rooms.

There will be a library and book-nook in the new dormitory. There will be small parlors, a large lounge for active table games, and in the basement, there will be a well-equipped laundry and drying room.

A trunk room has also been included in the new plan.

When the remodeling of the old building and the construction of the new building are completed, there will be no large dining room since students who live at Randall will get their meals at the new college cafeteria now under construction. Kitchenettes or refreshment kitchens will be provided in the dormitory.

An attractive living room, bedroom, and bath, are provided for the supervisor of the hall.

Reservations which have already been made indicate that Randall Hall will be filled to capacity for the fall semester 1946.

Demonstration School Teachers In College

Three members of the faculty who in the regular session are found teaching in the Demonstration School are teaching college classes this summer.

Miss Novella Goodman, assistant professor of intermediate education, is continuing classes in this field. Miss Goodman holds the M. A. degree from Teachers College at Columbia and has done further graduate study in the University of Washington and Chicago.

Mrs. Mary Sligar is teaching courses in the field of primary education. Mrs. Sligar holds the B. S. and M. A. degree from West Texas State College and has had a variety of public school experience.

In the department of mathematics, Mr. Cecil Briggs is teaching in the absence of Miss Edna Graham. Mr. Briggs is an instructor in mathematics in the Demonstration High School. His Bachelor's degree was granted by West Texas State College.

PURVINES-O'NEAL
PANHANDLE, June 3 (Special)—The marriage of Miss Norma Purvines and Harold V. O'Neal was solemnized May 26 in the home of the bride's aunt and uncle, Mr. and Mrs. J. B. Howe.

The double ring ceremony was read by Rev. James Todd, minister of the Christian Church. The bride was attended by Miss Ann Weatherly, her cousin, as maid-of-honor, and Clarence Howe, cousin of the bride, was best man.

The bride is the daughter of M. L. Purvines, who gave her in marriage, and Mrs. Opal Purvines of Panhandle. She is a graduate of Borger High School and attended Texas Christian University and West Texas State College.

The bridegroom is the son of Mr. and Mrs. L. H. O'Neal of Panhandle, and is a graduate of Panhandle High School and of Texas Technological College. He recently was discharged from the army.

On the campus seeking a superintendent for the Flomot School were D. A. Bynum and his fellow school board members on May 28.

Phone 59

On the campus last Wednesday were Dr. Bryant Baker and Mrs. Baker and their son of Dallas. Dr. Baker was a member of the class of 1926 and he had not been on the campus since 1928. He is one of the graduates of West Texas State College who has been featured in the Yesterday, Today and Tomorrow series which has been appearing each Sunday in one of the Amarillo papers.

Notice was received Tuesday of the death of Genevieve Simmons Alexander, English major of the class of 1939. Mrs. Alexander, a niece of Miss Mae Simmons of the demonstration school faculty, died suddenly at Clinton, Oklahoma. She had taught in the public schools of Texas and Oklahoma since her graduation.

Miss Nolabelle Welch is a visiting instructor working in the business administration department this summer. She will teach classes in typing and mechanized machine bookkeeping.

Miss Welch comes to Canyon from Lee Junior College at Goose Creek, Texas. She holds a Master's degree from the University of Iowa and has completed three summer's work toward a Doctor's degree at the University of Chicago.

Returning to Canyon after an absence of several years which has been marked by teaching experience in military service is Miss Helen Whiteside who is assisting Miss Ruth Cross in the department of physical education for women this summer.

Miss Whiteside holds a Master's degree from West Texas State. She has worked with Miss Cross before, having been physical education instructor in the Canyon High School in which capacity she directed the practice teaching for a large number of majors from W. T.

H. M. Baggally, late of Admiral Nimitz staff in the Pacific, has received his discharge from the U. S. Navy and is at his home in Happy. During the last weeks of the school term of 1945-46, he taught commercial subjects in the Tulla High School, where he was employed before he went into the service.

Norman Whisenand, M. A., 1945, will spend the summer in Colorado working toward his doctor's degree. Mr. Whisenand has taught at Phillips and assisted with physical education for boys.

Mrs. Lillian Tate, who has taught during the past year at Spearman, is spending the summer at Fritch. She is taking a library science course by correspondence from WT.

Northwestern to Have Air School

Chicago, Ill.—(I. P.) — Another step toward making this city the principal world center of aviation was the announcement here by President Franklyn B. Snyder that Northwestern University will establish on its downtown campus an Institute of Aeronautics.

The new Institute will conduct research in the general field of aeronautics and will offer a limited amount of instruction at the graduate level to persons interested in specialized aspects of aeronautics. It will not give instruction in flying or offer vocational courses in the field of aviation.

The new Institute will represent a pooling of all aeronautical resources of the University, in plant, equipment, and manpower, for the purpose of developing a coordinated program of research in aeronautics. The concentration of all such resources for the purpose of solving the problems of the aviation industry is a pioneering step in the field of aeronautics.

Among the divisions of the University that will participate in the work of the Institute are the Technological Institute, the School of Commerce, the School of Law, the Medical School, and the College of Liberal Arts through such departments as geography and psychology.

"Sir, I would rather be right than be President," were Henry Clay's famous words.

Film Service
Plans Picture
Series

A special service has been arranged for all summer school students who are interested in individual instruction in the use of visual aids, equipment, and in planning school programs for next year.

Mrs. W. L. Smith will be available to students each Monday at 10 o'clock for individual conferences and demonstration of equipment and for viewing films in which the individual or a group are interested.

The machines about which instruction will be given include the sound moving picture projector, slide and film machines, and oblique projectors. Persons interested can learn how to take care of films, how to clean their supplies, and how to care for various machines so as to get maximum use from them.

It is stated by Mrs. Smith that if there are individuals among the summer students who want to see certain films which are not in the West Texas State sound film library, arrangements can be made for ordering and showing these.

The Monday morning period at 10 o'clock will also be used by some college instructors as a laboratory period in connection with their teaching of visual aids units.

Summer students will find their instructors in practically all departments using educational moving pictures this summer. The schedule was made by college teachers weeks ago and the pictures will be shown in Room 1 of the Education Building. This room has recently been redecorated, provided with a ventilation system, and properly darkened to make it comfortable for summer use.

Students who can not take advantage of the Monday film service are invited to arrange a special conference at once. To do this, they will see Mrs. W. L. Smith in Room 1 E.

Dennis O'Brian, graduate of WT and formerly of Quail and Mobee, now resides at Paquonock Bridge, Connecticut. He recently enrolled for a correspondence course.

Gruver Holds
Position In
Hat Firm

Miss Goldia Gruver, a mathematical major and graduate of West Texas State, is a bookkeeper and accountant for the firm of Leslie-James of Los Angeles. This firm manufactures hats which retail in price from twenty-five to fifty dollars each.

Besides work which is indicated by her title of bookkeeper-accountant, Miss Gruver spends a large amount of time on personnel problems as they arise in the factory.

Writing recently of her work she says, "I am continually using my mathematics in solving problems directly connected with my work. I know that I owe a lot of my mathematical training for without it, I could never have taken the position I now hold."

All of Miss Gruver's mathematics was taken at West Texas State.

Mr. and Mrs. J. W. (Andy) Anderson are now living at 1403 Hughes Street, Amarillo.

Mrs. Anderson was Mary Louise Medlin before her marriage a few months ago. Both are graduates of West Texas State.

B. Music Degree
Is offered Now
At Missouri U.

Columbia, Mo.—(I. P.)—For the first time the University of Missouri is offering a Bachelor of Music degree. For those desiring to specialize in music, the B. M. degree means concentration in music, combined with the elements of a liberal education. The B. M. degree is organized with a major in applied music, music theory and composition of music history.

For those desiring a lesser degree of concentration in music, the A. B. degree with a major in music is recommended.

Still another alternative is offered for those preparing specifically to teach music in public schools. A B. S. in Education with a major in music education may be chosen. The curriculum provides professional work in music and music education in addition to the required arts and science and education courses.

The courses offered by the department of music are divided into three categories. Applied music includes instruction in piano, voice, violin, and organ. Instruction in other instruments of the band and orchestra is limited to the classwork at a level to meet elementary requirements of supervisors and teachers of public schools.

Music theory and history comprise a complete continuity of courses from the harmony courses to advanced composition and, in history, from the general appreciation course to graduate courses.

A busy man doesn't worry about his age, because he doesn't count his years until he has nothing else to count.

When you go to a hotel for a change and a rest nowadays, the bellboys get the change and the hotel gets the rest.

MR. AND MRS. MELFORD ALRED

The former Miss Lydia Lockhart, who recently became the bride of Mr. Melford Alred at a ceremony at Lubbock, is a graduate of W. T. class of '44. She is a daughter of Mrs. L. H. Lockhart of Pueblo No. 7. Mr. and Mrs. Alred will reside in Lubbock.

INTERNATIONAL ROUTES

WASHINGTON—There were 106,197 miles of international routes certificated for U. S. flag airlines at the end of 1945. This mileage included pre-war routes and new routes over the North Atlantic. During the year, the Civil Aeronautics Board granted 3 carriers certificates for routes across the North Atlantic through Europe to India and Russia.

RECORDS WILL BE BROKEN

Many of the 179 official world and international air records which were set up between 1906 when Santos Dumont established a speed of 25 miles per hour in the air, and 1940 when the war ended such attempts, will go by the board this year. The 1940 records were divided among

some 50 classifications and were held by the airmen of 9 countries.

The housing situation is getting terrific. A couple can't even live with the parents nowadays, because the parents are living with their folks.

Uncle Sam should import some of those German generals; teach them a little deportment; then deport them.

Our modern girls have a real problem when they try to buy clothes that can reveal and conceal at one and the same time.

Istanbul, Turkey was first known as Byzantium, and later as Constantinople.

Yardley Agency

Pittsburgh Adds
Schedule to Help
Veterans of Area

New York, N. Y.—(I. P.) — The number of students from outside the United States who are enrolled in higher education institutions of the country in 1945-46 total 10,445, according to the annual census made by the Committee on Friendly Relations Among Foreign Students. There are students found in every state of the Union, registered in 738 different institutions.

The country with the largest number is Canada, with a total of 1,613, in contrast to 852 for 1944-45. China is second in rank, with 1,298, in comparison with 823 last year. There are students from a total of 99 different countries.

Of the total of \$10,341 received in time to separate by men and women, there are 6,973 men and 3,368 women.

From Latin America have come 4,638 students, a marked increase over the previous year, and continuing a trend that became sharply evident during the war years. Now however, with improved travel conditions, students from other parts of the globe are resuming well-beaten paths made by former generations. Many have arrived from Europe during a period too recent to be included in statistics for the current year.

In regard to distribution by states, New York leads with 2,355. Next in order comes Massachusetts with 1,051, California with 907, Michigan with 690, Pennsylvania with 592.

All indications point to a marked increase of foreign students, subject to limitations of available housing and study facilities in overcrowded universities and colleges.

European "Exam" for Pilots

WASHINGTON—The Civil Aeronautics Administration has made arrangements so airline transport pilots base in Europe can obtain their six months physical examination over there. The arrangement is temporary pending the appointment of CCA medical examiners abroad.

BRINGING BERMUDA NEARER

NEW YORK—An hour and 44 minutes was shaved off the two-way New York-Bermuda air record for commercial flying early this year. One of the U. S. flag airlines covered the 1,340 miles from New York to Bermuda and back in 5 hours and 48 minutes. The flight down took 2 hours and 22 minutes and the trip back required 3 hours and 26 minutes.

The girl who marries into a wealthy family has one advantage. Her husband will probably never tell her that she can't cook like mother did—because chances are his mother was never a cook.

LIBRARY REGULATIONS

Hours:

Reading Rooms—8:00-12:00 p. m.

Reserve Book Room—8:00-12:00 a. m.; 1:00-5:00 p. m.

Library is open Monday, Tuesday, Wednesday, Thursday

7:00-9:00. Library will close Saturday at noon.

The unbound 1945 magazines are shelved in the textbook room. These are available during the hours that the textbook room is open.

Current magazines may be obtained for overnight use thirty minutes before closing time. All magazines are due at 8:30 the following morning. A fine of twenty-five cents will be charged for each magazine not returned on time.

RESERVED BOOK ROOM

Reserve Books will be found in Room 212.

Students may go to the reserve shelves and select the desired books. To locate what you want, consult the directory at the end of each shelf just under the sign RESERVED BOOKS. Students are asked to leave the books on the shelves in the order in which they find them.

There is a list of books for each reserve in the Kardex file on the desk in Reserved Book Room. When your teacher makes an assignment, for example in Education 101, look over this list to see what books she has put on reserve. This will help you locate your reading material. Later, if you wish additional material, use the Card Catalogue.

Each student will be permitted to take only one book at a time and will sign for it at the desk as he leaves. Neither texts nor large notebooks are permitted in the reserve room.

Each book may be kept out for only 1 hour from the time taken except when permission is granted for a longer time. If you have not had your book 1 hour when the bell rings, you may keep it until your hour has expired if you care to do so. This applies to all hours except from 3:30-4:25. ALL BOOKS TAKEN FROM THE RESERVE BOOK ROOM MUST BE RETURNED TO THE RESERVE BOOK ROOM AT 4:25 ON THAT DAY OR BE ASSESSED A FINE OF 25 CENTS. It is necessary that the books be in at this time in order that they may be rechecked for over-night use.

Books will be checked for over-night use at 4:30 p. m., and must be returned the following school day during the first half-hour after classes begin. A restricted list of books may not be checked until 8:30. All over-due books draw a fine of 15 cents for the first hour, and 5 cents for each succeeding hour. Students who owe fines will not be permitted to check out books until their record is clear.

Fines Must Be Paid

One week of grace is granted in which to pay fines without extra charge. This does not mean, however, that you can draw books during the week. A list of fines is posted on the Bulletin Board. The Library is not responsible for notifying students that they are on the Fine List.

LOAN LIBRARY

All books from the Loan Library, Room 205, may be kept for three days, and are due at 4:00 on the third day. Books may be rechecked after being left one hour. Books from the loan shelf due on Sunday or holidays must be returned during the first hour of the following school day. If books are not returned when due they draw a fine of 5 cents per day.

When drawing books from the Loan Library, a yellow slip must be correctly filled out; if you do not know the call number of a book, consult the Card Catalogue—call number will be found in RED in the upper left-hand corner of the catalogue card. Yellow slips may be obtained at the Loan Desk and at the Card Catalogue.

If the Library is open, return all books to the desk from which you checked them.

MAIN READING ROOM

Room 217 is the Main Reading Room.

Bound magazines and reference books are located here. The current periodicals are found in an adjacent room. No material in these rooms is to be taken out, but all material is available to students at all times during the regular library hours.

RENTAL COLLECTION

For the pleasure of the students, the Library maintains a Rental Collection. This collection is in Room 212. The books may be checked for four cents per day, payable when the books are returned. Your record must be clear before you may use the collection. The rental fund is used for the purpose of placing more books on the shelf. We invite you to investigate this collection.

GOVERNMENT DOCUMENT ROOM

Government Documents may be found in Room 214. Students of government, history, geography, and agriculture will find the material in this room of special value in their courses. This material is not to be checked out, but is to be used in the Government Document room only.

T. A. BLACK

In an impressive double ring ceremony Julia M. Tilford, daughter of Mrs. Mabel Whitacre Tilford, Cincinnati, Ohio, and the late Dr. William Harmon Tilford, became the bride of Mr. Elmer F. Hicks, son of Mr. and Mrs. P. Frank Hicks, Canyon, May 11 at 4:30 p. m.

Rev. Robert K. Foster, pastor of the Oakley Presbyterian Church, read the service at the home of the bride, in the presence of the immediate family, relatives and close friends. Mrs. Julia Williams Men-tun played "The Sweetest Story

Ever told," "Because" and "I Love You Truly" preceding the ceremony and "O Perfect Love" during the rituals.

Arrangements of mock orange blossoms, roses and iris decorated the mantle and tables at the end of the room where the ceremony was held.

Miss E. Jean Tilford, attended her sister as maid-of-honor and Mr. William Lee Ungard, Xenia, Ohio, served as best man.

Given in marriage by Dr. Samuel Willard Herman, the bride was at-

tired in a powder blue street length dress—a halo of pink carnations completed her ensemble.

Miss Tilford wore a dress of identical style, only in light yellow, a waist corsage of white carnations and yellow daisies were her flowers.

Following the wedding ceremony, a small reception was held for the wedding guests, honoring the couple. A color scheme of pink was carried throughout.

For the wedding trip to St. Louis, Mo., the bride chose a three piece suit of rose gabardine, with black patent accessories. The couple are now at home in Canyon.

Mrs. Hicks was graduated from Withrow High School and attended the Schuster-Martin School of Drama and the Cincinnati College of Music Radio Division, all of Cincinnati. She was formerly Publicity Director of Radio Station WOP, in Bristol, Tennessee, and more recently was associated with "the Southwesterner" a publication of the Southwestern Public Service Company in Amarillo, at the present time she is with the Continuity Department of Radio Station KGNC Amarillo.

Mr. Hix was graduated from Canyon High School and attended West Texas State College and the University of Cincinnati. He will continue his studies at the University of Texas in Austin, in the fall. He recently was discharged from the army after 18 months service overseas.

Las Espanoles Entertained At Tea

Catherine Whittenburg entertained the senior Spanish Club of W. T. High with a tea in her home in Amarillo Sunday afternoon honoring Claudio Escalante of Lima, Peru. All conversation at the tea was in Spanish. The hostess was assisted in serving by her mother, Mrs. J. A. Whittenburg.

The affair was a farewell party to the club, of which Catherine was president last semester.

Hills Are Guests At Alumni Dinner

President J. A. Hill and Mrs. Hill were special guests at a dinner held in Amarillo, Friday night by the Stephens College Alumni Club of Amarillo.

The President of Stephens College, James Wood, was the principal speaker at the banquet which was held at the Amarillo Country Club and attended by 250 guests, many of whom were ex-students of West Texas State College.

Evelyn Boone, home economics graduate of West Texas State, is home making teacher in the Graham High School. During the war she has taught Red Cross Nutrition Classes, worked as home supervisor for the Farm Security Administration and supervised the canning center project in Young County.

Since she was at WT, Miss Boone has done graduate work in Colorado Agricultural College, Fort Collins, Colorado and at Texas Tech.

Mr. and Mrs. Roy V. Smith of Hereford have announced the birth of a daughter, Doris Ruth, at the Neblett Hospital on May 31. Mrs. Smith, who will be remembered as Tommy Chambers, is a graduate of West Texas State and as a student worked in several of the college offices. Later she was employed at the Neblett Hospital before entering the WAVES.

Meyer-Albers Vows Are Said

Announcement has been made of the marriage of Herta Meyer and E. H. Albers in Lubbock on May 3. Rev. Karl W. Keller, pastor of the Redeemer Evangelical Lutheran Church, read the double-ring service.

For her wedding, the bride chose a sea foam blue suit with black accessories.

Mrs. Albers graduated from West Texas State with a primary education major and has taught at Friona, White Deer and Amarillo. She is a daughter of Mrs. Louise Meyer, who lives east of Canyon.

Mr. Albers is engaged in farming and ranching near Canyon, where the couple will be at home.

Regent Honored At Hill Tea

A delightful post-commencement affair was a luncheon which President and Mrs. J. A. Hill gave at Cousins Hall to honor Regent S. A. Kerr, Jr., and Mrs. Kerr, of Jacksonville, Texas, and Regent Newton Harrell and Mrs. Harrell, of Claude. Members of the administrative staff of the college were seated at the three tables which had been arranged as a unit to make general conversation possible. Decorations of seasonal flowers from the campus and the garden of Dr. and Mrs. Hill gave a summery air to the tables.

Mr. Kerr delivered the address to the graduates of the class of 1946. It was the first visit which he and Mrs. Kerr had made to Canyon since his appointment as a member of the State Board of Regents. Mr. Kerr has been out of Texas much during the last three years in the military service of the United States.

Following the luncheon, a pleasant hour of conversation was enjoyed in the reception room at Cousins Hall, after which the special guests visited the Panhandle Plains Historical Society Museum, inspected the campus and made a short trip to Palo Duro Canyon.

A. L. Crossland, who is teaching all agriculture classes during the summer, and who is supervising the college farm, is living for the summer at the home of Prof. and Mrs. Frank R. Phillips. He brought his family from Commerce between the spring and summer sessions.

Mr. Crossland has been in Canyon for several weeks.

Alvie Redden, art major of the class of 1940, will teach at Amarillo Center this summer. This fall he will be enrolled at Colorado College of Education at Greeley, Colorado to do graduate work in the field of art.

He is regularly employed on the staff of the Samnorwood School in Collingsworth County.

Christine Lockhart, primary education major of the class of 1943, left Canyon last night for Seattle, Washington. She expects to teach in the Pacific Northwest next year.

Superintendent E. W. Jackson of Spade, Texas, visited the campus of West Texas State May 29, in a search for teachers. Mr. Jackson was a student here one summer.

We wish the wife would lay that butcher knife down when she tells us that the way to a man's heart is through his stomach.

The RIGHT COMBINATION of the WORLD'S BEST TOBACCO—PROPERLY AGED

Copyright 1946, LORETT & MYERS TOBACCO CO.

The oven of your new gas range is a trusty and obedient servant. It will turn out oven meals on the days when you want to get the work over in advance and be free for that hour or two before dinner. And the oven temperature control makes baking and roasting carefree work.

The broiler fills the need when quick, delicious combinations must be produced in a hasty half hour, or when you crave the succulent tenderness of a barbecue.

The top of the range does more than half the cooking for most families. For thrifty use economical combinations may be prepared in a covered skillet over a single burner. The low heat position, called simmer, cooks vegetables nutritiously in a small amount of water, and from the wide variety of heats up to high you can select the right temperature for each food.

Western Life Camp is owned by Professor and Mrs. Frank R. Phillips.

Billy Hill, business administration major of the class of 1940, is now employed by the Myers Farm Equipment Company in Canyon. Until recently he worked at Coopers M System.

Bill Allen, who received his masters degree from West Texas State in 1935 and who is now on the coaching staff of Paschall High School, Fort Worth, will be in charge of Western Life Camp in New Mexico.

The camp will have an enrollment of forty-five boys, and activities will include a full program of the things boys like best. There will be football, swimming, basketball, horse-
