Students may give their orders Mr. Campbell Gives Instructions In Life Saving Wed.

> Ned Campbell, representing the American Red Cross, spent Wednesday at the College in work made possible through the co-operation of the Randall County Chapter of the Red Cross and the Physical education department of the Colman of the Safety Education committee for this county.

> Beginning at nine thirty, Mr. Campbell talked briefly to college students and townspeople concerning the safety program of the national Red Cross, saying that this work in the field of swimming began in 1913 when the statistics of a great life insurance company showed that 7,000 people lost their lives from drowning during that year.

> Since the publication of these statistics the Red Cross has constantly worked toward a realization swimmer; every swimmer a lifesaver" by giving swimming and life saving instruction, and by qualifying examiners who may give these tests.

> Mr. Campbell spoke at some length on the popular fallacies that people hold regarding drowning. Most people, he said, believe it necessary to sink three times to drown, however a person may go under one time or many times. He said that by keeping the lungs full of air a person may go under an indefinite number of times,

> Mr. Campbell asserted that swimming was coming to be more and more recognized by physical edubest form of exercise available, Swimming, he said, is coming into

> Nearly six hours of work was given those who were qualifing as examiners. The work included front and back approach rescues, the tired swimmers carry, and breaking various holds. Between tests Mr. Campbell explained the principles involved in each meth-

### A NEAR REALITY

What was a dream eleven years ago to far seeing members of the Panhandle Plains Historical Society is now almost a reality. Only a the short story and classification these are still in operation, for around THE PRAIRIE office befew hundred dollars stand between them and a massive museum building of the short story, illustrating his a great amount of the crude pro- cause he likes to sit in a swivel on the college campus.

Interest in the project has been manifested by the number of contributions, and the people who have given them. The two year old grandson of a West Texas pioneer willingly gave his lollypop penny while his aged grandfather casually wrote a thousand dollar check Hardly a portion of North West Texas will miss being represented, either by money or by donations, in the museum. Pioneers who have been on the plains for 50 years have donated hard earned money and heirlooms, while children in the primary grades have put on benefit programs for the museum. All types and classes of people have contributed their part to the building of the museum-professional and busienss men have done their part individually, and through civic clubs and chambers of commerces; company owners have contributed material for the museum; and workmen have promised their labor.

Only a few unpaid subscriptions stand between the eleven year old dream of the members of the Panhandle-Plains Historical Society and the massive museum building.

Shall we let this dream, so nearly realized, fade into oblivion?

### LOWERED STATUS OF TEACHERS

School teachers have never been over-burdened with what is called walk and front entrance. We for it is in the breaks of the Davis 'professional spirit"; and now it seems that the little occupational pride which has been instilled by such mediums as the N. E. A. and the front campus would enable more apparent lawless look, without a Texas State Teachers Association threatens to wither away. This fact people to enjoy the beauty of the doubt, McCamey and its neighbors is going to become even more painfully real unless the teachers do front view of the administration are an imposing looking area. something themselves to reinvest the public mind with sanity.

Everywhere in Texas, school districts are faced with circumstances which will entail the strictest economies. The case is exceptional where salaries have not been drastically lowered and where no warrants will be issued. The majority of teachers will have to be satisfied with just 'getting by" if they get a job at all. This condition, however, is one which the teachers cannot justly resent, considering the present debacle. The thing that is hurting the teaching profession and hazards its standards is the public psychology behind the situation. It's not reduced budgets, but reduced public mentality that bites to the quick.

This unhealthy state of mind, which manifestly displays a lack of faith in the public school system and the school teacher, is growing more wide-spread, and is making itself felt from rural school board to the State Legislature. It's not the idea of 'let us economize in our governmental system by stopping up the leaks and displacing waste with efffciency," but rather, "let's soak the teacher and soak him hard, and Terry and Ben Slaughter, procured

put a stop to a lot of this tomfoolery. The public school system has its outposts in every community. The son, being generous and kindschool is the one place where the citizen can see his tax money actually hearted, insisted upon the stuat work the year round. In these times of stress many citizens, because dents' drinking with him. Each THE DYAREE OF OUR of inability to look beneath the surface, look upon the school as the one of the pupils, when first asksink hole through which his "tribute" money is draining. As a result ed, seemed to abhor "cokes"; but people are becoming obsessed with the idea that the school system must be hit hard the very first thing.

Unless this line of thinking is discouraged, the teaching profession that a bet with Mr. Edmondson campus and discovered that I did will find itself so crippled and poorly supported that economic recovery, when it does come, will not mean the restoration to the public school

of its old position of influence. Teachers for the sake of themselves and their profession should deeply Sniffle, sniffle, on the with GLENN BOBBITT and reresent these unwarranted attacks, and should actively defend themselves in every instance when the opportunity presents itself. If the teachers don't, who can be expected to do so? Wherein will it be worthwhile to belong to a profession which proves its inability to defend itself against the onslaughts of "quackery"?

# VOICE OF A

The average state college cater- | velop one of the very common ining to the average democratic, feriority-complexes. and straight thinking youth of enforcement of so many useless An individual who is old enough to understand and comprehend college courses of study is undoubtedly sufficiently aged to be allowed to go out in the evening and to return at a decent hour and not be questioned by the head of the hall.

Up to recently this has been the policy adopted and used consistently by the leading dormitories in Now, the matrons are assuming a more lenient and lifelike attitude and are beginning to rely on the student for his individual behavior. Already situations once complicated are beginning to straighten out and as will always be the case matron and student are happier.

The idea that every youth is guilty until he is proved innocent is erroneous. We, citizens-to-be know, enough to get along. At an early age, we saw to it that we learned that much. The fact that at our homes we are perfectly free and are able to do whatever we wish is quite a contrast to our life while remaining in a dormitory. There we are inhibited, repressed, refused and often we de-

# THE WORLD OF SPORTS

Mel Sheppard, Olympic Star of Old, Favors "Blazing Ben" Eastman as 'the American Who'll Win Two or More Olympic World Titles This Year

FROM 1896 at Athens in the shadow of Olympus through 1928 at Amsterdam, close on the Zuider Zee, our Olympic record books · are sprinkled generously with names of American athletes who gained two or more world championships in one set of

Another Olympiad, 10th in the modern revival of the ancient Greek games, is now standing by to unfurl the banners of 50 na tions at the Los Angeles pageant of sports. And this prompts the question, "Has any American boy a chance in 1932 to add his name to the list of double winners?"

The answer is an emphatic "Yes." Half a dozen young men may prove strong enough to win a pair of titles this year, and thus join up with Kraenzlein, Hahn, Lightbody, Hillman, Ewry, Burke, Craig, Pilgrim, Prinstein, Sheppard, Tewksbury, Baxter, Sheridan and Osborn, men of other years who turned in "doubles," some of them more than two triumphs.

A CCORDING to Sheppard, the "Peerless Mel" Sheppard who out-footed the Olympic 800 and 1500-meter fields at London in 1908, our best bet for two victories this year is Ben (Bangs) Eastman, stringy Stanford star. Eastman from his records is the best quarter and half-miler in the world. Proving it in the Olympic 400 and 800-meter events may be another thing, however

We have others, too, I would say Eddie Tolan, Emmett Top-pino and Ralph Metcalfe, sprinters, must be given the chance, although the success of one would

Among the several American athletes credited with having the best chance to cop one or more world championships in one set of Olympic games this year, are George Saling, left, and Glenn Cunningham, shown in action photos above. Saling, Iowa U's 1932 track captain and star hurdler, really knows his "sailing," while Cunningham is Kansas' star miler and half-miler.

meter high sticks and he has the has equaled his amazing perform-

looks like the fellow to accom-won 10 Olympic titles, more than Louis Olympics of 1904, still plish it.

though the success of one would mean the failure of the others. Glenn Cunningham of Kansas, miler and half-miler, to win a double victory in the 800 and 1500-meter races, first would have Eastman to dispose of in the shorter race.

Another boy whose doubles chances I like very much is George of a long leap to win the running to the others.

THIRTY-TWO years ago, Alva C.

Kraenzlein, one of the greationships, he could bunch no more than three in one year. This he accomplished twice, in 1900 and 1904, when he won the standing tory in the 60-meter dash, the high and broad and hop-step-and-jumps. Four times in a row —1900, 1904, 1906, 1908—off a long leap to win the running the high and broad broad broad and hop-step-and-jumps. chances I like very much is George off a long leap to win the running Ewry won the high and broad Saling, University of Iowa's 1932 broad jump, all this at Paris. Sev-jump titles. Twice, in 1900 and track captain and star hurdler. eral since Kraenzlein have won 1904, he took the hop-step-and-saling is a star over the 110- three titles in one year, but none jump.

Although these events have speed and endurance for the 400meter low barriers. No man has
ever won both hurdle titles, but
if it is done this year, Saling rangy, raw-boned American husky,
since been taken from the Olympic program, Ewry's winning effort of 11 feet 4% inches in the
standing broad jump at the St. since been taken from the Olym-
